VOLUNTEER EXPERIENCE

Treasurer/Progress Coordinator • Smiles United • November 2020-Present

- Connect with group homes and agencies across New York State to identify the barriers to dental treatment that patients with Intellectual and Developmental Disabilities are currently experiencing due to COVID-19.
- Work alongside other dental students to develop and test strategies and create instructional videos that can be implemented by patients and caregivers to help improve dental hygiene.
- Create and distribute surveys and instructional videos to group homes and work alongside a biostatistician to interpret data.

Special Olympics • West Point, NY • May 2019

- Volunteered in a dental tent providing dental information to athletes and their families.
- Recruited athletes and their families to take part in free dental screenings and dental cleanings.

Student Ambassador • TCDM • July 2019-July 2020

- Introduced applicants to Touro College of Dental Medicine and answered any questions that they had.

Community Service Coordinator • Starbucks Woodland, CA • January 2017- August 2017

- Find volunteer opportunities in the community and organize volunteer projects for Starbucks partners in the area to participate in.
- Some community service events included planting trees, volunteering at the local food bank, harvesting crops and distributing them to local elementary schools.

Activities Volunteer • Alderson's Convalescent Hospital Woodland, CA • January 2011-May 2018

- Assisted residents in daily activities such as Arts and Crafts, BINGO, Trivia, and Cooking.

RESEARCH EXPERIENCE

ACCESS-R Participant • UC Davis Davis, CA • August 2014-December 2016

- ACCESS-R (Access of Community College Transfer Students to Research) is a program that helps transfer students in Science, Technology, Engineering, and Math (STEM) adjust to the large research university setting and to flourish in their STEM majors and careers.
- Collaborated with other ACCESS-R students in a two-week-long research boot camp that emphasized Problem-Based Learning, improving laboratory skills, stress management, and teamwork.
- Learned techniques including micro-pipetting, microcentrifuging, pH meter use and calibration, spectrophotometry, solution preparation, protein purification, and chromatography.
- Participated in academic-year seminars that focused on team-based learning and provided access to various campus resources and research opportunities.
