

Dental Care Benefits

FOR STUDENTS, FACULTY AND STAFF OF TOURO AND NYMC

Effective April 15, 2019, Touro College of Dental Medicine is introducing new courtesy rates for students, faculty and staff of the Touro College and University System (TCUS) who receive care at Touro Dental Health, the college's dental training facility located at 19 Skyline Drive in Hawthorne, NY. Touro Dental Health provides a full-range of dental care for all ages - from routine check-ups, to advanced treatment including cosmetic procedures, orthodontics, oral surgery and more - in a technologically advanced setting. These special rates are in addition to Touro Dental Health's already low fees for dental care, which are typically 20-50% less than private dental practices.

The percentages listed below will be deducted from Touro Dental Health's standard fee-for-service rates.

	Students of TCDM	Students of NYMC and TCUS	Faculty and Staff of TCDM, NYMC and TCUS
Preventive and restorative services that do not require laboratory fees	100%	25%	25%
X-rays and imaging services	100%	25%	25%
Services that require laboratory fees for treatment (i.e. crowns, bridges, etc.)	50%	25%	25%
Oral surgery	50%	25%	25%
Orthodontic services	50%	25%	25%
Zoom! whitening treatment	30%	10%	10%

Spouses, domestic partners and children are also eligible to receive these reduced rates.

**Exclusions include bone grafts and sedation.*

***All rates are subject to change.*
