ACCREDITATION

Touro College was chartered by the Board of Regents of the State of New York in June 1970. Touro College is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104, (267) 284-5000. The Middle States Commission on Higher Education is an institutional accrediting agency recognized by the United States Secretary of Education and the Council for Higher Education Accreditation.

This accreditation status covers Touro College and its branch campuses, locations and instructional sites in the New York Area, as well as branch campuses and programs in Berlin, Jerusalem, and Moscow.

Touro University California (TUC) and its Nevada branch campus (TUN), as well as Touro University Worldwide (TUW) and its division Touro College Los Angeles (TCLA), are part of the Touro College and University System, and separately accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges (WASC), 985 Atlantic Avenue, Alameda CA 94501 (Tel: 510-748-9001). New York Medical College is a separately accredited institution within the Touro College and University System.

Touro College of Dental Medicine at NYMC has received the status of initial accreditation in 2016 by the Commission on Dental Accreditation of the American Dental Association, 211 East Chicago Avenue, Illinois 60611 (Tel: 800-621-8099 or 312-440-4653).

POLICY OF NON DISCRIMINATION

Touro College treats all employees, students and applicants without unlawful consideration or discrimination as to race, ethnicity, creed, color, religion, national origin, sex, gender, age, disability, marital status, genetic predisposition, sexual orientation, citizenship status, or any other protected class in all decisions, including but not limited to recruitment, the administration of its educational programs and activities, hiring, compensation, training and apprenticeship, promotion, upgrading, demotion, downgrading, transfer, lay-off, suspension, expulsion and termination, and all other terms and conditions of admission, matriculation and employment.

Inquiries or complaints concerning the non-discrimination policies should be sent to Matthew Lieberman, 500 7th Avenue, 4th Floor, New York, New 10018, Matthew.Lieberman@touro.edu (646-565-6000, ext. 55667) or, alternatively, to the Chief Compliance Officer at compliance@touro.edu and 646-565-6000, ext. 55330.

As an alternative, individuals may contact the Office for Civil Rights of the U.S. Department of Education for inquiries concerning the above. The Office of Civil Rights in located at 32 Old Slip, 26th Floor, New York, New York 10005. They may be reached by phone at (646) 428-3800 or via email at OCR.NewYork@ed.gov.
IMPORTANT NOTICE

This Catalog contains only general guidelines and information. It is not intended to be comprehensive or to address all the possible applications of, or exceptions to, the policies and procedures of Touro. Some of the subjects described in this Catalog are covered in detail in official policy and procedure documents found online and elsewhere. You should refer to these documents for specific information, since this Catalog only briefly summarizes those policies. For that reason, if you have any questions concerning a particular policy or procedure, you should address your specific questions to the Office of Institutional Compliance. Please note that the terms of the full official policies are controlling in the case of any inconsistency.

This Catalog is neither written nor meant to confer any rights or privileges on students or impose any obligations on Touro. No individual or representative of Touro (except the President) has the authority to enter into any agreement or understanding contrary to the above.

This Catalog is written for informational purposes only and may contain errors. The policies, procedures and practices described herein may be modified, supplemented or discontinued in whole or in part, at any time with or without notice. All changes will be posted on the Touro website. Although we will attempt to inform you of any changes as they occur via the Touro email address assigned to you upon activating your TouroOne portal account, it is nevertheless your responsibility to keep current on all College policies, procedures and practices. Your assigned Touro email address is the official method of contact for all such notices and for all Touro communication.

Students are required to investigate for themselves as to whether the program they enroll in meets their personal, educational and career needs. Different jurisdictions have different licensing requirements and standards. While students may expend significant sums associated with higher education, successful completion of a course, program, or degree is dependent on many factors. The payment of tuition permits a student to register and take the courses and programs available and offered by the Touro school or program in which the student is enrolled. Acceptance in a school or program does not form the basis of a contract. Indeed, a student’s acceptance may be revoked if it is later learned, among other things, that his or her qualifications have been misstated or overstated, or there is some other omission or misrepresentation. Except as noted in the paragraph below, no contract rights exist or are established in the student-educational institution setting by and between Touro and the student. To this end, you waive and Touro disclaims any contract or liability for promises, assurances, representations, warranties, or other statements made in its marketing or promotional materials, and makes absolutely no promises, assurances, representations, guarantees, warranties or other statements concerning our courses and programs and a student’s academic success in them. Thus, you waive and Touro further disclaims any liability in tort in connection with any of the foregoing. In order for a degree to be earned, the required grades and grade point averages must be achieved and maintained, and all other requirements of the school and program must be fulfilled. These disclaimers are, in effect, covenants not to sue binding on students, and are tacitly agreed to by a student’s matriculation or continued matriculation in our programs.

Registration and matriculation at Touro after the issuance of this Catalog is consideration for and constitutes a student's knowing acceptance of the binding Alternative Dispute Resolution ("ADR") mechanisms contained herein. Thus, any dispute, claim or controversy arising out of or related to your application, registration, matriculation, graduation or other separation from Touro and/or this Catalog, which is not resolved through Touro's internal mechanism shall be submitted to non-binding mediation with a neutral mediator affiliated with an established and reputable organization engaged in alternative dispute resolution ("ADR Organization"). In accordance with the Federal Arbitration Act and to the extent not inconsistent with the primacy of federal law, all Disputes remaining after completion of the mediation shall be exclusively conducted and heard by an ADR Organization, designated by Touro in its sole and absolute discretion, before a single arbitrator who shall be an attorney. The location of the arbitration shall be at a convenient office on a Touro campus where the student is (or was last) affiliated. See “Alternative Dispute Resolution" provision for a more elaborate treatment.

Revised and reissued March 2020.
In 2016, the Touro College of Dental Medicine (TCDM) became the first dental school to open in New York State in nearly 50 years, and the newest member of Touro’s growing family of outstanding healthcare education providers. With an academic environment that is rigorous, engaging and vibrant, TCDM is preparing the next generation for rewarding careers in this top field. While our school is relatively new, average scores of incoming students on the Dental Admissions Test place TCDM in the top 10% nationwide.

Nearly half a century ago, Touro College opened with a small cohort of students. Today enrollment stands at 19,000, encompassing 34 schools around the world, including in New York, Illinois, California and Nevada, as well as in Berlin, Moscow and Israel. Our mission is to serve both the Jewish and general populations. In so doing, we provide neighborhood-based undergraduate programs for the underserved and offer a comprehensive range of baccalaureate degree programs in the liberal arts and sciences, pre-professional courses, and specialized career-oriented programs. Advanced degrees in education, law, medicine, pharmacy, allied health sciences, social work, psychology, business and technology, among others, are also available. Touro graduates attend the most competitive advanced degree programs in the country, and alumni lead nationally and internationally renowned organizations.

As we expand upon our unprecedented growth, Touro is forming an integrated network of centers of academic excellence, synthesizing the best of our past with our future aspirations. Touro is deeply committed to serving humanity and building a better world, as well as to providing personal attention for students seeking to maximize their personal and professional growth. In carrying out our goals, we continue to work with our students in a collective effort to help make the world a better place for all.

Thank you for joining us in pursuit of our mission and your dreams. I wish you the greatest success in achieving your academic and professional aspirations.

Alan Kadish, M.D.
Alan Kadish, M.D. is President of the Touro College and University System, the largest Jewish-sponsored educational institution in the United States.

Before succeeding Dr. Bernard Lander as Touro’s second president in March 2010, Dr. Kadish distinguished himself as a prominent cardiologist, dedicated teacher and researcher, and experienced administrator.

**From the Classroom to the Boardroom**

A graduate of the Albert Einstein College of Medicine at Yeshiva University, Dr. Kadish received postdoctoral training at the Brigham and Women’s Hospital, an affiliate of Harvard Medical School, and at the Hospital of the University of Pennsylvania, where he was a fellow in cardiology. He is board certified in internal medicine, cardiovascular disease, and cardiac electrophysiology.

Prior to joining Touro in 2009 as Senior Provost and Chief Operating Officer, Dr. Kadish taught at the University of Michigan and held a 19-year tenure at Northwestern University. He served Northwestern as the Chester and Deborah Cooley Professor of Medicine, Senior Associate Chief of the Cardiology Division, Director of the Cardiovascular Clinical Trials Unit, and sat on the finance and investment committees of the Northwestern clinical practice plan.

An accomplished and prolific research scientist as well, he has published over 250 peer-reviewed papers, received numerous grants, including from the National Institutes of Health and the National Science Foundation, and contributed to several textbooks.

Dr. Kadish is a past chair of the Clinical Cardiology Program Committee of the American Heart Association, and has been elected to prestigious scientific research and education societies including the American Association of Professors, the American Society for Clinical Investigation, and the American Society of Physicians.

**Jewish Values, Global Vision**

As a forward thinker and a deeply committed observer of the Jewish faith, Dr. Kadish was a natural fit with our mission to serve the educational needs of our varied constituencies throughout the country and around the world.

He has helped Touro expand its unique offerings for Jewish and underserved communities while becoming a top-tier institution for the study of health sciences and medicine. Our distinct medical programs—two colleges of pharmacy, four colleges of medicine, and graduate schools and programs in health sciences—serve increasingly large and dynamic student populations. The Touro College and University System is one of the largest healthcare educational systems in the U.S., and Dr. Kadish has positioned Touro to lead a new era in medicine.

In providing educational opportunities that are rigorous, accessible, and—perhaps most of all—relevant, Dr. Kadish keeps our vision clear and progressing ever forward. Under his leadership, we continue to prepare a new generation of scholars, entrepreneurs, and leaders for the world ahead.

Dr. Kadish, who was born in Brooklyn, raised in Queens, and educated in yeshivas in New York, is married with four children.
Dr. Bernard Lander was an inspirational leader and visionary who revolutionized the field of education. As an educator and preeminent scholar, Dr. Lander devoted his life to Jewish and general higher education. Dr. Lander founded Touro College in 1970 and served as its first president until his passing in February 2010. Under his stewardship, Touro underwent significant growth, becoming an institution with multiple campuses and international reach. Today, Touro educates approximately 19,000 students across the United States and around the world.

Dr. Lander’s creative genius and original thinking continues to be reflected in Touro’s innovative approach to the field of higher education. He believed that it was his mission in life to strengthen Jewish continuity through the myriad of Torah and educational institutions that he established, and to provide opportunities for advancement for individuals from all walks of life.

Before founding Touro College, Dr. Lander was recognized as one of the foremost influences on American Jewry. After receiving semicha (rabbinical ordination) from his beloved teacher, Rabbi Moshe Soloveitchik, he assumed the prestigious pulpit position at Beth Jacob Congregation in Baltimore, Maryland. Soon thereafter, in recognition of his work at Columbia University while earning his doctorate in sociology and his communal leadership, he was named associate director of former New York City Mayor Fiorello LaGuardia's Committee on Unity, a precursor to the city's Commission on Human Rights.

In 1958, Dr. Lander was appointed dean of the Bernard Revel Graduate School of Yeshiva University, where he played a major role in the establishment of a network of graduate schools. He also served for over thirty years as vice president of the Union of Orthodox Jewish Congregations, where he emerged as a spokesman for the American Jewish community and was deeply involved in the creation of its acclaimed youth movement, the National Conference of Synagogue Youth. Simultaneously, he was a professor of sociology at The City University of New York and was selected to serve on several presidential commissions that dealt with social policy issues. Touro College and Touro University are Dr. Bernard Lander’s legacies, institutions that will continue to provide quality education for many generations to come.
MESSAGE FROM THE PROVOST, GRADUATE AND PROFESSIONAL DIVISIONS

Dear Touro College of Dental Medicine Students,

Congratulations on choosing Touro College of Dental Medicine (TCDM) to continue your education. At TCDM you will find a vibrant intellectual health care education community where faculty and students interact with respect and professionalism and work side-by-side conducting research and serving the community. You have selected a dental school that is student-centered and focused on your success. We have a lot to offer, and hope that you will, in turn, take advantage of myriad opportunities for learning and inquiry, both inside and outside of the classroom.

Since TCDM is uniquely positioned within the Touro College and University System network as it is located on the campus of New York Medical College, you will have opportunities to engage in research, participate in our college-wide Research Day, engage with thought-leaders in the health care space, and interact with health care professionals across many specialty areas. You will also have opportunities to work side-by-side with colleagues from Touro’s rich health sciences offerings to learn together through various inter-professional education (IPE) experiences. This is an exceptional opportunity offered in the context of a university system that graduates 7,000 students annually in medicine, health sciences, dentistry, pharmacy and related disciplines such as physician assistant, nursing, physical therapy, occupational therapy, speech and language pathology, mental health counseling, and social work.

It is indeed the people that make the place. At TCDM the faculty, administration, and staff are warm, caring, and committed to your success. Your TCDM education will provide the subject matter and skills knowledge required to excel as a Doctor of Dental Medicine. Because of our mission and commitment to social justice and serving the underserved, you will hone leadership skills that will enable you to help others and to make a difference.

Please familiarize yourself with the programs and policies contained in this catalog as they will guide you throughout your academic journey at TCDM.

I look forward to meeting you and to watching you reach your academic and career goals, first as students and then as alumni. Best wishes for a meaningful experience at TCDM.

Sincerely,

Patricia E. Salkin, J.D.
A MESSAGE FROM THE DEAN

The opening of the first dental school in New York State in almost 50 years is an opportunity of a lifetime and the students who come to participate are educated in a remarkable environment which will produce oral health care providers for decades to come.

I have spent the past thirty-seven years in dental education and I know there has never been a more exciting time in the profession. The changes in the health care delivery system, the new technology, and the cutting-edge research all point to an incredible future. Here at the Touro College of Dental Medicine you will be exposed to all of these and more. Our mission “is to graduate outstanding dental professionals who will utilize a complex knowledge base and sophisticated perceptual skills to deliver excellent health care service to their diverse communities with integrity, compassion, and empathy.” Our curriculum will address this as we evolve to become a leader in graduating clinicians who will advance the science and practice of dentistry.

The collaborative resources available on the New York Medical College campus, where TCDM is located, offer endless possibilities to educate you, the oral health professionals of the future as well as the interprofessional opportunities of other health professional students. The educational program at the Touro College of Dental Medicine will equip our diverse student body with the tools necessary to educate our patients about primary care and provide oral health care to a broad community, especially those most at risk.

Welcome to the Touro College of Dental Medicine!

Ronnie Myers, D.D.S.
MISSION STATEMENT

Touro College is an independent institution of higher education under Jewish auspices, established to transmit and perpetuate the Jewish heritage, as well as to serve the general community in keeping with the historic Jewish commitment to intellectual inquiry, the transmission of knowledge, social justice, and service to society.

Touro offers undergraduate and graduate programs in Jewish studies, the liberal arts and sciences, and the professions including education, law, medicine, pharmacy, health sciences, social work, and business. These programs serve diverse components of the Jewish community and the larger society, especially those who have been underserved in the past. Touro is a college where personal growth, scholarship and research are fostered and where men and women are prepared for productive lives of dignity, value, and values.

The Jewish heritage embraces two fundamental components, the particular and the universal, as reflected in Hillel's dictum in Ethics of the Fathers, "If I am not for myself, who will be for me? And if I am concerned only with myself, what am I?" This teaching shapes the core values of the college, which include a commitment to quality education for all, the treatment, with integrity and respect, of all students, faculty and staff, the role of ethics in the professions, and the building of a responsive and responsible society.

GOALS

1. To transmit and enrich the Jewish heritage and its tradition of intellectual inquiry, as well as to incorporate Jewish studies into programs on the undergraduate, graduate and professional levels
2. To promote sensitivity to ethical concerns and social responsibility through both the curriculum and community outreach
3. To further the career interests and professional aspirations of our students though a broad range of academic programs and related activities
4. To advance proficiency in communication, information and technological literacy, analytical skills, and quantitative reasoning
5. To promote and support faculty and student research and scholarship
6. To develop and provide educational opportunities to underserved students in diverse communities
7. To maintain Touro as a learner-centered community in consonance with the college mission
8. To expand educational opportunities through distance learning and blended programs
INTRODUCTION

This catalog is intended to be a guide to students, informing them of their rights and responsibilities as well as institutional policies and procedures. It does not constitute a contract, and therefore the College reserves the right to make changes at any time without prior notice. This edition replaces and supersedes all prior editions.

Students are responsible for knowing and observing all regulations which may affect their status at the College. For this reason, they are expected to acquaint themselves with the contents of this catalog and to read regularly the notices posted on the Touro website.

In addition, individual programs within the Touro College may have their own handbooks outlining the policies and procedures that apply specifically to students in those programs. In such cases, the student is responsible for knowing both the school-wide and program policies.

TCDM students are responsible for being familiar with current academic regulations, requirements and policies as contained in this catalog and in the TCDM Student Handbook. Current versions of these documents and policies can be found on the TCDM website. Students are also responsible for knowledge of official announcements and other documents issued by TCDM.

THE TOURO COLLEGE AND UNIVERSITY SYSTEM

The Touro College and University System ("Touro" or "the College") is a Jewish-sponsored independent institution of higher learning and professional education. The College was established to further the Jewish heritage and to serve the larger American community. Approximately 19,000 students are currently enrolled in Touro’s various schools and divisions.

Touro College was chartered by the Board of Regents of the state of New York in June 1970 and opened a year later. The College grew from an initial class of 35 students to an international university system of approximately 19,000 students worldwide today. The mission of perpetuating and strengthening Jewish heritage, while at the same time providing the highest quality educational opportunities to society as a whole, continues to inform all of Touro’s endeavors. Today, Touro enjoys the strong leadership of Chancellor Rabbi Daniel Lander and President Dr. Alan Kadish in furthering Touro’s historic mission.

Touro’s schools serve a variety of communities, providing diverse, innovative and engaging courses in a range of fields - from medicine and pharmacy to law; business to education; and speech pathology to Jewish studies. The distinctive educational experience offered through Touro’s diverse programs are in keeping with the Jewish intellectual tradition of commitment to the transmission of knowledge, social justice, compassionate concern for society and respect for applied knowledge and discovery.
It is this commitment to a Jewish intellectual tradition that is at the foundation of Touro’s many outstanding achievements by faculty and students throughout our system. At the same time, the Touro College experience consists of more than classroom instruction - Touro fosters an atmosphere of warmth, in which close faculty-student relationships, student camaraderie and individual attention are nurtured in many ways.

**ENHANCING THE JEWISH HERITAGE**

Touro’s first college, the Touro College of Liberal Arts and Sciences, was established in 1971. In 1997 Touro designated the various divisions of the College as The Lander Colleges, in honor of Founding President Dr. Bernard Lander, for his historic contribution to higher Jewish education in America. The Lander Colleges are comprised of the Lander College of Arts and Sciences Flatbush (with separate divisions for men and women); the Lander College for Women – The Anna Ruth and Mark Hasten School in Manhattan; and the Lander College for Men in Kew Gardens Hills, Queens. The Lander Colleges embody Touro’s commitment to enrich the college experience for young Jewish men and women. The Graduate School of Jewish Studies admitted its first class in 1981, preparing students for careers in education and community service. In 1989, Touro pioneered the School for Lifelong Education (SLE) to serve the academic needs of the Hasidic community, whose unique culture, commitment, and lifestyle required bold and innovative approaches to higher learning. The Institute for Professional Studies (IPS) – Machon L’Parnasa - was established in 1999 to provide practical applications in higher education for the ultra-orthodox community. In 2005, Touro College Los Angeles (TCLA) was created, following a curriculum modeled after The Lander Colleges.

**FULFILLING NEEDS - AND BUILDING STRENGTH - IN HEALTH CARE**

In 1997, Touro established a Western Division, Touro University California, with the opening of Touro University College of Osteopathic Medicine (TUCOM) in San Francisco. In 1999 the College moved to its current site on Mare Island in Vallejo, California. Also on Mare Island, Touro opened the Touro University College of Pharmacy (TUCA COP), which admitted its first class in 2005. In 2010, the College of Education and Health Sciences (CEHS) was created with the merger of the College of Education, which opened in 2004, and the College of Health Sciences, which opened in 2002. In 2004, Touro University Nevada (TUN) was established as a branch campus of Touro University California to help address critical needs in health sciences and education and as a resource for community service in the state of Nevada. The Touro University Nevada College of Osteopathic Medicine (TUNCOM) opened in 2004 in response to a shortage of primary care physicians and physician assistants throughout Nevada and the southwest. TUN’s College of Health and Human Services, opened in 2005, offers numerous degree programs in health sciences and education, and has implemented extensive community outreach to assist underserved populations in southern Nevada.

**CHARTING NEW TERRITORY IN LAW, BUSINESS AND TECHNOLOGY**

In 1980, the Touro College School of Law, today the Touro College Jacob D. Fuchsberg Law Center, was established to develop lawyers who temper practical knowledge with perceptive judgment. In 2007 the Center moved to a new law complex in Central Islip, adjacent to and working...
with a federal and state courthouse – the first law campus of its kind in the country. Established in the late 1980’s as Touro’s International School of Business and Management (ISBM), in 1998 the Graduate School of Business was founded in New York City’s financial district where it offers graduate degree programs encompassing a variety of business and management subjects as well as training to work effectively in a world market of independent economies. Also in 2007 the Graduate School of Technology was opened to educate technology leaders through degree programs that reflect the power and pace of technological change. In 2008, Touro College launched Touro University Worldwide (TUW), an online university that offers graduate degree programs to students who are lifelong learners or interested in furthering their professional development.

**EDUCATING THE EDUCATORS, SERVING THE COMMUNITY**

Touro’s Graduate School of Education, which for a time became the Graduate School of Education and Psychology, launched in 1993 to prepare America’s future leaders in education. The Graduate School of Education has one of the largest teacher education programs in New York State, and through its Lander Center for Educational Research assists public schools in addressing problems that impact student achievement and equality of educational opportunity. The New York School of Career and Applied Studies (NYSCAS) was established in 2002 through the merger of the School of General Studies (SGS), founded in 1974, and the School of Career and Applied Studies (SCAS), launched in 1985. NYSCAS’ mission is to provide quality undergraduate educational experiences at multiple locations throughout New York City that reflect the city’s economic, ethnic and social diversity. In 2006 the Touro College Graduate School of Social Work was created to inspire and prepare graduates for clinical social work practice in a variety of urban and multicultural environments. The School prepares students to advocate effectively for the most underserved in society. In 2008, the Graduate School of Psychology was organized as a self-standing school, and in 2016 it became a new Department of Behavioral Science within the School of Health Sciences.

**FORGING TIES WITH ISRAEL AND REVITALIZING JEWISH LIFE IN EUROPE**

Touro College in Israel (TCI) was established in 1986 to provide the English-speaking population in Israel with the opportunity to earn credits towards an academic degree while studying in Israel. In 2004, an affiliate of Touro with a separate Israeli charter, Machon Lander, was recognized by Israel’s Ministry of Higher Education. Machon Lander offers more than 100 courses at several schools, including graduate courses and undergraduate programs.

In 1991, Touro College became the first American higher education institution to establish a program of Jewish studies in Moscow. The School of Jewish Studies, now renamed the Lander Institute Moscow, was established to afford members of the Jewish community a greater awareness of their Jewish heritage, offer them a well-rounded general education, and to provide professional preparation to serve organizations and schools. In 2003, Touro began offering an academic program through Touro College Berlin and in 2005 the Lander Institute for Communication about the Holocaust and Tolerance was founded with a focus on examining the range of its consequences.

TOURO COLLEGE OF DENTAL MEDICINE MISSION

The Touro College of Dental Medicine (TCDM) at New York Medical College is a teaching and research institution, committed to innovation and diversity. Integrating the principles of Touro’s mission, the hallmarks of the DDS program are a strong academic education and community involvement. Incorporating the Macy Report recommendations, The Touro College of Dental Medicine has a basic science curriculum developed in conjunction with New York Medical College’s School of Medicine, an allopathic (MD) medical school.

MISSION STATEMENT

The mission of the Touro College of Dental Medicine at New York Medical College is to graduate outstanding dental professionals who will utilize a complex knowledge base and sophisticated perceptual skills to deliver excellent health care service to their diverse communities with integrity, compassion, and empathy. The school is dedicated to conducting important educational and clinical research, while providing excellent dental health services to the public.

TCDM COMPETENCIES FOR THE PRE DOCTORAL CURRICULUM

1. Professionalism and Ethics
   1.1. Provide compassionate, humanistic and ethical care to a diverse population of patients.
   1.2. Communicate effectively with peers, other professionals, staff, patients or guardians, and the public at large.
   1.3. Recognize the role of lifelong learning and self-assessment in maintaining competency.

2. Critical Thinking
   2.1. Apply critical thinking, problem-solving skills and/or basic biomedical science foundational knowledge in the comprehensive care of patients.
   2.2. Evaluate and integrate best research outcomes with clinical expertise, patient values and/or basic biomedical science foundational knowledge for evidence-based practice.

3. Practice Management
   3.1. Comply with federal, state, and local regulations pertaining to all clinical procedures.
   3.2. Evaluate relevant models of oral health care management and delivery.
   3.3. Understand the basic principles and philosophies of practice management and have the skills to function successfully as the leader of the oral health care team.
   3.4. Establish and maintain patient records and assure confidentiality of information.
4. **Patient Assessment**

4.1. Identify a patient’s chief complaint, general needs, past medical and dental history, and treatment expectations.

4.2. Perform a clinical examination of the head and neck and intraoral structures.

4.3. Apply information technology resource in contemporary dental practice.

4.4. Assess the need for and apply radiographic selection criteria, perform selected intra and extra-oral radiographic procedures.

4.5. Recognize predisposing and etiologic factors that require intervention to prevent disease.

4.6. Interpret findings from the history, clinical and radiographic examinations, and other diagnostic procedures.

4.7. Recognize the manifestations of systemic disease and how the disease and its management may affect the delivery of dental care.

5. **Treatment Planning**

5.1. Formulate and discuss with the patient an individual, comprehensive, sequenced treatment plan and alternate plans based on relevant diagnostic finding and patient considerations.

5.2. Discuss etiologies, prognosis, and preventive strategies with the patient, educate the patient so they can participate in the management of their own oral health care.

5.3. Identify the need for and manage timely referrals and consultation with other health care providers when appropriate.

6. **Patient Care: Diagnose and Manage (i.e., refer or treat) the oral health care of the child/adolescent and adult, as well as the unique needs of geriatric, and special needs patients. This includes:**

6.1. Dental pain and emergencies, including trauma.

6.2. Performing and evaluating therapies that emphasize prevention of oral disease

6.3. Restoring missing or defective tooth structure to proper form, function, and esthetics.

6.4. Patients with partial or complete edentulous areas.

6.5. Patients with periodontal disease.

6.6. Patients with pulpal disease and related periradicular pathology.

6.7. Patients with temporomandibular disorders.

6.8. Patients with malocclusion in the primary, mixed, and permanent dentition.

6.9. Patients with oral mucosal and osseous disorders.

6.11. Identifying and managing patients with pain and anxiety associated with dental procedures.

Touro College of Dental Medicine | 2019 – 2021 Catalog
6.12. Selecting and administering and/or prescribing appropriate pharmacological agents in the treatment of patients with dental disease.

6.13. Applying principles of behavioral patient management and interpersonal skills as they pertain to patient-centered approaches for promoting, improving, and maintaining oral health.

6.16. Periodically assess and monitor the outcomes of comprehensive patient care.

**CAMPUS FACILITIES**

19 Skyline Drive

The home of the Touro College of Dental Medicine is a 250,000 square-foot, five-floor building with ample parking, located at 19 Skyline Drive in Hawthorne, NY. The building accommodates clinical administrative, faculty and staff. It contains an auditorium, conference room, a library, and a dining facility. Also located there is the Dr. Edward F. and Mrs. Anna M. Asprinio Fitness Center – a full service, 25-machine workout area with attached yoga studio and weight room.

In addition to classrooms, the building includes a computerized testing center, a simulation lab, and a 132-chair clinic facility – which is divided into eight clinical practice units. It also includes a separate pediatric dentistry and oral and maxillofacial surgery clinic.

The offices of the Bursar and Registrar serving TCDM are located in the nearby Administration Building, also known as Sunshine Cottage.

**Medical Education Center (MEC), Basic Sciences Building (BSB), and Health Sciences Library (HSL)**

The Medical Education Center (MEC) is a 56,000 square-foot, four-story building, located on the NYMC campus. The MEC contains a 250-seat auditorium, module classrooms, and the anatomy laboratory.

The Basic Sciences Building (BSB) has approximately 122,000 square feet of laboratory and office space dedicated to research. The space is configured as open laboratories with core instrument areas in order to provide maximum flexibility for the recruitment of top-level faculty scientists.

The Health Sciences Library (HSL) is located at the junction between the Basic Sciences Building and the Medical Education Center. The Library consists of approximately 19,000 square feet, with an additional 3,000 square feet at a branch location at 19 Skyline Drive. The HSL features two computer rooms, two small group study rooms, a 20-person classroom, conference room and ample study carrels.
The Health Sciences Library has enjoyed a 40 percent expansion from its previous space, offering larger areas for collections, study and teaching, and rooms for the Harvey cardiac teaching models and Educational Media Services. The second and third floors can accommodate up to 216 students in a variety of flexible configurations within nine module classrooms, each divided into small group teaching and study rooms. The entire fourth floor of the MEC is dedicated to the Alumni Gross Anatomy Laboratory. The lab is used to teach medical students in the fall and dental students in the spring.

TOURO COLLEGE LIBRARIES

TOURO COLLEGE OF DENTAL MEDICINE – LIBRARY RESOURCES

Touro College maintains eleven libraries for student use in the New York area – two in Manhattan, six in Brooklyn, two in Queens, and one in Suffolk County. The libraries are led by 29 professionals (24 full-time and 5 part-time) who hold Master’s degrees from institutions accredited by the American Library Association, aided by a skilled support group of 13 full-time staff members who hold Bachelor’s degrees. Hours of operation at all of the libraries are scheduled to allow ample access before and after classroom sessions. Services at all locations include library instruction, research advice, and reference assistance, which promote information seeking and evaluation skills as an integral part of the College and its programs.

Touro College librarians have developed a LibGuide specific to dental students. This research guide assists students in finding hand-picked resources and can be found at http://libguides.tourolib.org/c.php?g=456890&p=3122295.

In consultation with faculty, librarians have amassed a strong collection of materials specific to Touro’s health sciences programs. These resources include 9,287 e-books, 647 e-journals, 19,086 print books, and 44 current print journals, as well as electronic resource e-book collections that directly support dental students. Among these are:

- *Access Medicine*
- *Ebook Central*
- *EBSCO eBook Collection*
- *MEDLINE*
- *Mental Measurements yearbook with Tests in Print*

The libraries also offer links to a number of important databases, including:

- Cochrane Library Dentistry Search
- PubMed Dentistry Search
- Access Medicine Dentistry Search
- Trip Dentistry Search
- Health and Medical Collection
Touro College students access all library online materials (databases, e-books, e-journals, et al.) by signing onto the TouroOne portal.

In cases where items or resources are not available at a Touro library, library staff will reach out to non-Touro libraries to obtain them. No charge is imposed for this service.

Faculty and student workshops on information literacy are conducted regularly. Tutorials and webinars have been added to complement the library teaching and learning component. Librarians often team-teach with faculty, and embedded library sessions help to integrate information literacy into students’ coursework, and across the curricula.

**NEW YORK MEDICAL COLLEGE LIBRARY**

The Main Health Sciences Library is located at the junction of the Basic Sciences Building (BSB) and the Medical Education Center (MEC), right off the BSB Lobby and across from the cafeteria. The Health Sciences Library (HSL) serves all faculty, students, employees, and sponsored residents and fellows of the New York Medical College and the Touro College of Dental Medicine. The HSL fosters excellence and innovation in education, research, and scholarship through the provision of curated resources, expert services, facilities conducive to independent and collaborative learning, and wide-ranging community partnerships in support of the university mission.

The New York State Library has designated the Health Sciences Library as a Leader Electronic Doorway Library. The Library is also a Resource Library in the Middle Atlantic Region (MAR) of the National Network of Libraries of Medicine (NN/LM). The Library actively participates in the Online Computer Library Center (OCLC) global network and remains a full member of METRO, the New York metropolitan area library planning cooperative. Loansome Doc use is promoted and encouraged; METRO card access for the public is honored via local libraries. The Library is also a founding member of the HILOW+ library consortia, composed of health sciences libraries in the upper Westchester County and Hudson Valley region of New York State.

**Health Sciences Library (HSL) Information**

Mailing address: Health Sciences Library, 15 Dana Road, Valhalla, NY 10595  
Phone: (914) 594-4200  
NYMC Library Director: Marie Ascher, MS, MPH, AHIP (marie_ascher@nymc.edu)  
TCDM Liaison, Associate Director: Deborah Crooke, MLIS, MPH (deborah_crooke@nymc.edu)

**Health Sciences Library Hours**

The Health Sciences Library is open 24/7 but is ID access only outside of normal service hours. Normal service hours are as follows:
- Monday - Thursday: 8:00 a.m. – 10:00 p.m.
- Friday:
  - April - September: 8:00 a.m. – 5:00 p.m.
  - October - March: 8:00 a.m. – 3:00 p.m.
- Saturday: Closed for Sabbath
- Sunday: 12:00 p.m. – 8:00 p.m.

**HSL Calendar Schedule**

For more information on library service hours and events, check out our calendar [here](#).

Students in the dental school have onsite access to the physical space and onsite resources of the Health Sciences Library, but also have full online and off-campus access to the resources of the [Touro College Libraries](#).

**Skyline Library Information:**

Mailing address: GN-F22, Ground Floor, 19 Skyline Drive, Hawthorne, NY 10532

Phone: (914) 594-2032

TCDM Liaison, Associate Director: Deborah Crooke, MLIS, MPH ([deborah_crooke@nymc.edu](mailto:deborah_crooke@nymc.edu))

NYMC Library Director: Marie Ascher, MS, MPH, AHIP ([marie_ascher@nymc.edu](mailto:marie_ascher@nymc.edu))

**Skyline Library Hours**

The Skyline Library can be accessed by ID card swipe 6:00 a.m. – 12:00 a.m. 7 days a week. A security guard is stationed at the lobby desk from 8:00 a.m. - 12:00 a.m. on weekdays.
The Touro College of Dental Medicine strives to admit those candidates who are best qualified academically and exhibit the potential to become outstanding graduates. Numerous factors are considered in the admissions process. First, one must have the passion, drive and aptitude to become a dentist. A candidate must have an undergraduate education that includes pre-dental science courses as well as a broad exposure to the humanities and social sciences. Academic competence to succeed in dental school is assessed through the applicant’s college record, GPA, and DAT scores. Applicants must also show evidence of those personal characteristics expected of a dental professional: altruism, compassion, honesty, integrity and, in keeping with TCDM’s stated mission, a commitment to provide care for people who are disadvantaged and underserved. A dental student must possess excellent observation and communication skills, superior motor functions, and the conceptual, integrative and quantitative skills needed to study and practice dentistry. A future dentist must have the physical capacity and emotional maturity to complete dental school and practice dentistry independently.

The application process is competitive and each applicant is given an individual, flexible holistic review. Admission criteria are not weighted. It is the policy of TCDM to seek to admit a diverse class with respect to gender, race, ethnicity, cultural and economic background, and life experience. Strongly motivated students from educationally deprived and historically underrepresented backgrounds are actively sought and encouraged to apply. TCDM believes that a diverse student body provides a valuable educational experience that prepares the dental student for the real world of dental practice in a multicultural society.

All policies regarding admissions, employment, and educational programs and activities are established and administered in conformity with the laws of the State of New York as well as applicable federal laws including, but not limited to, Title IX of the Education Amendments Act of 1972, and with Section 504 of the Rehabilitation Act of 1973, as amended, and regulations thereunder, prohibiting practices or policies in admissions, education programs or employment that are in any way discriminatory on the basis of gender or disability, respectively.

**ACADEMIC REQUIREMENTS**

In addition to the undergraduate coursework specified below, our admission requirements are as follows:

**BACHELOR’S DEGREE**

You will need a baccalaureate degree from an accredited college or university. All courses offered in satisfaction of the requirements for admission must be taken in or accepted as transfer credits by an accredited college in the United States or Canada and must be acceptable to that institution toward a baccalaureate degree.

Students who have not yet received their Bachelor’s degree, but have completed at least 75% of their undergraduate credits, may request that they be considered for admission.
DENTAL ADMISSION TEST (DAT)

All candidates are required to take the Dental Admissions Test recommended and approved by the American Dental Association (ADA). This test is viewed by the Admissions Committee as evidence of minimal academic competence and as a standardized test which allows appropriate comparisons. The DAT must be taken prior to the supplemental application deadline of January 31 of the application year, and within the three years prior to the year of entry. In cases where students have taken multiple DAT examinations, the most recent score will be used to assess candidate performance.

GRADE POINT AVERAGE (GPA)

Although the TCDM will evaluate each student’s record on an individual basis, the candidate must have achieved a minimum science GPA of 2.7 and an overall GPA of 2.7 on a scale of 4.0 in a professional or graduate or undergraduate studies program to be eligible for consideration to the DDS program. Students’ success in undergraduate science courses will be evaluated based on increasing academic performance over time.

LETTERS OF EVALUATION

You will need to include one (1) Pre – Dental Committee letter of evaluation OR three (3) letters of evaluation from undergraduate faculty.

- If you opt for the three letters of evaluation from undergraduate faculty, two (2) letters must be from science faculty who taught the applicant or supervised independent research for credit.
- Acceptable science courses include: biology, chemistry, physics, bio-medical engineering, or bio-engineering, etc. (Math is not considered a science course for purposes of letters of evaluation.)
- The third letter of evaluation can be from a non-science course or volunteer work done in a dental office/clinic.
- One (1) of the letters of evaluation must be from an instructor in a course in the applicant’s major.
- If your date of graduation prior to 2016 (this does not include 2016) and are unable to obtain letters of evaluation from your undergraduate or graduate school, you may submit other academically oriented letters. However, providing the letters requested will strengthen your application.

GRADUATE SCHOOL

If an applicant has completed or is currently completing a graduate degree, in addition to the undergraduate letters outlined above, a graduate pre-dental advisory committee or individual graduate letter of evaluation is required.
OPTIONAL LETTERS OF EVALUATION

Letters of evaluation from employers and/or volunteer clinical or community service experiences are highly recommended, but not required.

UNDERGRADUATE COURSEWORK

Students interested in the DDS program need to meet the following prerequisites in their undergraduate or post-baccalaureate study. The Admissions Committee has no preference for a major field of undergraduate study, but any college work submitted must include specified credits in chemistry, physics, biology and English. Science courses must include substantial laboratory work.

- General Biology, 2 semesters or equivalent, with labs
- General Chemistry, 2 semesters or equivalent, with labs
- Organic Chemistry, 1st semester or equivalent, with lab
- Biochemistry, 1 semester, with or without lab
- Physics, 2 semesters or equivalent, with labs
- English, 2 semesters or equivalent (or successful completion of the English requirements of your undergraduate institution’s requirement for graduation)

TCDM reserves the right to waive any of these requirements for an individual applicant.

APPLICATION PROCESS

1. Applicants should review the Touro College of Dental Medicine website prior to applying at https://dental.touro.edu/admissions/ for instructions on academic & letter requirements

2. Primary Applications and materials required for admission must be submitted through the ADEA_AADSAS (ADEA's Associated American Dental Schools Application Service), available at portal.aadsasweb.org, between June 1 and February 1 in the year prior to entry.

3. The AADSAS deadline is February 1 for TCDM.

4. All applicants, after completion of a verified AADSAS application, will receive a TCDM Secondary email with instructions on submitting a $100-dollar processing fee which will allow us to move you to the next steps in the process.

5. Interviews are conducted from November through March. Admissions decisions will be made on a rolling basis. Applicants can expect to be notified no earlier than December 1 of the academic year prior to the academic year of matriculation. TCDM follows the American Dental Education Association traffic guidelines.
ACCURACY OF ADMISSION APPLICATION

Applicants are expected to ensure that all information presented in their application is accurate, and complete, and that personally written materials were prepared exclusively by the applicant. They must also ensure that any information submitted on their behalf including letters of evaluation, is authentic. In the event any inaccurate, misleading and/or incomplete information or knowing omission is discovered, the Touro College of Dental Medicine has the right to rescind any offer of admission, revoke any admission (including retroactive revocation), administer disciplinary action while in dental school, dismiss the student from the school of dental medicine, or revoke his/her dental degree if such information or omission is discovered after a degree is issued.

TRANSFER STUDENTS

TCDM is not accepting transfer students at this time.

TECHNICAL STANDARDS FOR ADMISSION

Every applicant who seeks admission to the Touro College of Dental Medicine is expected to possess those intellectual, ethical, physical, and emotional capabilities required to undertake the full curriculum and achieve the levels of competence required by the faculty. Once enrolled in TCDM, each candidate for the DDS degree must quickly and accurately be able to integrate all information received, perform in a reasonably independent manner, and demonstrate the ability to learn, integrate, analyze and synthesize information and data.

TCDM will make every effort to provide reasonable accommodations for physically challenged students. However, in doing so, TCDM must maintain the integrity of its curriculum and preserve those elements deemed essential to the acquisition of knowledge in all areas of dental medicine, including the demonstration of basic skills requisite for the practice of dental medicine. If you will be requesting reasonable accommodations, please reach out to the Touro College Office of Disability Services.

DESCRIPTION OF TECHNICAL STANDARDS

Students must be able to demonstrate certain essential functions and non-academic skills in order to be accepted into and receive a degree from TCDM. The following “technical standards” are consistent with Section 504 of the 1973 Rehabilitation Act (PL93-112) and the Americans with Disabilities Act (ADA PL.101336, 1990). These are minimal technical standards which must be met by all students, with or without reasonable accommodations, who have been admitted to any of the programs of or associated with TCDM. TCDM does not recognize an intermediary who may perform some or all of the technical standards as a reasonable accommodation.

Inherent in these standards is the concept that an oral health care professional who has obtained a degree from TCDM represents to all that he or she is completely prepared for and competent in
the practice of clinical dentistry. The receipt of the degree implies that the technical skills, necessary knowledge, et.al. have been attained by the degree or the Certificate of Training, through caring for a broad variety of patients. Any person wishing to apply to TCDM must be able to possess the motor skills, the intellectual skills, the observational and communication skills, the social and behavioral skills, and the ability to quantitate and integrate all of the preceding in order to attain the degree. The award of a degree or certificate of training carries with it the full authority of TCDM and is intended to communicate to all who might seek the services of the degree recipient that said recipient is competent to practice all phases of general clinical dentistry. In order to attain the skills, judgment, and professionalism inherent and implied by that degree, certain cognitive and technical skills must be exercised in order to master the entire didactic and clinical curriculum. Every student must pass every course in the curriculum in order to receive the degree.

All students must demonstrate the essential skills that are necessary to fulfill the degree requirements, which are embodied in the following technical standards. These standards include motor, communication, cognitive, sensory, observational, and behavioral skills. Acquisition of these skills is directly linked to the competencies of the curriculum, which in turn are intended to foster an individual’s ability to meet the degree’s requirements. The Class Committees of TCDM will monitor individual student progress in all of the knowledge and skill areas.

Accordingly, Touro College of Dental Medicine requires each student to meet certain technical requirements, which include:

1. *Ethics and Professionalism*
   - GENERAL: A student must maintain the standards of conduct for ethics and professionalism as set forth in the American Dental Association’s Principles of Ethics and Code of Professional Conduct.
   - SPECIFIC: A student must always act in the best interest of the patient and society even when there is a conflict with the student's personal self-interest. The student must conduct oneself as a trustworthy and responsible citizen and act with impeccable integrity in their interactions with students, faculty, staff and the public. A student must refrain from actions that detract from the professional atmosphere or orderly appearance of the College of Dental Medicine or University, including personal appearance or other actions. This expectation would also apply when attending any school-sponsored or related activities, such as preceptorships and externships.

2. *Motor Skills*
   - GENERAL: A student must possess sufficient motor functioning to execute movements essential to providing oral health care to patients.
SPECIFIC: A student must possess the motor skills to perform palpation, auscultation and other diagnostic maneuvers, basic laboratory tests, diagnostic and restorative procedures. Such actions require coordination of gross and fine muscular movements, equilibrium, and functional uses of the senses of touch and vision.

SPECIFIC: A student must be able to perform basic life support including CPR, to transfer and position patients with disabilities, to physically restrain adults and children who lack motor control, and to position and reposition himself or herself around the patient and chair in a sitting or standing position. A student must promote and support the ability of coworkers to perform prompt care. A student must be able to operate controls, use high-speed or low-speed dental handpieces for tooth preparation procedures, and use hand instrumentation including scalpels for surgical procedures.

3. Sensory/Observation

GENERAL: A student must be able to acquire a predetermined level of required information through demonstrations and experiences in basic and dental sciences courses.

SPECIFIC: Such information includes, but is not limited to, information conveyed through: 1) physiologic and pharmacologic demonstrations, 2) microscopic images of microorganisms and tissues in normal and pathologic states; and 3) demonstration of techniques using dental models. A student must be able to acquire information from written documents, and to evaluate information presented as images from paper, films, slides, or video. A student must be able to interpret x-ray and other graphic images. A student must be able to benefit from electronic and other instrumentation that enhances visual, auditory, and somatic sensations needed for examination or treatment.

GENERAL: A student must be able to observe a patient accurately, at a distance and close up, interpreting non-verbal communications while performing dental operations or administering medications.

SPECIFIC: A student must be able to perform dental examinations and treatments that require the use of sight and touch. He or she must be able to see fine detail, focus at a variety of distances, and discern differences and variations in color, shape, and texture that are necessary to differentiate normal and abnormal soft and hard tissues. He or she must be able to use tactile senses to diagnose directly by palpation and indirectly by sensations transmitted through instruments. A student must also possess the visual acuity to read charts, records, radiographs, small print and handwritten notation.
4. **Communication**

   ○ **GENERAL:** A student must be able to: communicate effectively and sensitively with patients; convey exchange information at a level allowing development of a health history; identify problems; explain alternative solutions; and give directions during treatment and post-treatment. A student must be able to communicate effectively and efficiently with all members of the health care team.

   ○ **SPECIFIC:** A student must have sufficient facility with English to: retrieve information from texts and lectures and communicate concepts on written exams and patient charts; elicit patient backgrounds; describe patient changes in moods, activity, and posture; and coordinate patient care with all members of the health care team. A student must be able to communicate in lay language so that patients and their families can understand the patient's conditions and, thereby, be more likely to comply with treatment and preventive regimes.

5. **Cognitive**

   ○ **GENERAL:** A student must be able to measure, calculate, reason, analyze, integrate, and synthesize.

   ○ **SPECIFIC:** A student must be able to comprehend three dimensional relationships and understand the spatial relationships of structures. Problem solving requires all of these intellectual abilities. A student must be able to perform these problem-solving skills in a timely manner.

6. **Behavioral**

   ○ **GENERAL:** A student must possess the emotional health required for full use of his or her intellectual skills, the exercise of good judgment, the prompt completion of all responsibilities attendant to the diagnosis and care of patients, and the development of mature, sensitive, and effective relationships with patients.

   ○ **SPECIFIC:** A student must be able to endure physically-taxing workloads and to function effectively under stress. He or she must be able to adapt to changing environments, display flexibility, and learn to function in the face of uncertainties inherent in the clinical problems of patients. Compassion, integrity, concern for others, interpersonal skills, interests, and motivation are all personal qualities that will be assessed during the admissions and educational processes. A student must be able to manage apprehensive patients with a range of moods and behaviors in a tactful, congenial, personal manner so as not to alienate or antagonize them. A student must be able to accept criticism and respond by appropriate modification of behavior. A student must be able to interrelate among colleagues, staff, and patients with honesty, integrity, respect, and nondiscrimination.
INTERVIEWS

Interviews are conducted in person on the TCDM campus from November through March. The goal of the interview is to assess the applicant’s suitability for dentistry with a final ranking and comments that support the ranking, taking into consideration factors that led to the interviewer’s conclusions. The interviews are designed to evaluate non-cognitive domains considered critical to becoming an effective dental practitioner, such as empathy, critical thinking, moral reasoning and ethical grounding, open-mindedness, ability to collaborate as well as interpersonal skills.

Interviews are 30 minutes and conducted one-on-one. In order to get a holistic impression, the applicant is evaluated based on communication skills, flexibility, leadership and team experience, intellectual ability, learning skills and motivation and preparation for dentistry.

Admissions decisions are made on a rolling basis. Applicants can expect to be notified no earlier than December 1 of the academic year prior to the academic year they expect to enroll. TCDM follows the American Dental Education Association traffic guidelines.

INTERNATIONAL STUDENTS

International students are welcome to apply, but it is required that international applicants successfully hold a baccalaureate degree from an accredited college in the United States or Canada. All courses taken in satisfaction of the requirements for admission must be taken at or accepted as transfer credits by an accredited college in the United States or Canada and must be acceptable to that institution toward a baccalaureate degree.

Federal law mandates that only US citizens or permanent residents are eligible to receive financial aid. (Permanent residents must provide a copy of their unconditional Green Card upon request when applying for financial aid.) Applicants who are non-US citizens or do not obtain permanent resident status by July 1st of the year they are entering dental school must obtain an F-1 Visa to study in the United States. They must demonstrate the necessary financial means to deposit an amount equal to four years’ tuition and fees into a bank escrow account in advance of their enrollment in TCDM.

For detailed information about the F-1 Visa process, please visit the International Student Services website and consult the International Student Handbook.

CRIMINAL BACKGROUND CHECKS

When a student applies to TCDM, the primary application requires full disclosure of any record of a misdemeanor or felony. A background check is required. Should any discrepancy be discovered, TCDM may revoke the offer of admission, or dismiss the student if discovered at a later date. Acceptance to TCDM is not a guarantee for eligibility for licensure or that clinical rotations can be effectuated in the event the student has a misdemeanor or felony conviction.

**Waived with proof of current coverage, Single coverage quoted
INDIVIDUAL - $4,678.00
**Cost of Attendance Disclaimer**

Cost of attendance is subject to change and does not form a contract. Cost of attendance is effective only for the given academic year. Cost of attendance is utilized to calculate Title IV, and scholarship awards. Cost of attendance is subject to change on an annual basis. Touro College reserves the right to amend, modify, supplement or revoke the cost of attendance, in whole or in part, at any time with or without notice in its sole discretion. Cost of attendance is neither written nor meant to confer any rights or privileges on a student or impose any obligations on Touro College. As with all Touro College handbooks, rules and policies, the cost of attendance is provided for informational purposes only, may contain errors and may not be applicable to every situation or circumstance.

**TUITION REFUND SCHEDULE**

**Policy for Withdrawing from All Classes**

Students who wish to officially withdraw from a program are required to complete a “Withdrawal from the Program” (WFP) form, obtain approval from their program advisor (Program Chair or Dean), Financial Aid and Bursar, and submit it to the Office of the Registrar for processing. The official date of withdrawal from the program is the date on which the completed withdrawal form is submitted and time stamped at the Office of the Registrar.

Non-attendance, non-participation or notification to the instructor/program director does not constitute an official withdrawal from the program.

The Office of the Registrar is the only Designated Campus Official for all official program withdrawals.

Official notification to the school occurs when a student notifies the Registrar of their intention to withdraw. Intent to withdraw means that the student indicates that they have either ceased to attend the school and do not plan to resume academic attendance or believes at the time that they provide notification that they will cease to attend the school. Notification is not considered provided until the Registrar receives the notification.

Students who wish to withdraw from all courses in a given semester without officially withdrawing from a program must complete an Add/Drop form.

When withdrawing from ALL classes, the following tuition refund schedule will apply:

**Summer semester (up to 8 weeks in length)**

- Before the first day of the semester: 100% of tuition
- During the add/drop period: 100% of tuition
- During the week following the add/drop period: 50% of tuition
- After that week: No refund
For summer sessions running longer than 8 weeks, the tuition refund schedule will follow a regular Fall/Spring policy.

Fall & Spring semesters – When withdrawing from all courses:

- Before the first day of the semester: 100% of tuition
- During the add/drop period: 100% of tuition
- During the week following the add/drop period: 50% of tuition
- After that week: No refund

The Administrative Fee is non-refundable for all semesters.

All other fees are refundable during the Add/Drop period only.

Please note that students in receipt of Title IV (Federal Financial Aid) funds are subject to Federal Return of Title IV policies when withdrawing from ALL classes. Please contact the Financial Aid Office for further information.

FINANCIAL AID

In keeping with its policy of awarding financial aid on the basis of need and financial eligibility, TCDM provides assistance to accepted students who, without such help, would be unable to pursue their education. Financial aid comes from federal, state, institutional, and private sources. Students must be matriculated, enrolled at least half time, and making satisfactory academic progress as defined within their academic program. Half-time for all dental programs, including the summer session is defined as a minimum of six (6) credits. Therefore, in order to receive federal (and most private) loans, all dental students must take six (6) credits in any session, including the summer. Students who are otherwise eligible may participate in the Federal Work Study Program (FWSP) so long as they enroll for at least one credit. Title IV (federal) financial aid is limited to U.S. citizens, permanent residents, and certain eligible non-citizens; New York State aid is limited to residents of New York.

APPLICATION PROCESS

Applicants must follow these steps to ensure the completion of the 2020/2021 financial aid process. Go to https://studentaid.gov and log in with your FSA ID and password.

1. On the website above click on APPLY FOR AID. Click on Complete FAFSA Form. Use Touro College School code 010142 and/or Touro College Main Campus.

2. On the website above click on COMPLETE AID PROCESS. Go to number 05. Click on Complete Entrance Counseling. Select school Touro College Main Campus Midtown. Next click on receiving Direct Loans as a Graduate or Professional student. Then complete the entrance counseling session.
3. On the website above click on COMPLETE AID PROCESS. Go to number 04. Complete the MPN for Subsidized/Unsubsidized Loan.

4. On the website above click on COMPLETE AID PROCESS. Go to number 04. Complete the MPN for Plus MPN for Graduate/Professional Students.

Monitor your Touro email. Soon you will receive an email from Touro with a financial aid offer; either accept/reduce or decline that offer. Once you have indicated your preference, it will be sent to the U.S. Department of Education for approval. Once approved, funds are sent to the College to apply to your account. If you have any questions, feel free to contact the Office of Financial Aid.

**Program Terms and Eligibility**

Title IV (federal) Programs, The Federal Direct Stafford Loan, and the Federal Direct Grad PLUS Loan offer a number of repayment options, plus opportunities for deferment, forbearance, loan forgiveness, and cancellation (for death or total and permanent disability). Upon repayment, borrowers may be able to consolidate their federal loans. Neither loan charges a penalty for early repayment.

<table>
<thead>
<tr>
<th>Loan Type</th>
<th>Fees*</th>
<th>Interest*</th>
<th>Amount per Academic Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Federal Direct Stafford</td>
<td>1.059%</td>
<td>6.08% fixed</td>
<td>Up to $20,500 (Plus HEAL Amounts)</td>
</tr>
<tr>
<td>Federal Direct Grad PLUS</td>
<td>4.236%</td>
<td>7.08% fixed</td>
<td>Up to the unmet cost of attendance</td>
</tr>
</tbody>
</table>

There are two types of Direct Loans: Unsubsidized Stafford Loans and Graduate PLUS Loans. Through the Direct Unsubsidized Stafford Loan, eligible dental students may borrow up to $20,500 plus HEAL amounts per academic year and up to $224,000 for all post-secondary education (includes federal loans borrowed while enrolled as an undergraduate student). The interest rate for loans first disbursed between July 1, 2019 and June 30, 2020 is fixed at 6.08%. The Unsubsidized Stafford Loans carry a 1.059% origination fee which is deducted up front from the loan proceeds.

The maximum annual Grad Plus Loan is the educational Cost of Attendance (COA), as determined by Touro, minus any other financial aid received. Grad Plus Loans have no aggregate limit. The interest rate for Graduate Plus loans first disbursed between July 1, 2019 and June 30, 2020 is fixed at 7.08%. Graduate Plus loans have a 4.236% origination fee which is deducted up front from the loan proceeds.

Federal Unsubsidized Stafford loans are not based upon the student’s credit worthiness, these loans are primarily approved based upon enrollment status, satisfactory academic standing and the ability to meet the FAFSA eligibility requirements. Federal Graduate PLUS Loans are credit-based; borrowers must demonstrate that they do not have an adverse credit history. Adverse credit history is defined to mean that as of the date of the credit report, in addition to other conditions (e.g. bankruptcy, foreclosure, tax lien, or a default determination) the applicant must not have any
debts that are 90 or more days delinquent or that are in collection or that had a total combined outstanding balance greater than $2,085 that have been charged off during the prior two years.

**Federal Work Study Program (FWSP).** FWSP offers part-time employment opportunities on campus and at not-for-profit or government agencies during both the academic year and the summer period. Funds are awarded on a first-come, first served basis and earnings from this program are considered part of a student’s financial aid package.

**Eligibility for Continuing Federal Financial Assistance.** In order to remain eligible for federal financial assistance, all students are required to maintain satisfactory academic progress (SAP) in accordance with the qualitative and quantitative standards detailed in the SAP policy. Satisfactory progress is evaluated at the end of each academic year. The Satisfactory Academic Progress Policy for Touro is available online at [https://www.touro.edu/students/policies/satisfactory-academic-progress-policy/](https://www.touro.edu/students/policies/satisfactory-academic-progress-policy/).

**Loan Consolidation.** Loan consolidation enables students to combine all existing federal student loans into one new loan. The interest rate is the weighted average of the loans consolidated. Benefits include lower monthly payments by taking a longer period of time to repay the loan and having the convenience of all loans held by one servicer. Students can apply to consolidate their loans when repayment commences by contacting the Department of Education at: [https://studentaid.gov](https://studentaid.gov).

**Deferral/Cancellation of Student Loans.** Students receiving federal direct student loans may qualify for deferral of the repayment of the principal and interest, or for partial cancellation of the student loan, for service under the Peace Corps Act, the Domestic Volunteer Service Act of 1973, or for performing certain types of service such as teaching in a low-income school. For a complete list of cancellation and discharge provisions visit the U.S. Department of Education website at [https://studentloans.gov](https://studentloans.gov).

**Federal Loan Forgiveness.** Many people working in public service can benefit from a new federal student loan forgiveness program. The College Cost Reduction and Access Act of 2007 (P.L.#110-84) defines public service as: “A job in emergency management, military service, public safety, law enforcement, public health, public education, social work, public interest law services (including prosecution or public defense or legal advocacy in low income communities at a nonprofit organization...” After 10 years of service and 120 qualified federal student loan payments (based on an income based repayment-(IBR) structure) the remaining balance of the federal loan/s will be forgiven. The Department of Education will require documentation, forms and verification for more information visit: [https://studentloans.gov](https://studentloans.gov)

**Return to Title IV Policy.** The U.S. Department of Education’s (ED) Return to Title IV (R2T4) policy requires Touro to calculate a refund and repayment of Title IV (federal) financial aid received by students who cease attendance (includes both voluntary and involuntary separations from Touro) prior to the 60% point of a term for which they received federal aid. The R2T4
calculation is based upon each student’s amount of federal financial aid and enrollment status. Therefore, each calculation is unique. As a result of their individual calculations, students may be required to repay all or a percentage of their federal aid. Students may owe immediate payments to both Touro and Department of Education.

Briefly, students earn a percentage of their federal aid with each day they are enrolled in and attending their classes. When students separate from Touro we are required to calculate the percentage of federal aid the student has earned as of the last day of enrollment and the remaining percentage that is unearned. Neither the student nor Touro is permitted to retain unearned federal funds. Students that are required to repay any unearned funds that were used to pay their student account charges (such as tuition and fees) as well as any Title IV credit balance disbursements (refund monies) will be required to repay such funds directly to Touro and/or the Department of Education. The only Title IV funds that are excluded from the R2T4 calculation are Federal Work Study earnings.

**New York State Programs**

**Veterans Tuition Awards.** Vietnam, Persian Gulf, and Afghanistan veterans are eligible for awards of up to a maximum of six semesters (three years) for full-time graduate study. Recipients are entitled to an award for up to a maximum of 12 semesters (six years) for part-time graduate study.

Tuition payments received by a veteran under the Chapter 33 Program and Yellow Ribbon component will be considered duplicative of any VTA award. Payments received under the Montgomery GI bill do not duplicate the VTA award. Combined tuition benefits available to a student cannot exceed the actual tuition.

**STANDARD OF SATISFACTORY ACADEMIC PROGRESS**

Satisfactory Academic Progress (“SAP”) requires that students are able to complete their academic program in a timely manner while achieving and maintaining compliance with minimum academic standards. Federal regulations mandate that all students are required to conform to SAP standards as they work toward a degree in order for them to qualify to receive financial assistance through all Touro College and University System (“Touro”) eligible Title IV federal financial aid programs. Conformance to Touro’s SAP policy ensures that students complete their academic program in a timely manner while achieving and maintaining compliance with minimum academic standards.

This SAP policy applies to all Touro students including undergraduate, graduate, and professional students. These standards are for Title IV Federal Financial Aid purposes only and neither replace nor override academic policies outlined by Touro, other state or Federal benefit programs (i.e., NYS Tuition Assistance). It is critical that all TCDM students who receive financial aid read and understand the [College’s SAP policy](#).
REGISTRATION

NEW YORK STATE PROOF OF IMMUNIZATION REQUIREMENT
In accordance with New York State law, students born on or after January 1, 1957 must demonstrate proof of immunization against measles, mumps, and rubella (MMR). They must also complete and submit the Meningococcal Meningitis Vaccination Response Form.

Students must submit acceptable medical proof of immunization. Immunization forms can be obtained in the Office of the Registrar at various campus locations, or downloaded at www.touro.edu/registrar/immunization.asp.

Students who fail to provide the required proof of immunization will not be permitted to register and attend classes until a properly completed form has been submitted to the Office of the Registrar.

REGISTRATION PROCEDURE
Students are block registered in the College’s computer system for each semester’s courses by the Registrar’s office. All students are enrolled as full-time students; individual courses cannot be dropped.

CURRICULUM

OVERVIEW
The curriculum is divided into two phases:

1. Didactic / Preclinical Education (1st and 2nd years):
   In the first two years, the focus is on the basic sciences, foundational knowledge, and the development of procedural skills that will form the educational foundation for the clinical years where the focus is on the clinical care of patients.

2. Clinical Experience (3rd and 4th years):
   Clinical rotations and preceptorships are offered during the third and fourth year of study. These are under the direction and supervision of clinical and adjunct faculty, within our clinical facility and extramural sites.

YEAR COURSE (YC)
Certain courses in the TCDM curriculum extend over multiple semesters. Each course in these sequences carries a discrete course number and a discrete credit value. The final grade in such sequences is only entered after the final course is completed. The earlier courses in the sequence will be shown with the “placemaker” “YC (Year Course)” in the grade field on the student’s transcript. (In some circumstances, the full credit value assigned to a multiple-semester sequence is small enough so that the earlier courses in the sequence may show a credit value of 0.0.)

Touro College of Dental Medicine | 2019 – 2021 Catalog
### COURSE DESCRIPTIONS

#### YEAR 1

**BMDN 510 BIOCHEMISTRY AND MOLECULAR BIOLOGY**

Biochemistry is designed for dental majors and clinically-oriented, public health science majors. The course provides students with an in-depth comprehension of the basic science and biochemical aspects of biological systems upon which clinical judgments will eventually be made and upon which additional life-long learning of dental health can be achieved. *4.0 credits.*

**BMDN 511 DENTAL PHYSIOLOGY**

The overall objective of this course is to enable students to understand the basic principles of human physiology as it relates to the practice of dentistry. It will be taught to cover the functions of mammalian organisms on several levels including; organ system, organ, cellular and subcellular levels. Aside from biological content, students should begin to understand critical analysis of logical information as a gateway to clinical management of patients. Students should come away understanding not only the normal function of the organs in health but also as a gateway to understanding the impact of pathological conditions. Secondly, they should be able to begin to understand the effect of commonly used drugs on organ systems. *6.0 credits.*

**BMDN 512 HISTOLOGY-GENERAL AND ORAL LECTURE AND LAB**

Histology is the study of microscopic anatomy and the interrelationship between structure and function. The integrated perspective that you will gain in Histology and Anatomy will reinforce foundational concepts (from a structural perspective) gained from courses taught previously in the curriculum (Biochemistry, Microbiology and Physiology). 3.0 credits.

**BMDN 514 GROSS AND NEURO, ANATOMY LECTURE AND LAB**

A course of dissection of the human body identifying structure and function of the body, including lectures, labs and clinical correlations to relate the details of body systems in form and function. This course also includes neuroanatomy primarily of the cranial nerves and major ascending and descending pathways. 3.5 credits.

**BMDN 515 HEAD AND NECK, ANATOMY LECTURE AND LAB**

A course of dissection of the human body with special emphasis on head and neck anatomy including lectures, labs and clinical correlations to relate the details of head and neck anatomy to clinical dentistry. 2.5 credits.

**BMDN 517 GROWTH, DEVELOPMENT AND AGING**

This course will include the principles of physical (body) development with a particular focus on the mechanisms of pre- and post-natal craniofacial development. Emphasis will be directed to the growth and development of the mandible, maxilla, temporomandibular joint, teeth and supporting structures. Cranial base, vault and soft tissue components of the maturational processes will be presented in terms of clinical relevance. This course will provide background information to first year students as preparation for later courses and mastery of topics for successful completion of the National Board Examination. 1.0 credit.

**BMGN 590 (Formerly BHMG 590) ETHICS AND PROFESSIONALISM IN DENTISTRY**

This course will present first year dental students with an introduction to the concepts and application of ethical thinking and decision-making in all stages and aspects of their dental careers. After learning the basics of ethics, it is intended that students should develop their “ethical prisms” from which they can view any situation that they encounter and respond in the appropriate fashion. A progression will be developed as ethical issues in general will be covered, followed by ethical issues of students, followed by ethical issues specific to dental students, and finally, ethical issues related to dental practitioners. The ethical issues of the dental practitioners will be covered in all aspects, including those related to patients, staff, and society. Additionally, an introduction to professionalism and jurisprudence will be presented, giving the dental students a background that they can build upon as they develop their clinical experiences. A review of pertinent laws and regulations and the responsibilities of the dental provider to both individual patients and society will take place. 1.0 credit.
BMGN 591 (Formerly BHMG 591) INTRODUCTION TO EPIDEMIOLOGY

This course introduces the development and application of epidemiologic methods in understanding, addressing, and analyzing issues relevant to oral health. Students will become familiar with principles and concepts in epidemiology through lectures, discussions, assigned readings, and exercises. Students are given the opportunity to acquire an understanding of epidemiologic principles and concepts, the vocabulary of epidemiology, methods of epidemiologic investigation, basic research design, and interpretation and evaluation of epidemiologic research. 0.5 credit.

BMGN 593 (Formerly BHMG 593) BIOSTATISTICS AND EVIDENCE BASED DENTISTRY

This course introduces the discipline of biostatistics and how to understand approaches to analyzing data and interpreting results. Students will become familiar with principles and concepts in basic biostatistics through lectures, discussions, assigned readings, and exercises. Students are given the opportunity to acquire an understanding of bio statistical principles and concepts, the vocabulary of biostatistics, methods of data analysis and interpretation and evaluation of presented evidence. 0.5 credit.

PDEN 550 DENTAL ANATOMY AND OCCLUSION LECTURE

Dental Anatomy and Occlusion is a preclinical course comprised of a lecture series designed to familiarize the first-year student with anatomical characteristics of the human oral cavity. External and internal crown and root morphology of both the primary and permanent dentition are discussed. Emphasis is placed on form and function as well as occluding tooth surfaces. Proper Waxing technique to restore ideal occlusion and understand the range of motion in the oral cavity. 2.0 credits.

PDEN 551 DENTAL ANATOMY AND OCCLUSION LAB

Dental Anatomy and Occlusion is a preclinical course comprised of a Laboratory series designed to familiarize the first-year student with anatomical characteristics of the human oral cavity. External and internal crown and root morphology of both the primary and permanent dentition are discussed. Emphasis is placed on form and function as well as occluding tooth surfaces. Proper Waxing technique to restore ideal occlusion and understand the range of motion in the oral cavity. 1.5 credits.

PDEN 552 PRE-CLINICAL OPERATIVE DENTISTRY I LECTURE

This is a lecture series that is designed to introduce the first-year student to the basic theory and techniques used in Operative Dentistry. The study of the physical properties, manipulation, and chemistry of the dental materials utilized is included. Emphasis is placed on preservation of tooth structure from further destruction by dental disease. Technical skills used in the placement of composite resin and amalgam restorations are developed. The lectures are coordinated with the
This course is a general overview of dentistry. The history and evolution of modern dentistry will be discussed. The student will learn the structures and naming conventions of the teeth and the oral lab session in Preclinical Operative Dentistry I, and as such, some dates in the schedule have no lectures (as shown in the Lecture Session schedule). 2.0 credits.

PDEN 553 PRE-Clinical operative dentistry I LAB
This is laboratory course. It is designed to introduce the first-year student to the basic theory and techniques used in Operative Dentistry. Emphasis is placed on preservation of tooth structure from further destruction by dental disease. Technical skills used in the placement of composite resin and amalgam restorations are developed. The lectures are coordinated with the lecture series in Preclinical Operative Dentistry I. 2.0 credits.

PDEN 556 ORAL RADIOLOGY
This didactic course covers radiation physics, radiation biology, radiation safety/protection, imaging theory, dental and maxillofacial radiographic techniques, interpretation of normal structures, and understanding common disease processes. 2.0 credits.

PDEN 558 PRE-Clinical operative dentistry II LAB
This laboratory course is a continuation of Preclinical Operative Dentistry I. The course is designed to continue the development of understanding the basic theory and techniques used in Operative Dentistry. Complex preparations used for the placement of composite resin and amalgam restorations are further developed. The course includes the tooth preparations for ceramic inlay, onlay and veneers, as well as gold onlay preparations, and the fabrication provisional restorations. The lectures are coordinated with the lecture series in Preclinical Operative Dentistry II. 2.0 credits.

Note: Successful completion of Preclinical Operative Dentistry I is a prerequisite for this course.

PDEN 560 PRE-Clinical operative dentistry II LECTURE
This is a lecture series is a continuation of Preclinical Operative Lecture I. The course is designed to continue the development of understanding the basic theory and techniques used in Operative Dentistry. The principles and theory of complex preparations used for the placement of composite resin and amalgam restorations are discussed. Additionally, the principles and rationale for the use of liners and bases for pulp protection are discussed. The principles and specifics of tooth preparations for ceramic inlay, onlay and veneers, as well as gold onlay preparations, and the fabrication of their provisional restorations are presented in coordination with the laboratory exercises in Preclinical Operative Dentistry II. 2.0 credits.

Note: Successful completion of Preclinical Operative Dentistry Lecture I is a prerequisite for this course.

PDEN 562 INTRODUCTION TO DENTISTRY
This course is a general overview of dentistry. The history and evolution of modern dentistry will be discussed. The student will learn the structures and naming conventions of the teeth and the oral
environment. There will be an overview of different areas of dental care. The scope and direction of each specialty will be discussed. Lecturers from each specialty will go through treatment goals for their respective specialties. 1.0 credit.

**PDEN 570 REMOVABLE PROSTHODONTICS LECTURE**

This course is a lecture course on the theory design and fabrication of removable dentures. The course will cover both partial and complete dentures. Design theory and occlusion will be a focus to ensure the students will be able to construct a restoration that is comfortable and functional for the patient. Implant overdentures will also be discussed to stabilize a prosthesis. 1.0 credit.

**PDEN 571 REMOVABLE PROSTHODONTICS LAB**

This course is a Laboratory course on the theory, design and fabrication of removable dentures. The course will cover both partial and complete dentures. Design theory and occlusion will be a focus to ensure the students will be able to construct a restoration that is comfortable and functional for the patient. Implant overdentures will also be discussed to stabilize a prosthesis. Students will learn custom tray techniques, Impression techniques and all processed need to fabricate the dentures. 1.0 credit.

**YEAR 2**

**BMDN 610 PATHOMEDICINE**

A survey of pathology and internal medicine as it relates to dentistry with an emphasis on the evaluation and management of medically complex/compromised patients requiring dental treatment. Dental management of medically complex patients requires a foundational knowledge of systems pathology. Acquiring a basic understanding of systems pathology depends upon comprehension of general pathology. This course begins with topics on general pathology, proceeds through systems pathology and ends with DM of medically compromised patients. 8.0 credits.

**BMDN 611 PHARMACOLOGY AND THERAPEUTIC**

This is a basic pharmacology course that will cover the proper use of the major classes of drugs. These include drugs affecting the autonomic nervous system, central nervous system, cardiovascular system, endocrine system and antimicrobials. 4.0 credits.

**BMDN 613 SUMMER RESEARCH ELECTIVE**

This is a research elective offered in the summer of the first year. A Limited number of students will be paired with Research mentors to pursue a research idea related to oral health. For six to eight weeks’ students will work in established lab and conduct research that they will present to the class and faculty in the fall. Laboratory and research techniques will be taught to increase the students’ knowledge and experience in research. 6.0 credits.
BMGN 690 (Formerly BHMG 690) PAIN AND ANXIETY CONTROL LECTURE AND SIMULATION LAB

This course combines both didactic and clinical components to help students acquire an understanding of pain and the principles of pain control as related to the clinical treatment of dental patients. Evaluation of the physical-mental emotional status of the patient and the determination of the proper pain control technique and its correlation with procedures to be performed are integrated with an understanding of advanced pain and anxiety-control modalities. Included in this course is a series of in-depth lectures covering the spectrum of basic and advanced pain control techniques. Following completion of this course, the student should be able to consistently meet the criteria of the course objectives. **2.0 credits.**

BMGN 691 (Formerly BHMG 691) THE ETHICS OF INTER-PROFESSIONAL PRACTICE

This course will require second year dental students to utilize the knowledge, concepts, and skills that they acquired in the first year Ethics and Professionalism course. The course is structured so that students will be able to establish an ethical context for inter-professional practice and collaborative care. The first session will consist of a general discussion about scopes of practice and collaborative care practice. Students will prepare for each session by completing pertinent reading assignments. They will then participate in small group case study discussions. The small group sessions are meant to emphasize the skills of ethical thinking/acting. Each group will be composed of second year dental students and first year medical students. Discussions will be facilitated by both physician and dentist preceptors. **0.25 credit.**

PDEN 650 ORAL RADIOLOGY TECHNIQUE

This course instructs the student on the proper technique in capturing diagnostic-quality radiographs. This is a hands-on course taught in the Radiology Simulation Lab with manikins simulating patients. Each group exercise involves a pair of students taking bitewing, anterior periapical, and posterior periapical radiographs. After taking the radiographs, students must complete a self-assessment to determine the correctness of each radiograph. **0.25 credit.**

PDEN 651 INITIAL PERIODONTAL TREATMENT AND EHR

This course will introduce students to basic principles of data collection for the periodontal examination and fundamentals of periodontal instrumentation used as data collection for the diagnosis, treatment planning, and prognosis of periodontal disease. Use and implementation of clinic Management software Axium. **1.0 credit.**

PDEN 655 PERIODONTICS II

This lecture course is the second part of an introductory course in Periodontology. Students will be taught about different types of periodontal diseases, the role of occlusion, radiographic analysis, and different treatment modalities. Students will also be instructed on how to assess prognosis for treatment and the importance and timing of periodontal maintenance. **1.0 credit.**
PDEN 657 CLINICAL ORAL RADIOLOGY AND INTERPRETATION
This course instructs the student on the proper technique in capturing diagnostic-quality radiographs. This is a hands-on course taught in the Radiology Simulation Lab with manikins simulating patients. Each group exercise involves a pair of students taking bitewing, anterior periapical, and posterior periapical radiographs. After taking the radiographs, students must complete a self-assessment to determine the correctness of each radiograph. 0.5 credit.

PDEN 658 ORAL PATHOLOGY LECTURE
General principles and concepts of diseases, as learned in Pathomedicine are applied to those diseases which manifest in the oral and maxillofacial region. Signs and symptoms, natural history, differential diagnosis, management, and prognosis of common and significant oral and maxillofacial diseases are presented. 4.0 credits.

PDEN 659 (Formerly PDEN 559) PERIODONTICS I
This lecture course is an introductory course in Periodontology. Students will be taught the normal anatomy and function of the periodontium as well as the etiology and pathogenesis of periodontal diseases and conditions. Students will also be instructed on how to assess risk for periodontal disease and the relationship between periodontal disease and systemic disease. 1.0 credit.

PDEN 660 PRE-CLINICAL FIXED PROSTHODONTICS LECTURE
This Lecture course is designed to complement the laboratory course. The lecture will concentrate on restorative theory treatment planning and technique. Decisions about material and treatment goals are stressed so the student will understand the reasons to choose one treatment modality over another. The lecture will coincide with the lab that is immediately after so they will put into practice what they just learned. Implant options and how each treatment plans approached will be discussed. 2.0 credits.

PDEN 661 PRE-CLINICAL FIXED PROSTHODONTICS LAB
This course is designed for students to perform a series of motor exercises (projects and practical examinations) that simulate the clinical procedures done in fixed prosthodontic treatment. The required laboratory projects and practical examinations will provide the student with sufficient psychomotor skills and perceptual ability to pro- vide basic fixed prosthodontic treatment. 2.0 credits.

PDEN 662 INTRODUCTION TO IMPLANTS
This course will present the second-year dental student with an introduction to implant dentistry. The student will learn the history and current state of Implant dentistry, as well as the scientific concepts and principles that allow for the successful use of implants today. Treatment planning based on patient specific medical and dental considerations will be emphasized. The student will
become acquainted with techniques that can be utilized to maximize esthetic and functional success of implant based dental restorations. Protocols and techniques for implant surgery and prosthetic treatment will be taught. The student will learn identification and management of both surgical and prosthetic complications will be stressed. The student will also learn the importance of short and long-term evaluation and maintenance of dental implants. 1.0 credit.

**PDEN 663 INTRODUCTION TO CLINICAL DENTISTRY LECTURE**

This course will prepare the students to enter the Clinic and begin treating patients. Until this point students have been gaining and perfecting foundational knowledge and skills. They have started to put these skills together for the comprehensive treatment of patients, mainly in beginning to learn rudimentary treatment planning. This course will mimic the operations of the dental clinic. All protocols that are in place in the clinic will be adhered to in the simulation clinic. Infection control protocols, treatment planning to the comprehensive completion of treatment on simulated patients. Students will learn intensive interview skills with standardized patients, complete Medical and Dental History recording, Comprehensive treatment planning and additional clinical skills to treat real world patients. 2.0 credits.

**PDEN 664 INTRODUCTION TO CLINICAL DENTISTRY LAB**

This course is the Laboratory component that will prepare the students to enter the Clinic and begin treating patients. Until this point students have been gaining and perfecting foundational knowledge and skills. They have started to put these skills together for the comprehensive treatment of patients, mainly in beginning to learn rudimentary treatment planning. This course will mimic the operations of the dental clinic. All protocols that are in place in the clinic will be adhered to in the simulation clinic. Infection control protocols, treatment planning to the comprehensive completion of treatment on simulated patients. Students will learn intensive interview skills with standardized patients, complete Medical and Dental History recording, Comprehensive treatment planning and additional clinical skills to treat real world patients. 3.0 credits.

**PDEN 665 PEDIATRIC OPERATIVE DENTISTRY LECTURE**

This course is designed to enable the pre-doctoral dental student to develop an overall competency in pediatric dentistry and to increase his/her theoretical and clinical judgment, technical skills and case organizational abilities. 1.0 credit.

**PDEN 676 PEDIATRIC OPERATIVE DENTISTRY LAB**

This laboratory course is designed to enable the pre-doctoral dental student to develop an overall competency in pediatric dentistry and to increase his/her theoretical and clinical judgment, technical skills and case organizational abilities. Experience in restoring the pediatric dentition on simulated patients allows the student to become proficient in pediatric dentistry. 1.0 credit.
PDEN 666 ENDOdontics Lecture
This preclinical course includes lectures on the biological and clinical aspects of endodontics plus laboratory exercises to gain skills in accessing the pulp chambers, removing the pulp tissue within the lengths of the canals and establishing an environment that supports healing. The biologic aspects of the lectures include discussions of the pulp and periradicular diseases, diagnostic and treatment procedures, selection of patients, and medications in endodontics. Clinical lectures are devoted to procedures used in preparing and filling root canals, discussion of the materials used supported by documented research in juried journals, restoration of endodontically treated teeth and clinic orientation. During laboratory exercises, student access, instrument, and obturate root canals on extracted human teeth. Students may treat patients in the endodontic clinic after successful completion of the preclinical course and the sophomore endodontic preclinical competency exams. 1.0 credit.

PDEN 667 ENDOdontics Laboratory
This preclinical course includes lectures on the biological and clinical aspects of endodontics plus laboratory exercises to gain skills in accessing the pulp chambers, removing the pulp tissue within the lengths of the canals and establishing an environment that supports healing. The biologic aspects of the lectures include discussions of the pulp and periradicular diseases, diagnostic and treatment procedures, selection of patients, and medications in endodontics. Clinical lectures are devoted to procedures used in preparing and filling root canals, discussion of the materials used supported by documented research in juried journals, restoration of endodontically treated teeth and clinic orientation. During laboratory exercises, student access, instrument, and obturate root canals on extracted human teeth. Students may treat patients in the endodontic clinic after successful completion of the preclinical course and the sophomore endodontic preclinical competency exams. 1.0 credit.

PDEN 669 PRINCIPLES OF ORTHODONTICS
This didactic course encompasses the preliminary diagnostic and treatment information required by the dental student to begin treatment planning and managing patients in the university dental clinic. The student is provided with the necessary instruction to perform a comprehensive orthodontic examination, identify the diagnostic records which are appropriate for each patient, and assemble data from those diagnostic records. The student will utilize those records in addition to a clinical examination to plan a course of orthodontic treatment for the patient. The student is introduced to a variety of contemporary fixed and removable appliances, including removable thermoplastic dental aligners, and their component parts and properties and the indications for their use. The student is also instructed on the procedures in placement and adjustment of the appliances including the manipulation properties of orthodontic materials and the biomechanical principles governing orthodontic tooth movement. 1.0 credit.
PDEN 672 CARIOLOGY LECTURE

This course focuses on the basic concepts in the etiology, pathogenesis and sequelae of dental caries. The disease is approached from epidemiological, morphological, histological, biochemical, microbiological and immunological perspectives. 0.25 credit.

PDEN 675 PRINCIPLES OF ORAL AND MAXILLOFACIAL SURGERY

This course will present the second-year dental student with an introduction to the principles and techniques integral to the provision of safe, effective, and comfortable Oral and Maxillofacial Surgical treatment. Emphasis will be placed on preoperative evaluation and diagnosis directed care as students develop an understanding of which procedures can be performed by a general dentist and when and how to seek consultation from or refer patients to a surgical specialist. Exodontia, management of unerupted teeth, and diagnostic techniques and treatments of infections and soft and hard tissue pathology will be covered. Techniques and strategies for intra- and post-operative pain control and prevention and management of both medical emergencies and intra- and post-operative surgical complications will be taught. Patient management techniques and medico-legal considerations will be integrated into the topics described above. Upon successful completion of this course students will have met the expectations of the faculty as listed for each portion of the course. Students will be prepared to take the Oral and Maxillofacial Surgery portion of the National Boards. Students will have a basic level of understanding of Oral and Maxillofacial Surgery that will be strengthened and expanded upon in the subsequent third year Principles of Oral and Maxillofacial Surgery II course and ultimately enable them to fulfill their future responsibilities to their patients and the health care community. 1.0 credit.

YEAR 3

CDEN 711 RESTORATIVE AND MATERIAL REVIEW

This course is a review of the dental materials and procedures the students learned in the first two preclinical years. Now that they are transitioning to the clinical experience the course will focus on the procedures and materials they will now be using in the clinic. 0.75 credit.

CDEN 712 ORAL DIAGNOSIS AND ORAL MEDICINE

This course is primarily designed to teach the student how to recognize and manage patients with systemic diseases or abnormalities which directly or indirectly affect the oral and maxillofacial tissues, or necessitate modification of dental treatment, and/or the initiation special precautions to ensure the safe dental treatment of the patient. 0.75 credit.

CDEN 713 CLINICAL CASE REVIEW AND TREATMENT PLANNING

This course is a seminar review course that involves the synthesis and implementation of comprehensive treatment plans applicable to direct patient care. Emphasis is placed on the collation of diagnostic data, and the proper sequencing of treatment steps dealing primarily with the
prevention, elimination, and control of dental disease. Clinical patient management and case presentation techniques are incorporated in the course design. Actual patient cases will be presented and reviewed for the students to gain insight and experience in case management. 0.75 credit.

CDEN 721 PERIODONTAL CASE REVIEW
This is a seminar review course that involves periodontal case review. Students will present Periodontal Cases that occur in the clinic which will be reviewed and discussed. Treatment options and goals will be discussed. Students will need to present cases treatment plans and the rationale for the chosen treatment. 1.0 credit.

CDEN 722 ORAL SURGERY II (Formerly Removable Prosthodontics Case Review)
This course will introduce third year dental students to more advanced topics in Oral & Maxillofacial Surgery and represents a natural progression from the basic concepts taught in the Introduction to Oral & Maxillofacial Surgery course. 1.0 credit.

CDEN 724 INTERDISCIPLINARY SEMINAR SERIES
Comprehensive Patient treatment involves the melding of all areas of dentistry. This series instructs the student how to look at all disciplines of dentistry when considering treatment options. The seminar style course will pull together all aspects of treatment to ensure the best possible treatment outcomes for the patient. 1.0 credit.

CDEN 726 (A,B) CLINICAL CASE AND TREATMENT PLANNING
This course is a seminar review course that involves the synthesis and implementation of comprehensive treatment plans applicable to direct patient care. Emphasis is placed on the collation of diagnostic data, and the proper sequencing of treatment steps dealing primarily with the prevention, elimination, and control of dental disease. Clinical patient management and case presentation techniques are incorporated in the course design. Actual patient cases will be presented and reviewed for the students to gain insight and experience in case management. CLPN 726A – 0 credits (YC), CLPN 726B – 2.0 credit.

CDEN 730 PRACTICE MANAGEMENT I
This didactic course will consist of 8 lecture hours presented in the winter semester of the junior year. The course will address The Dental Practice Act, Federal and State laws that regulate the practice of Dentistry. The student gains insight into the workings of a dental office and learns a systemic approach to the organization of a dental practice. 1.0 credit.

CDEN 731 OROFACIAL PAIN AND TMD MANAGEMENT
Orofacial pain and temporomandibular disorders are common reasons for the patient to seek consultation with dental professionals. Diagnosis and management of these disorders have
historically been fraught with misdiagnosis and significant controversies in appropriate management. Although there is evidenced based literature on diagnosis and management of these disorders, there is also a significant literature which is not based on credible research. Therefore, it is essential to provide dental students with the appropriate basic science foundational knowledge, critical thinking, problem solving and learning skills to ultimately result in evidence based patient care and management strategies. Additionally, the dental students must develop attitudes and behaviors that ultimately result in proper management of these patients who are often extremely difficult to treat due to the complexity of the disease process or previous misdiagnosis and mismanagement. 1.0 credit.

CDEN 734 COMPREHENSIVE DENTAL SEMINARS – CASE OUTCOME REVIEW CONFERENCE

Comprehensive patient treatment involves the melding of all areas of dentistry. This series instructs the students how to look at Dental Literature, and how to interpret and use the knowledge in the practice of dentistry. The seminar style allows for collaborative learning similar to a consult or post professional school study group. Case presentations allow to discuss difficult treatments with several options for treatment. M&M allows us to learn not just from success. 1.0 credit.

CLPN 750 (A,B,C) COMPREHENSIVE PATIENT CARE

This is a clinical course in the comprehensive treatment of patients at the Touro Dental Health Clinic. Student will treat patients in all areas of general dentistry. Under guidance of the Clinical Practice Leader and assisting faculty, Students will treatment plan and complete comprehensive treatment on all patients assigned. CLPN 750A – 7.5 credits, CLPN 750B – 10.5 credits, CLPN 750C – 10.5 credits.

CLPN 751 (A,B,C) PEDIATRIC CLINIC ROTATION

This course is Clinical Practice rotation in Pediatric Dentistry. Student will spend a two-week rotation exclusively treating pediatric patients. Guided by Faculty that specialize in Pediatric dentistry students will learn patient management and procedures that are unique to pediatric patients. They will also be instructed on how to manage interaction with parent or guardian. CLPN 751A – 0 credits (YC), CLPN 751B – 0 credits (YC), CLPN 751C – 1.5 credits.

CLPN 752 (A,B,C) ORAL SURGERY CLINIC ROTATION

This course is Clinical Practice rotation in Oral Surgery. Student will spend a two-week rotation exclusively treating oral surgery patients. Guided by Oral Surgeons, students will learn patient management and procedures that are unique to oral surgery patients. They will also be instructed on how to manage interaction with parent or guardian. CLPN 752A – 0 credits (YC), CLPN 752B – 0 credits (YC), CLPN 752C – 1.5 credits.
CLPN 753 (A,B,C) PATIENT INTAKE CLINIC ROTATION

This course is a Clinical Practice rotation in patient intake. Student will spend a two-week rotation exclusively in the patient intake clinic. Guided by faculty, students will learn patient management and interview skills to enter new patients to Touro Dental Health Clinic. CLPN 753A – 0 credits (YC), CLPN 753B – 0 credits (YC), CLPN 753C – 1.5 credits.

CLPN 764 (A,B) (Formerly CLPC 764) ORAL HEALTH CARE FOR PATIENTS WITH SPECIAL NEEDS ROTATION

This course is a rotation in Oral Health Care for Patients with Special Needs Rotation. Student will spend a one-week externship in an affiliated clinic. Guided by clinic staff, students will learn to manage special needs patients, both in treatment and referral. They will get experience with this population in the outpatient clinic, they operating room and on the mobile dental van. CLPN 764A – 0 credits (YC), CLPN 764B – 1.0 credit.

CLPN 765 (A,B) HOSPITAL/CLINIC EXTERNSHIP ROTATION

This course involves a Clinical Practice externship rotation in General Dentistry and/or Oral Surgery for D3 students. These students will spend two or three Rotation Periods at affiliated sites. Each Rotation Period will last between four and six days. On-site faculty will supervise student experiences at these sites. Students will be exposed to patient care in settings that differ from that provided at Touro Dental Health. Students will learn how patients can be afforded access to dental care in a variety of healthcare settings. CLPN 765A – 0 credits (YC), CLPN 765B – 2.0 credits.

YEAR 4

CDEN 812 INTERDISCIPLINARY SEMINAR

Comprehensive patient treatment involves the melding of all areas of dentistry. This series instructs the students how to look at Dental Literature, and how to interpret and use the knowledge in the practice of dentistry. The seminar style allows for collaborative learning similar to a consult or post professional school study group. 0.75 credit.

CDEN 814 PROSTHODONTIC REVIEW SEMINAR

This is a seminar review course that involves prosthodontic case review. Students will present Cases that occur in the clinic which will be reviewed and discussed. Treatment options and goals will be discussed. Students will need to present cases and treatment plans with the rationale for the chosen treatment. Discussion of additional techniques and alternative procedures such as immediate complete dentures, overlay dentures, implant supported overdentures, denture impression techniques, Complex fixed tooth supported prosthodontics, Complex fixed implant supported prosthodontics, and psychological implications of prosthodontic treatment and alternative occlusal schemes of complete dentures. This enables the student to broaden his/her scope of prosthodontic treatment for his/her patients. 0.75 credit.
CDEN 815 ENDODONTIC REVIEW SEMINAR
Endodontic Review Seminar is a seminar review course in nature. This course continues to emphasize diagnostic and therapeutic procedures as well as provide clinical application of principles taught in the second- and third-year courses. In addition, the student dentist is presented with clinical cases and must diagnose and treatment plan the best course of action. In addition, complications and management of these complications are explored. Discussion of the following topics will be discussed during the course: Endodontic Radiography, Biology of Pulp/Periapical Tissues, Endodontic Microbiology, Endodontic Diagnosis, Vital Pulp Therapy, Endodontic Emergencies, Root and Root Canal Anatomy of Anterior and Posterior Teeth, Endodontic Access Preparation, Endodontic Instruments, Working Length Determination, Apical Stop Concept and Apical Plugs, Biomechanical Preparation of the Root Canal, Irrigation of Root Canals, Isolation, Medication, and Temporization of Root Canals., Root Canal Sealer, Gutta-percha Obturation with Warm Vertical and Lateral Condensation. 0.75 credit.

CDEN 816 LASERS IN DENTISTRY
This course demonstrates the way lasers are currently being used in the practice of dentistry. CDEN 816 is a lecture-based course that presents essential concepts in laser dentistry citing current evidence, including, but not limited to laser safety, laser-tissue interaction, an introduction to several dental laser wavelengths, the healing nature of lasers and clinical examples in multiple dental specialties. 0.75 credit.

CDEN 821 ADVANCED IMPLANT CASE REVIEW
Advanced Implant Case review will give the students opportunity to explore the possibilities for implant restoration in more advanced cases. Clinic cases that are eligible will be presented for discussion and treatment planning. Working with the implant faculty students will treatment plan and present advanced cases to the patient and follow through on completion of treatment. 1.0 credit.

CDEN 822(A,B) STUDENT CLINICAL CASE PRESENTATION
Comprehensive patient treatment involves the melding of all areas of dentistry. This series instructs the students how to look at Dental Literature, and how to interpret and use the knowledge in the practice of dentistry. The seminar style allows for collaborative learning similar to a consult or post professional school study group. CDEN 822A – 1.0 credit, CDEN 822B – 1.0 credit.

CDEN 823 PRACTICE MANAGEMENT II
The course presents and discusses specific topics in the management of a dental practice. Through this course, we prepare the new graduate for the wide variety of practice opportunities they may encounter. Senior Practice management is intended to develop the business and personnel management concepts further that were presented in Practice Management I. This course is intended to reinforce and integrate the didactic material with the observations made during the
extramural rotation. It is designed to be an interactive, discussion course. Course participants are expected to apply information to specific tasks at hand. A computer simulation has been designed to allow participants to have the experience of making strategic managerial decisions regarding a dental practice. 1.0 credit.

**CDEN 826(A,B) CLINICAL CASE AND TREATMENT PLANNING**

This course is a seminar review course that involves the synthesis and implementation of comprehensive treatment plans applicable to direct patient care. Emphasis is placed on the collation of diagnostic data, and the proper sequencing of treatment steps dealing primarily with the prevention, elimination, and control of dental disease. Clinical patient management and case presentation techniques are incorporated in the course design. Actual patient cases will be presented and reviewed for the students to gain insight and experience in case management. **CDEN 826A – 0 credit (YC), CDEN 826B – 2.0 credits.**

**CLPN 850 (A,B,C) ADVANCED COMPREHENSIVE PATIENT CARE**

This is a clinical course in advanced comprehensive treatment of patients at the Touro Dental Health Clinic. Student will treat patients in all areas of general dentistry. Under guidance of the Clinical Practice Leader and assisting faculty, Students will treatment plan and complete comprehensive treatment on all patients assigned. **CLPN 850A – 7.5 credits, CLPN 850B – 10.5 credits, CLPN 850C – 10.5 credits.**

**CLPN 851 (A,B,C) PEDIATRIC CLINIC ROTATION**

This course is Clinical Practice rotation in Pediatric Dentistry. Student will spend a two-week rotation exclusively treating pediatric patients. Guided by Faculty that specialize in Pediatric dentistry students will learn patient management and procedures that are unique to pediatric patients. They will also be instructed on how to manage interaction with parent or guardian. **CLPN 851A – 0 credit (YC), CLPN 851B – 0 credit (YC), CLPN 851C – 1.5 credits.**

**CLPN 852 (A,B,C) ORAL SURGERY CLINIC ROTATION**

This course is Clinical Practice rotation in Oral Surgery. Student will spend a two-week rotation exclusively treating oral surgery patients. Guided by Oral Surgeons, students will learn patient management and procedures that are unique to oral surgery patients. They will also be instructed on how to manage interaction with parent or guardian. **CLPN 852A – 0 credit (YC), CLPN 852B – 0 credit (YC), CLPN 852C – 1.5 credits.**

**CLPN 853 (A,B,C) PATIENT INTAKE CLINIC ROTATION**

This course is Clinical Practice rotation in patient intake. Student will spend a two-week rotation exclusively in the patient intake clinic. Guided by faculty, students will learn patient management and interview skills to enter new patients to Touro Dental Health Clinic. **CLPN 853A – 0 credit (YC), CLPN 853B – 0 credit (YC), CLPN 853C – 1.5 credits.**
CLPN 865 (A,B) HOSPITAL/CLINICAL EXTERNSHIP ROTATION
This course involves a Clinical Practice externship rotation in General Dentistry and/or Oral Surgery for D4 students. These students will spend two or three Rotation Periods at affiliated sites. Each Rotation Period will last between four and six days. On-site faculty will supervise student experiences at these sites. Students will be exposed to patient care in settings that differ from that provided at Touro Dental Health. Students will learn how patients can be afforded access to dental care in a variety of healthcare settings. CLPN 865A – 0 credit (YC), CLPN 865B – 2.0 credits.

ADDITIONAL DEGREE REQUIREMENTS

SCHOLARLY PROJECT
The TCDM Scholarly Project provides small groups of students, or individuals, the opportunity to develop skills in an area of clinical research, education, or professional and/or social service. This process involves a critical analysis of pertinent literature, the development and execution of a scholarly activity, and analysis of the data or outcomes of the activity. The Scholarly Project is a culminating academic experience, in that the participants integrate many of the skills acquired through formal coursework and clinical education. Students are closely advised/mentored because projects are faculty-sponsored and supervised. Each student group or individual is required to generate a manuscript, present a platform-based discussion and poster of the work at the TCDM’s annual Scholarly Project Presentation Day. In all project matters, the Touro College Code of Conduct and Academic Integrity Policy must be respected.

COMMUNITY SERVICE
Students are required to do 40 hours of approved community service over the course of their four-year program at the College of Dental Medicine for which opportunities will be made available. The purpose is to provide approved potential experiences for students to help in their personal development of a culturally competent oral health care provider. Service Learning is an activity or experience that usually takes place within the community and provides educational benefit to the individual and a particular service or result to the community. Students must submit a completed application to the Academic Dean that addresses this definition and at the conclusion of the total defined hours of any one community service experience the student will submit a one-page reflection on their service learning and community service.

PORTFOLIO GRADUATION REVIEW
Students are required to review their body of work with their Clinical Practice Leader. The work will include their successes on their competency timeline, case reports of clinical cases, the scholarly project presentation and their reflections on their service learning and community service. In addition, all students will be required to complete a Senior Survey issued by CODA.
Assistant Dean for Academic Affairs: Aaron Yancoskie, D.D.S.  
(914) 594-2627  
aaron.yancoskie@touro.edu

Director of Student Affairs: Ms. Karen Longo, M.P.H.  
(914) 594-2634  
karen.longo@touro.edu

The Touro College of Dental Medicine Office of Academic and Student Affairs is committed to the support of all of its students in assisting them with academic and quality of life issues throughout their education at TCDM. The office has an open-door policy that promotes a welcoming environment for all students who wish to discuss an array of issues (personal, social, academic, etc.). The Director of Students Affairs is available for students to discuss concerns and file complaints. Please note that based on the nature of the complaint, information discussed may not be confidential.

The following is a brief listing of the functions within the TCDM Office of Academic and Student Affairs:

- Counseling: Academic, Career, Personal
- Faculty advisors
- Ombudsman for students
- Employment (summer and part-time)
- Letters of recommendation: Dean’s letters, Scholarships
- Research opportunities
- Electives (at an outside institution)
- National Board Dental Examinations (NBDE) applications
- Residency information
- ADEA PASS (Postdoctoral Application Support Service)
- Academic challenges
- Liaison with the Curriculum Committee
- Liaison with the Student Government
- Function and composition of working and advisory committees such as the Student-Faculty Relations Committee
- Orientation programs for entering students
- Maintenance of student program records
- Advice about career decisions and postgraduate education
- Regional board examinations
OFFICE OF THE REGISTRAR

The Office of the Registrar maintains students’ academic records. The functions of this office include:

1. Coordinating semester course registration;
2. Preparing official transcripts;
3. Evaluating transfer credits for enrolled students;
4. Processing Change of Address, Change of Name, Leave of Absence and other forms;
5. Handling matters pertaining to veterans;
6. Verifying whether students meet graduation requirements;
7. Processing certificates of fulltime status for insurance, licensing, etc.;
8. Issuing diplomas upon graduation;
9. Advising foreign students on maintaining student status.

Contact Information:

University Registrar Phone #: (212) 463-0400 ext. 5445

Office of the Registrar
Sunshine Cottage, Room 127
Valhalla, NY 10595
Email: Registrar@nymc.edu

Registrar Phone #: 914-594-4495
Assistant Registrar Phone #: 914-594-3583
Fax #: 914-594-3752

Office Hours:
April to September:
  • Monday – Friday: 9:00 a.m. to 5:00 p.m.
October to March:
  • Monday – Thursday: 9:00 a.m. to 5:00 p.m.
  • Friday: 9:00 a.m. to 3:00 p.m.

CHANGE OF NAME

The College will adjust its records appropriately if a student legally changes his or her name. A student who has a legal change of name must submit, to the Registrar, the legal documents (court order, marriage license, etc.) related to the change. All permanent records are changed to conform to the student’s legal name. NOTE: The name that appears on all financial aid paperwork (e.g., social security card) must match the new name as well.
OFFICE OF FINANCIAL AID

This office is responsible for the processing and packaging of Federal, State, City and Touro Grants and loan applications. It also supervises the College Work Study Program. Information about the Free Application for Federal Student Aid (FAFSA) application, required for all financial aid, is provided by the staff in this office. All questions about financial aid should be directed to this office. Students and/or their parents who need assistance in filling out the FAFSA application should make an appointment with a financial aid counselor.

Location:
2090 Adam Clayton Powell Blvd.
5th Floor Room 519 C
New York, NY 10027
Financialaid.Dental@touro.edu

OFFICE OF THE BURSAR

The Office of the Bursar maintains student accounts including the review of charges and payments, issuing refunds, collection activities and providing support and guidance to our students. Candidates for graduation must obtain bursarial clearance before receiving their diplomas. In accordance with College policy, transcripts and diplomas are not issued to students with outstanding tuition balances.

TouchNet is Touro’s means of providing our students with 24-hour access to account activity, making payments, and setting up payment plans online. To access TouchNet, students log in to TouroOne at touroone.touro.edu following the user and password guidelines, and then select “TouchNet” from the menu. Payment methods accepted through TouchNet include all major credit cards or by E-Check using a checking account. Please be advised that payments on student accounts made online by credit or debit card will be charged a 2.85% non-refundable convenience fee by our third-party provider, TouchNet® Pay Path. Students who have questions or problems relating to their tuition bills should contact this office immediately.

Location:
Office of the Bursar
New York Medical College
Sunshine Cottage, Suite 115B
SECTION 103 PROVISIONS FOR VETERAN STUDENTS: PENDING PAYMENT COMPLIANCE FOR ELIGIBLE STUDENTS

In accordance with Title 38 US Code 3679 subsection (e), Touro College adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation and Employment (Ch. 31) benefits, while payment to the College is pending from the VA, Touro College will not:

- prevent nor delay the student’s enrollment;
- assess a late penalty fee to the student;
- require the student to secure alternative or additional funding;
- deny the student access to any resources available to other students who have satisfied their tuition and fee bills to Touro College, including, but not limited to, access to classes, libraries, or other institutional facilities.

However, to qualify for this provision, such students may be required to:

- produce the Certificate of Eligibility by the first day of class;
- provide a written request to be certified;
- provide additional information needed to properly certify the enrollment as described in other College policies.

STUDENTS WITH DISABILITIES

Touro College (“Touro” or the “College”) complies with Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act (ADA) of 1990, which protects persons from discrimination on the basis of physical or mental impairments for all educational and employment purposes. Reasonable Accommodations may be available for students who have physical or learning-related disabilities.
The College is committed to providing reasonable accommodations to students with documented disabilities who request accommodations. Policies and procedures ensure that students with a disability will not, on the basis of that disability, be denied full and equal access to academic and co-curricular programs or activities or otherwise be subjected to discrimination under programs offered by the College. The College has a centralized Office of Student Disability Services headed by an Executive Director who oversees Student Disability Services operations in the Undergraduate, Graduate, and Professional Divisions. Touro College of Dental Medicine students with disabilities seeking reasonable accommodations should do so through the Office of Student Disability Services (OSDS) Coordinator for TCDM, Ms. Karen Longo, Director of Student Affairs, karen.longo@touro.edu.

A student requesting accommodation for a documented disability under the ADA must meet with the OSDS coordinator and submit an Application for Accommodations & Services. Verbal disclosure of a disability and request for accommodation is not sufficient and cannot substitute for required documentation. Students may apply for reasonable accommodations at any time. Accommodations, if granted, are only done so on a prospective basis. Reasonable accommodations are never provided retroactively.

Students seeking reasonable accommodations must:

1. Complete the Application for Accommodations & Services.
2. Provide documentation as described in the Guide to Documentation Requirements.
3. Participate in an interactive dialogue with the OSDS coordinator.

The process, as described above, will result in the issuance of a Receipt of Accommodations form, which will either approve or deny the request. This form is signed by the coordinator, the Dean or Program Director, and the student.

The process, including all submitted documentation, remains confidential. The Receipt of Accommodations (“Receipt”) should not contain any disability-specific information; rather it only lists approved accommodations. The Receipt is shared with the program in which the student is registered to ensure that the approved accommodations are implemented.

A copy of the Application for Accommodations & Services may be available by contacting the Office of Student Disability Services Coordinator for TCDM, Ms. Karen Longo, karen.longo@touro.edu.

STUDENT RIGHTS AND RESPONSIBILITIES

Student Rights

- Confidentiality of all information pertaining to a student’s disability, except where disclosure is required by law.
• Equal access to courses, programs, services, jobs, activities, and facilities available through the College.

• Reasonable and appropriate accommodations, and/or academic adjustments determined by the coordinators of OSDS.

• Access to all services and support available to all Touro students with reasonable accommodations where necessary and appropriate.

Student Responsibilities

• Request reasonable accommodations as necessary and appropriate.

• Meet College and programmatic qualifications, technical, academic, and institutional standards set for all students.

• Identify themselves as an individual with a disability when seeking reasonable accommodation (please note that the approval process takes some time, and as such students are urged to file their paperwork as soon as possible).

• Provide documentation (i.e. diagnosis, diagnostic exam results, etc.) from an appropriate professional source(s) to verify the nature of the disability and functional limitations as related to the requested accommodation(s).

• Respond in a timely fashion to the Office of Student Disability Services’ requests for additional information.

• Follow specific procedures for obtaining reasonable accommodations.

• Attend all classes for enrolled courses, unless otherwise medically excused.

• Immediately report to the OSDS coordinator if previously-approved accommodations are not being made.

• Report to the OSDS coordinator if previously-approved accommodations require modification, which will result in an interactive dialogue and may result in modifications to reasonable accommodations.

• Understand that accommodations are never provided on a retroactive basis.

• Understand that receiving reasonable accommodations is not a guarantee of academic success.

• Keep a copy of their submitted documentation. Touro is not the custodian of the student’s application or medical records.

COMPLAINT PROCEDURE

If a student feels that he/she has been discriminated against on the basis of their disability or disability status, he/she has the right to file a complaint through the grievance or student complaint mechanisms stated in the College Catalog or Student Handbook. A similar procedure can be followed by a student to appeal the College’s response to a request for reasonable accommodations.

For more information and a copy of the Office of Student Disability Services Handbook, please visit https://www.touro.edu/departments/student-disability-services/
The Office of Student Academic Support (OSAS) is committed to the academic success of all TCDM students. The amount of material and pace of the curriculum generally will require students to adapt or modify their study and personal habits, as well as their test-taking skills, and this can present difficulties for many students. Our goal is to identify struggling students as early as possible and provide academic or other support resources for the purposes of course and exam preparation. OSAS staff members lead workshops about study strategies and are available to meet one-on-one with students who would like support with creating individual study plans. The writing/language support through the OSAS includes: workshops on all stages of the writing process; strategies for non-native English speakers; and supplemental individual guidance (in person and electronically) on resumes, cover letters and PASS personal statements. OSAS is not involved in career advising and encourages students to seek program specific career advice within their respective program.

**Academic Support Services Offered**

- Study skills and test-taking strategies workshops
- Time and stress management workshops
- Peer Learning Partner Program
- One-on-one appointments (in-person, zoom, or phone)
- Study Partner Match Program
- Supplemental one-on-one writing support for coursework

**Kristina H. Petersen, Ph.D.**  
Director of University Academic Support

E-mail: k_harrispetersen@nymc.edu

**STUDENT ACADEMIC PERFORMANCE REVIEW COMMITTEE (SAPRC)**

The Student Academic Performance Review Committee (SAPRC) reviews the academic, clinical, and professional performance of dental students. This committee recommends to the dean appropriate action to be taken for each student including, but not limited to, advancement to the next year, graduation, remediation, or dismissal.

The committee considers each student individually in the context of quality of performance, achievement of required competencies, completion of the requirements of the program of study, and the professional attitudes, behaviors, and values expected. The committee makes professional judgments regarding students and has the latitude to make exceptions to academic guidelines for
exceptional situations. The committee normally meets semi-annually, and during the course of each academic year, all students are reviewed.

The committee makes recommendations in the following areas:

- Promotion of students
- Certification for graduation
- Disciplinary action for unethical or non-professional behavior
- Remediation of academic deficiencies, including formulation of the remedial strategy
- Repetition of an academic year
- Dismissal
- Other recommendations as called upon by the Dean.

In considering the advancement, promotion, remediation, or graduation of an individual student, the Committee is given wide latitude, and may evaluate the totality of the educational performance and make decisions in the best interest of the student’s education, TCDM, and the public. If a student fails to pass a course in the program, the committee reviews performance in all courses and may require a student to repeat any or all courses in an academic year, even those that have been previously passed. When repeating courses, the student must achieve a passing grade.

### STUDENT GOVERNMENT ASSOCIATION (SGA)

The Student Government Association (SGA) plays an important role in the TCDM community. It focuses on the problems and needs of the student body and works to bring about constructive change. The By-Laws of the SGA are available on the TCDM website.

Student representatives serve on standing College committees and other organizations of the College.

In addition, upon enrollment into TCDM, all students are enrolled by TCDM into the American Student Dental Association (ASDA) as student members (with dues paid by TCDM).

### STUDENT CLUB/ORGANIZATION REGISTRATION AND APPROVAL POLICY AND PROCEDURES

**Policy**

The Touro College of Dental Medicine recognizes the contributions of student clubs, organizations, and events in enhancing the quality of student life and the College community. These clubs, organizations, and events offer students the opportunities to participate in academic, health-related, cultural, social and athletic activities that are consistent with the development of knowledge, skills, values and attitudes expected of professionals in the health care sciences. Inasmuch as their activities and functions are considered College activities, all student clubs/organizations, and events:
be registered with and approved by the Office of Student Affairs
function in a manner consistent with the values, identity and mission of the Touro College of Dental Medicine
be open to all students currently enrolled at TCDM
have at least six currently-enrolled students as members
not duplicate the function or purpose of any existing group
comply with the policies and procedures of the College

Student clubs, organizations, and events are not eligible if their purpose or activities:
are unlawful or in violation of College policies
endanger the safety of anyone or of College facilities
threaten to disrupt or obstruct College functions
foster hatred or intolerance of others
are conducted secretly or are purely commercial or financially profitable to group members
are inconsistent with the need to operate in a manner that is respectful and sensitive to all faiths but in keeping with Jewish tradition, including without limitation, abiding by the Jewish calendar and glatt kosher requirements.

Several benefits are available to registered and approved student clubs, organizations, and events at the College. These include:
placement of notices on College bulletin boards
use of the College’s email system
eligibility for the use of College facilities, including meeting spaces and media services
eligibility to apply for institutional funding from the SGA
inclusion in the College’s student publications

Procedures
All student clubs, organizations, and events wishing to use the College’s facilities and intending to seek institutional funding must be registered and approved each academic year by the Office of Student Affairs. In addition, all student clubs, organizations, and events must re-register their activities at the beginning of each academic year with the Office of Academic Affairs. This includes approvals for all invited guest speakers, outside of the NYMC and Touro system.

To be considered for official registration and approval at Touro College of Dental Medicine, a student club, organization, or event must submit a completed Student Club/Organization Request Form to the Office of Student Affairs indicating:
the mission, purpose and goals of the student club/organization/event
the duties and responsibilities of all officers or leaders
the current officers’ names, addresses and telephone numbers
the names and classes of all members or participants
the frequency, dates, times and locations of meetings or events
a schedule of activities and events planned for the upcoming academic year
Any additional information reasonably requested must also be provided by the student club, organization or event. Registrations are reviewed for approval after a discussion with the Director of Student Affairs.

Each student club/organization must meet the following requirements for registration and approval (also see “Policy,” above):

1. Its mission and purpose must meet a need not presently met by another club or organization at the College.

2. It must demonstrate that its activities contribute to the overall educational mission of the College by promoting the social, moral, cultural, intellectual, spiritual, or physical development of members of the College community.

3. Its mission, purpose and activities must not be inconsistent with the values, identity, and mission of the Touro College and University System to operate in a manner that is respectful and sensitive to all faiths but in keeping with Jewish tradition, including without limitation, abiding by the Jewish calendar and glatt kosher requirements.

4. Membership and membership privileges must be open to all interested students enrolled at TCDM and include at least six currently enrolled students.

5. All officers and student leaders must be in good standing, both academically and in terms of conduct.

6. No prospective member may be denied full participation in club activities on the basis of unlawful discrimination as to race, ethnicity, creed, color, religion, national origin, sex, gender, age, disability, marital status, genetic predisposition, sexual orientation, citizenship status, or any other protected class.

7. All public announcements regarding the club, organization, or event(s) must be pre-approved for dissemination to the TCDM community.

8. Meetings should be publicized, and all interested students invited to attend.

9. It must fully comply with all existing College policies, and future policies when/if implemented, including, but not limited to the Policy on Professional Conduct, Anti-Hazing Policy, Policy on Drugs and Controlled Substances, Student Code of Academic Integrity and this policy.

10. Its elected officers or student leaders must meet with the Assistant Dean for Academic Affairs to coordinate proposed functions and activities with the academic calendar to assure that these activities do not conflict with scheduled student academic priorities.
11. All registered and approved student clubs/organizations/events must submit for prior review and approval any changes to its mission or purpose or revisions to its governance and provide copies of all appropriate documents related thereto.

Once a student club, organization, or event has been approved by the Director of Student Affairs, a budget form and request for funding from the SGA may be submitted to the treasurer of the SGA. All requests to use College facilities including audiovisual and media services should be coordinated through the Director of Student Affairs, who must authorize their use in writing. All materials for public postings in the appropriate designated areas and venues must be submitted for prior review and approval by the Director of Student Affairs.

Any questions about this policy and related procedures should be directed to the Office of Student Affairs.

INSTITUTIONAL IDENTITY POLICY

All policies, practices and procedures of Touro College of Dental Medicine are administered in a manner that preserves its rights, character and identity. Students or student organizations who wish to use the name of TCDM in conjunction with any public effort, activity or product must obtain prior written permission from the Office of Student Affairs.

STUDENT FUNDRAISING POLICY

Before initiating a student fundraising project for any purpose, students should contact the Office of Student Affairs for information and guidelines.

STUDENT HEALTH SERVICES

TCDM students have access to treatment at the New York Medical College Health Services Office. The office, located in the Basic Sciences Building, near the Pathology wing, is staffed by a medical director and rotating nurse practitioners, and handles internal medicine problems. Nurse practitioners can diagnose and treat most common illnesses as well as prescribe medications.

STUDENT MENTAL HEALTH AND WELLNESS

In the case of a life-threatening emergency, please call 911.

The Department of Student Mental Health and Wellness Services (SMH&WS) provides free and strictly confidential (no records are transmitted to TCDM or family members) psychological and psychiatric services for students, along with programs and strategies designed to reduce symptoms of stress and anxiety, to help promote students’ overall good health and enhance their quality of life. In pursuit of those objectives, the department strives to deliver its services with respect, empathy, and awareness. Professional staff includes a clinical psychologist, a psychiatrist, and a Licensed Clinical Social Worker (LCSW).

Students are encouraged to access services by making an appointment with one of these providers. They can link to “events” on the web to find out about workshops and activities, which are offered to address student concerns in the areas of nutrition, stress management, mindfulness, and awareness. The center also provides integrative exercises, yoga, meditation, and Pilates, to enhance overall health. As an added benefit, students are entitled to five free and confidential acute/crisis sessions per academic year.
**Contact Information**

**Reon Baird-Feldman, Ph.D.**  
Clinical Psychologist  
Assistant Professor of Psychiatry, NYMC  
Co-Director, Student Mental Health and Wellness  
Skyline, RM 2S-D44  
914-594-2542  

**David Stern, M.D.**  
Psychiatrist  
Assistant Professor of Psychiatry, NYMC  
Co-Director, Student Mental Health and Wellness  
Skyline, RM 2S-D46  
914-594-2543  

**Robin Hershkowitz, LCSW-R**  
Licensed Clinical Social Worker  
Skyline, RM 2S-D52  
914-594-2577  

**Kelsey Polikoff**  
Administrative Assistant  
Skyline, RM 2S-K06  
914-594-3880  

**Appointments:**  
**Location**  
19 Skyline Drive, Rm. 2S-D45  

**Office Hours**  
October 1 through March 31 (Fall/Winter):  
- Mon, Wed, Thurs: 9 AM to 5 PM  
- Tues: 9 AM to 7 PM  
- Fri: 9 AM to 3 PM  

April 1 through September 30 (Spring/Summer):  
- Mon, Wed, Thurs, Fri: 9 AM to 5 PM  
- Tues: 9 AM to 7 PM  

**Walk-in Hours**  
Tues, Wed: 2 PM to 5 PM  

**Via E-mail**  
NYMC_StudentWellness@listserv.touro.edu  

**After-Hours Crisis Service**  
All TCDM students have access to the After-Hours Crisis Service managed by the Department of Student Mental Health and Wellness Services. This service provides immediate access to counseling on nights and weekends in case of emergency.  

Students can access this service by going to the following website, Crisis Submission Form, and submitting an After-Hours Crisis Submission Form.
Once submitted, the form will automatically be transmitted to the Student Mental Health and Wellness team. Dr. Baird-Feldman, Dr. Stern, or Robin Hershkowitz, LCSW-R, will be in contact with the individual in crisis by email or phone promptly.

This is not intended to provide emergent in-person evaluation or treatment, but to provide enhanced access for students in crisis.

**In the case of a life-threatening emergency, please call 911.**

NYMC Office of Security: 914-594-4226

**STUDENT HEALTH INSURANCE**

Students are required to be covered by hospitalization insurance satisfactory to the College. Student group contracts with Blue Cross/Blue Shield Comprehensive Care Plan are maintained by the College for this purpose. Married students may elect to purchase family contracts at additional expense. Enrollment forms and additional information is available at: [https://app.hsac.com/tcdm](https://app.hsac.com/tcdm). Student who elect to retain other acceptable insurance will be required to submit written documentation. The health insurance program is administered by the Bursar.

**STUDENT DISABILITY INSURANCE**

TCDM has worked in conjunction with the American Student Dental Association (ASDA) and Great-West Financial to automatically enroll all dental students in the ASDA student members disability and life insurance plans. This insurance is provided at no cost to students as a benefit of their ASDA membership (see p. 61) and covers them throughout dental school. The life insurance policy includes $50,000 of term life insurance plus $50,000 of accidental death insurance. The disability policy provides a $2,000/month disability benefit for up to seven years and up to $150,000 to repay student loans while disabled. Great-West, the administrator of these plans, sends each student an email confirming enrollment and a packet containing certificates of insurance and more details about coverage. Once a student is enrolled, the coverage continues throughout each year of dental school. Students should register their accounts online at [insurance.ada.org/account/registration.aspx](https://insurance.ada.org/account/registration.aspx) to view coverage details and update contact information any time it changes. Nancy Fix is the Insurance Plan Specialist for Touro and she is available to answer any questions students may have about coverage or insurance needs both as a student and after graduation as a new dentist. For more information, visit [insurance.ada.org/dental-student.aspx](https://insurance.ada.org/dental-student.aspx) or call 855-411-5197.
POLICY ON STUDENT ATTENDANCE AND ABSENCES

The curriculum has been carefully designed to ensure that students attain the educational objectives of the Touro College of Dental Medicine. Students’ direct engagement in the learning process is required for completion of the requirements for the D.D.S. degree, and the fulfillment of these objectives.

The classroom component is an essential part of the educational experience. Students are expected to attend lecture and laboratory sessions on a regular and punctual basis and to complete assignments in a timely fashion in order to obtain the educational benefits that each meeting affords. Instructors may include an attendance policy with appropriate consequences in their course syllabus. At the discretion of the course director, excessive absences or failure to complete assignments may lead to a reduction in the student’s grade or failure in the course. Note: Financial aid may not be available in cases where the student does not meet satisfactory academic progress (SAP).

During the first two pre-clinical years, students are expected to attend ALL small group conferences, laboratories, and other teaching exercises, as well as any educational activities and programs sponsored and directed by the College.

EXAMINATION ATTENDANCE

Taking examinations at the time of assignment is an important aspect of professionalism, an integral component of the dental education curriculum at TCDM. Therefore, students are expected to take each examination on its scheduled date and time. Students unable to sit for a scheduled exam must follow these steps:

1. In the rare event a student is unable to sit for a scheduled exam due to a serious unforeseen circumstance (including but not limited to: death in the immediate family, car accident, serious illness) or an unavoidable life cycle event, the student must immediately notify the Director of Student Affairs as well as the course director upon initial knowledge of said circumstance.

2. The student will be expected to provide adequate proof (i.e. appropriate documentation) of the unforeseen circumstance or unavoidable life cycle event to the Office of Student Affairs. The Office of Student Affairs will have the final decision on whether or not the proof is considered adequate.

3. Upon providing acceptable and adequate proof, the absence will be considered an excused absence.
4. If a student cannot provide adequate proof of a serious unforeseen circumstance, unavoidable life cycle event, or if the student missed the examination due to the student’s negligence, the absence is considered an unexcused absence. In this case, a student will receive a zero for the examination.

5. With respect to an excused absence, the student must be prepared to take the make-up examination immediately upon return. The course director will determine the date, time, and content of the make-up examination – which the student should expect to take within one week of returning to school. With respect to an unexcused absence, the student may not sit for a make-up examination at all.

6. Quiz examination attendance policies will be determined for each course by the course director and described in the course syllabus.

**LABORATORY ATTENDANCE**

At TCDM, development of interpersonal skills is an integral component of the curriculum. A significant portion of this education occurs through the day-to-day interactions between and among students, faculty and support staff in the pre-clinical simulation laboratory. Therefore, laboratory attendance is mandatory, with students expected to arrive on time and work throughout the session. These rules apply to laboratory work:

1. Arriving fifteen minutes after the beginning of a laboratory session as determined by the audience response system (ARS) is considered an unexcused late arrival and will result in a loss of 1-point subtraction from the Laboratory course grade.

2. An unexcused absence from an entire laboratory session will result in a 2-point subtraction from the Laboratory course grade. Students continue to lose 2 points for every laboratory unexcused session missed.

3. All laboratory sessions are mandatory regardless of project completion status. However, a student is permitted to leave, or not attend a laboratory session with approval from his or her assigned faculty member or in their absence approval by the course director if all current laboratory projects and assignments have been recorded as complete in Blackboard.

**GRADING, REMEDIATION, AND CREDIT HOURS**

TCDM assigns letter grades to each course, based on the student’s performance.

Grades are assigned as follows:
<table>
<thead>
<tr>
<th>GRADE</th>
<th>GRADE DEFINITIONS</th>
<th>GRADE VALUE</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>High Honors</td>
<td>4.000</td>
</tr>
<tr>
<td>B</td>
<td>Honors</td>
<td>3.000</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2.000</td>
</tr>
<tr>
<td>P</td>
<td>Passing</td>
<td>Not calculated in GPA</td>
</tr>
<tr>
<td>F/C</td>
<td>Satisfactory with remediation</td>
<td>2.000</td>
</tr>
<tr>
<td>F</td>
<td>Unsatisfactory</td>
<td>0.000</td>
</tr>
<tr>
<td>INC</td>
<td>Incomplete</td>
<td>Pending (not calculated in GPA)</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal</td>
<td>Not calculated in GPA</td>
</tr>
<tr>
<td>WU</td>
<td>Withdrawal Unsatisfactory</td>
<td>0.000</td>
</tr>
<tr>
<td>WNA</td>
<td>Withdrawal Never Attended</td>
<td>Not calculated in GPA</td>
</tr>
<tr>
<td>YC</td>
<td>Year Course</td>
<td>N/A</td>
</tr>
</tbody>
</table>

Courses are rated at one credit hour for approximately each 16 hours of lecture or 48 hours of laboratory and/or practice sessions.

**Additional Grade Explanations**

**F** (Unsatisfactory): If a grade of “F” is earned, the course must be remediated or repeated. All “F” grades must be converted to passing grades before a student may enter the clinic or be promoted, unless otherwise authorized by the Dean. If remediation is unsuccessful, the student must re-register for the course and repeat it in its entirety. The final grade for the repeated course is calculated into the GPA.

**F/C** (Satisfactory with remediation): After an unsatisfactory performance has had successful remediation, an “F/C” will replace the “F” on the transcript.

**INC** (Incomplete): Student did not complete all course assignments and received the instructor’s permission to complete course requirements at a later date (see ‘Grade of Incomplete’ section below).

**W** (Withdrawal): (No penalty) This grade is assigned when a student officially withdraws from a course after the Add/Drop period by filing an Add/Drop form with the Office of the Registrar, signed by an academic advisor. A student who does not file this form will receive a failing grade of WU, depending on the number of class sessions attended and the amount of work completed. Time periods for official withdrawal vary by semester.

**WU** (Withdrawal Unsatisfactory): Student stopped attending/participating before 60% or less of the scheduled classes per semester; calculated as a failing grade.

**WNA** (Withdrawal Never Attended): Student never attended class/rotation. When this grade is assigned, it is not calculated in the student’s grade point average (GPA). Additionally, Touro College reserves the right to assign a WNA grade, when necessary, in limited circumstances.

**YC** (Year Course): Course is part of a multi-semester sequence. Final grade issued in last course in the sequence.
GRADE OF “INCOMPLETE” (INC)

A grade of “Incomplete” (INC) may be given to students who have acceptable levels of performance for a given course, but have not completed all course requirements – such as an examination, a paper, a field work project, or time on a clinical rotation. “Incomplete” grades are routinely allowed only for the completion of a relatively small percentage of work in a course (e.g., 25%). Grades of “Incomplete” are not issued to students who are doing substandard work in order to give them the opportunity to redo their projects/exams so that they can achieve an acceptable grade.

The procedure for granting an “Incomplete” begins with the student requesting a meeting with the faculty member in which the faculty member will review the student’s progress and decide whether it is appropriate for the student to receive the grade of “Incomplete.” If the faculty member decides that the student does not meet the requirements for the grade of Incomplete, she or he may deny the student’s request. The student may contest the faculty member’s decision by appealing in writing to the department/program chair. Policies regarding the consequences of missing a final exam may differ in individual schools or programs, and will govern the student’s right to request a grade of “Incomplete.”

If the student is permitted to apply for an Incomplete, he or she will fill out a Contract for Grade of Incomplete. The Contract is considered a request until it is approved and signed by the student, faculty member, and department/program chair. Signed copies of the Contract are given to the student, the faculty member, the departmental/program chair, and a copy is forwarded to the Registrar’s Office. The faculty member is asked to record the grade of “Incomplete.”

Although the time allowed for the completion of any single project may vary depending on the magnitude of the project, with a typical timeframe being 6 weeks, grade of Incomplete should not be allowed to stand longer than one semester from the end of the semester in which the course was given. (Incomplete grade in the Fall must be changed by end of the next Spring; Incomplete grade in the Spring must be changed by the end of next Fall). The faculty member will specify the amount of time allowed to finish an incomplete project in the contract. The amount of time should be appropriate to the project. For instance, a faculty member may only want to allow a relatively short amount of time to complete a missing exam. Under special circumstances, the Dean may extend the deadline beyond one semester. In such a case, the contract should be revised to reflect the change. Once the student completes the required project, the faculty member determines the final grade for the course and notifies the Registrar by using the standard Change of Grade form.

Courses that receive an “Incomplete” grade will be counted toward the total number of credits attempted, but not earned. The course will not be calculated in the student’s term or cumulative GPA until the incomplete grade is resolved. If the “INC” grade is subsequently changed to an “F,” the “F” grade will be calculated into the student’s GPA and will appear on the transcript. Incomplete grades can, therefore, affect a student’s financial aid status at the college, but will not initially affect the student’s GPA. For students who are accessing Title IV programs to assist in
paying their educational expenses, a grade of “Incomplete” may result in the inability of the Financial Aid office to confirm that students are in satisfactory academic standing.

**GRADE POINT AVERAGE (GPA) AND CLASS RANK**

A student’s official grade point average (GPA) is calculated at the end of each semester. Each letter grade has a numerical equivalent, or “value,” as shown above. Cumulative GPA is calculated by dividing the total number of grade points earned at TCDM by the total number of credit hours completed, except for those with the grade of “P” in courses graded on a pass/fail basis. Example: A student receives the following grades and credits:

<table>
<thead>
<tr>
<th>GRADE</th>
<th>CREDIT HOURS</th>
<th>GRADE VALUE</th>
<th>GRADE POINTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
<td>X 4.000</td>
<td>= 16.000</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
<td>X 3.000</td>
<td>= 9.000</td>
</tr>
<tr>
<td>B</td>
<td>4</td>
<td>X 3.000</td>
<td>= 12.000</td>
</tr>
<tr>
<td>F/C</td>
<td>3</td>
<td>X 2.000</td>
<td>= 6.000</td>
</tr>
<tr>
<td>Totals</td>
<td>14</td>
<td></td>
<td>43.000</td>
</tr>
</tbody>
</table>

*Calculated GPA: 43.000 ÷ 14 = 3.071*

The College does not maintain class rankings.

Students have numerous opportunities to demonstrate competence in each area of the academic program. For students who have not performed sufficiently well in a given course, the College may offer a re-examination and/or a maximum of two remediation opportunities, subject to the Satisfactory Academic Progress policy. However, remediation should be regarded as a privilege that must be earned by a student through active participation in the educational program, as demonstrated by regular attendance and by individual initiative and utilization of resources available to him/her. Decisions regarding remediation are made by the Dean on an individual basis after considering the recommendation of the SAPRC and all pertinent circumstances in each case.

**RE-EXAMINATION**

If immediately following a course, a student’s grade is calculated to be unsatisfactory but the student is deemed, by the course director, to have demonstrated adequate knowledge of course material, for example within 5% of the determined passing grade without rounding, they can be re-examined with a comprehensive examination or some other method as determined by the course director within one week of the last day of the course ending. If successful, they would receive a course grade of no higher than “C.” If they are unsuccessful, or a student is deemed to not have adequate foundational knowledge to be re-examined, they will receive the grade of “F” and be required to remediate the course as set forth below.
REMEDICATION

The SAPRC, after review of individual student academic performance and overall academic record, may recommend to the Dean one of the following courses of action:

1. Take the failed course at an accredited institution with the approval of the Academic Dean in consultation with the course director. Such approval may be granted if the course offers comparable course content and curriculum as determined by the Academic Dean in his/her absolute discretion. In this case, students who have taken and earned a grade of no less than ‘C’ will be deemed to have adequate knowledge of course material and the grade for the course will be converted from an “F” to an “F/C”. The F/C will appear on the transcript and a 2.0 will be used in GPA calculation.

2. Repeat the course(s) that have been failed by repeating portions or all of the previous academic year in a manner determined by the Academic Dean. In which case all previous grades will remain on the transcript and calculated in the GPA.

3. Be dismissed from the program.

APEAL

Within five business days of a written notification of the SAPRC, the student must submit a concise, written statement detailing the basis for the appeal. An Ad Hoc Committee will be appointed by the Academic Dean to hear the appeal. The student will be notified of the date, time, and place of the Ad Hoc committee meeting scheduled to consider the appeal, and has the right to be present at that hearing. During the hearing, the student may speak in support of their appeal. The student may ask a member of the full-time faculty to join him/her for the part of the meeting when the student is present. The faculty member is not present to speak, but rather to be supportive of the student. Legal representation is not permitted at the meeting. In the event that the student fails to attend the meeting without cause, the Ad Hoc committee shall proceed in his/her absence. The Ad Hoc committee will provide the SAPRC with a report. The student will be notified, in writing, of the decision of the SAPRC within ten business days of completion of the Ad Hoc meeting. All appeal decisions are final. In the event of a dismissal, no further applications for enrollment can be considered.

TUITION CHARGES FOR REMEDIATION

When a student is required to repeat a segment of the academic program, the student is required to pay tuition and fees for that segment of the curriculum as defined by the College. No tuition refunds will be made if a student is dismissed from TCDM, except as provided by the College’s refund policy. Students who have been allowed remediation must inquire as to whether they will be eligible for financial aid for their particular remediation plan. The College cannot guarantee that a student will be eligible for financial aid funds for remediated courses. With that said, students are encouraged to contact the Financial Aid Office for additional information.
PROMOTION

The curriculum of the College of Dental Medicine is divided into four academic years, each year building on the subject material of the preceding year. At the end of each course, each student's performance is evaluated and recorded. A student's final course grade is determined by the faculty after evaluation of the student's performance in all aspects of the coursework, including achievement of course objectives/competencies in all domains (i.e., knowledge, skills, attitudes, and behaviors). Criteria for assigning grades are determined by the course director. These criteria are provided to the student, as part of the course syllabus, before classes begin.

Policy, Procedures, Options

Student progress is assessed after each semester. Promotion, defined as progression from one academic year to the next, takes place within these guidelines:

1. Students are recommended to the Dean for promotion by the SAPRC.

2. A student who has an “INC” and/or “F” on their record will not be recommended for advancement until the “INC” and/or “F” is converted to a satisfactory grade, unless so authorized by the Dean.

3. A student with three (3) or more “F”, “F/C” or “INC” grades in an academic year will, at a minimum, be requested to repeat all coursework in that academic year.

4. After remediation, a student with 2 or fewer “F” grades will, at a minimum, be required to either (1) repeat the course(s) in which the “F” grades were earned, or (2) repeat a portion of, or the entire, year, or (3) be dismissed.

5. No student may progress to the third year (clinic) until all courses have been passed unless so authorized by the Dean.

6. When considering a student for promotion, professional, ethical, and personal conduct is considered.

7. A student who has met all the above requirements will be promoted, provided that all academic, compliance, and financial requirements to the College have been satisfied.

If a student’s academic performance in a year of study does not meet the institutional requirement for advancement the student may be requested to repeat a course or even the entire academic year as decided by the Student Academic Performance Review Committee (SAPRC) (See below).

ACADEMIC DIFFICULTY AND ACTIVITIES

Students having academic difficulty of any sort, including deficiency in a single course, are advised to not participate in extracurricular activities or research that require a significant expenditure of time without discussing the matter with the Office of Student Affairs and obtaining approval for such activities.
MAXIMUM TIME FRAME (SIX YEAR RULE)

All requirements for the D.D.S. degree must be completed within six years of initial enrollment. This maximum time-frame includes leaves of absence for any circumstances – e.g., maternity, hospitalization, catastrophic leave – or time needed to prepare to take the boards (either the NBDE or, beginning in summer 2020, INDBE examination). This limitation is imposed partly because, over more extended periods, retention of material learned, and technical skills mastered, tends to decline.

Students will be dismissed from the College when/if the Office of Academic Affairs determines that it is no longer possible for them to complete the program within the prescribed time period. Appeals for exceptions from this regulation may be considered by the Dean on a case-by-case basis. Please note: Students who are permitted to exceed the maximum time-frame are still deemed not to be making adequate progress in the program, as defined in the Satisfactory Academic Progress policy, and may not be eligible for financial aid.

The core objective of this policy, sometimes referred to as the “Six-Year Rule,” is to allow TCDM to be confident in each student’s command of the curriculum, in order to ensure the professionalism of its graduates.

DISMISSAL

If a student’s academic performance does not meet the institutional requirement for continued enrollment, the student is subject to dismissal. A student may be subject to dismissal if:

- they have more than one failing grade at any time.
- they fail a course for the second time.
- they fail to meet the requirements of remediation.
- they demonstrate behavior that is inconsistent with the standards of professional values and behaviors expected.
- their performance, though passing, is borderline or marginal in several courses, if the SAPRC determines that the student does not meet the competency standards of the College.
- their academic record, though demonstrating passing performance, contains multiple deficiencies or failures with subsequent remediation, is subject to dismissal.

REFERRALS

The SAPRC committee may require various types of materials to review and referrals, including medical and psychiatric evaluation, and may require written reports to be submitted directly to the committee or to the Assistant Dean for Academic Affairs. These records, evaluations, and reports are subject to the Health Insurance Portability and Accountability Act (HIPAA) and are held in strictest confidence. If a student refuses to undergo required evaluations or referrals, the student may be subject to dismissal.
LEAVE OF ABSENCE

A matriculated student enrolled at Touro who chooses to interrupt his/her attendance but intends to return and continue his/her study at Touro must submit to the Office of the Registrar a completed “Leave of Absence (LOA)” request form signed by all parties noted on the form. An LOA should be requested after the semester the student is in is completed and before the following semester starts. If extenuating circumstances arise, a student may request a leave of absence mid-semester and/or beyond one semester. These circumstances include, but are not limited to, a death in the family, medical reasons, military leave and personal well-being. Any LOA requested during the semester or for a period beyond one semester will be considered as a non-reportable LOA for purposes of administering federal financial aid.

PLEASE NOTE: This regulation may impact only students who wish to take leaves of absence extending beyond one semester. Therefore, students receiving Title IV financial aid funds must meet with a Financial Aid officer to discuss their situation before filing a “Leave of Absence” request form.

A student whose leave of absence is approved, and who is registered for courses at the point of approval, is automatically withdrawn from all courses. Tuition will be refunded in accordance with Touro’s published refund policy.

Students who are on leave must contact the Office of the Registrar and submit a Petition to Return to Classes form at least 30 days prior to the start of the semester in which they wish to resume their studies. To return from a medical Leave of Absence, the student must also submit evidence, such as a letter from the student’s physician or an evaluation by a responsible medical authority, that there is no medical impairment that would prevent the student from fully participating in all phases of the program.

WITHDRAWALS

(IMPORTANT: Also see “Policy for Withdrawing from All Classes”, under “Tuition Refund Schedule” above)

A student may officially withdraw from a class only with the approval of the Dean or designee. Such approval is granted only for extraordinary circumstances. If approval is granted, the student receives one of the following grades: W (withdrawal) or WU (withdrawal unsatisfactory).

- Courses from which a student withdraws during the official add/drop period will not appear on the student's academic transcript.

- Withdrawals assigned after the add/drop period of a semester carry no academic penalty, and will be entered on the transcript as a ‘W’.

Students should be aware that withdrawal from a class may result in a significant extension of the student’s professional program.
Withdrawal from the College

Students who wish to withdraw from their studies at Touro College in good standing should give official notification to the Dean and to the Office of the Registrar by completing a “Permanent Withdrawal” form. The date of the withdrawal is the date the official notification is received by the Office of the Registrar.

The decision to withdraw from the College is a serious matter. Any student who withdraws from the program is dropped from the rolls of the College. Students contemplating withdrawal are advised to discuss this issue with the Director of Student Affairs. If a student decides to withdraw, information is available regarding transfer opportunities to other institutions as well as assistance in defining new occupational or career goals. Students considering withdrawal are subject to the policies governing withdrawal from courses. If a student decides at some later date to reapply to reenter the program, he/she must reapply for admission and, if accepted, the status of the returning student will be determined by the Dean.

Non-attendance, non-participation or notification to the instructor/course director does not constitute an official withdrawal. The Office of the Registrar is the only Designated Campus Official for all official withdrawals.

Withdrawal Procedures

A student wishing to withdraw from Touro is required to meet with the Director of Student Affairs or designee. The student must inform the Dean, in writing, of the decision to voluntarily withdraw and voluntarily relinquish his/her position in the program. An official withdrawal form is available from the Office of the Registrar. The official withdrawal form must be completed and sent to the Registrar’s Office. The withdrawal process includes clearing financial obligations to Touro and completion of a financial aid exit interview. Following completion of these withdrawal procedures, the designation "Withdrawal" will be placed in the student’s permanent records. The designation "Unofficial Withdrawal" is placed in the permanent record of any student who withdraws from his/her program without complying with the above procedures.

DegreeWorks

DegreeWorks is a sophisticated and comprehensive academic advising, transfer articulation, and degree audit solution designed to help students monitor their academic progress toward degree completion. DegreeWorks is a web-based tool that meets the needs of all end users, undergraduate and graduate students alike, to complete their programs in a timely fashion.

The benefits of DegreeWorks include:

- Helping you easily monitor your academic progress online 24/7.
- Presenting exactly what the degree/program requirements are up front with consistency and accuracy.
- Displaying the fastest and best path to graduation that exists for your degree and your interests.
• Complementing your relationship with the Advisor, by removing some administrative burdens and leaving more time for true advising and career counseling.
• If you are a transferring student, the DegreeWorks tool will allow you to see where your transferring credits can be applied earlier in the enrollment cycle.
• Allowing you to estimate the number of semesters it will take to graduate.
• Viewing your grades and GPA.
• DegreeWorks can be accessed through the TouroOne portal (by using TouroOne credentials) by following these steps:
  o Login to the TouroOne portal at https://touroone.touro.edu/sso/login
  o Go to the “Academic” tab.
  o Click on the “DegreeWorks” button on the bottom left-side of the academic section.

If you are having difficulty accessing DegreeWorks, please contact Touro’s HelpDesk at help@touro.edu. If you have any questions, or would like more information, please do not hesitate to contact your advisor or the Registrar’s Office.

**GRADUATION**

**GRADUATION REQUIREMENTS**

A student will be recommended for the degree of Doctor of Dental Surgery if the candidate satisfies all of the following requirements:

1. The student must have completed all coursework, examinations, mandatory academic exercises, minimal clinical accomplishments and competency exams;

2. The student is not on Academic Probation, has completed all prescribed academic requirements achieving a cumulative GPA of 2.0 or higher, has no outstanding grade that is incomplete.

3. The student has performed and behaved in a manner which is ethical, professional, and consistent with the practice of dental medicine

4. The student has complied with all of the financial requirements associated with matriculation at Touro College of Dental Medicine.

Completion of all requirements for the degree results in the eligibility of students for graduation.

**GRADUATION APPLICATION**

Students must apply for graduation online and should contact the Office of the Registrar for information about application deadlines.
To apply for graduation online, students need to click the “Apply to Graduate” button under the “Academic” tab located on the TouroOne portal and follow the prompts.

Participation in these ceremonies does not necessarily mean that a student has graduated. Graduation is certified officially by the Office of the Registrar only after auditing the student’s record for completion of all certificate or degree requirements. PLEASE NOTE: Touro College’s official degree conferral dates normally do not correspond to the dates on which commencement exercises take place.

**TRANSCRIPTS**

Students can order official copies of their transcripts as follows:

2. Click on this link, which appears in the second line under “Official Transcripts.”

All official transcript requests must be cleared by the Bursar before processing. Processing of official transcripts requires 7-10 business days after receiving Bursar clearance, longer during peak periods.

**RUSH Service**

Same-day transcript request service is now available. Here’s how the RUSH system works:

- There is a limit of two official transcripts per order.
- Requests must be submitted online – please follow the steps above - no later than 12 noon on business days.
- Transcripts will be available by 3 PM on the same day.
- RUSH requests submitted after 12 noon will be processed on the next business day.
- A fee of $30.00 is added to the applicable transcript charge for RUSH orders.
- Student copies can also be requested with RUSH service.

**Viewing and Printing Your Unofficial Transcript from TouroOne:**

1. Log into your TouroOne account at [https://touroone.touro.edu/sso/login](https://touroone.touro.edu/sso/login)
2. Click on the “Academic” tab and click on “View Academic Transcript (Unofficial Transcript)” under the "My Records" portlet.
3. If you wish to print, right-click using your mouse then select print.

If you do not have access to a computer and/or printer, you may log onto the website and print your report in any Touro College computer lab.
POST GRADUATE PLACEMENT

Graduation from TCDM with a DDS degree does not guarantee placement in a residency or licensure to practice dentistry. Each state sets its own licensure requirements. Obtaining a license in one state does not guarantee the ability to practice in another state. Although specifics vary, all states require:

1. Educational: All states’ educational requirements are satisfied by graduation from Touro College of Dental Medicine as a dental school accredited by the ADA Commission on Dental Accreditation.

2. Written Examinations: All licensing boards use the National Board Dental Examinations (NBDE) to satisfy a major portion of their written exam requirements. The NBDE examination is developed and administered by the ADA’s Joint Commission on National Dental Examinations. The actual exams are conducted through regional testing locations such as Prometric. Some states require additional written examinations.

3. Clinical Licensure Exam: Clinical exam requirements vary but most states accept result from one or more regional testing agencies (such as CDCA or WREB). Review the licensure laws and regulations from the individual state board websites for real-time information about which exams are accepted where licensure is sought. The clinical requirement in New York State is recognized only by completion of either an accredited PGY1 Residency or the full requirements of a specialty program.

NATIONAL BOARD DENTAL EXAMINATION (NBDE) REQUIREMENTS

The National Board Dental Examination (NBDE) is administered by the Joint Commission of National Dental Examinations. This exam is currently comprised of two parts, NBDE 1 and NBDE 2, and is designed to test comprehensive knowledge derived from the entire D.D.S./D.M.D. curriculum. The American Dental Association is in the process of revising the format and content of this exam, which will become a single exam known as the Integrated National Dental Board Examination (INDBE). The Integrated exam is scheduled to begin being administered beginning in August 2020.

Passing the National Board Dental Examination is not required for graduation; successful completion of this exam is required for most state licensure and residency programs.

All students must be certified to take the examination by the Office of Academic Affairs. Students must be in good academic standing to be eligible for approval to take the exam.

From the National Board of Dental Examination guide:

- Candidates must wait a minimum of 90 days between test attempts. There are no exceptions to the 90-day waiting period.
• NBDE Part I candidates who have not passed an examination after three attempts will be required to wait 12 months after their third attempt before they can apply for reexamination. After the 12-month waiting period has ended, a new cycle will apply.

• 5 Years/5 Attempts Eligibility Rule, candidates must pass the examination within a) five years of their first attempt or b) five examination attempts, whichever comes first.

RESIDENCY PROCESS

Students are encouraged to apply to a Post-Doctoral residency program and may use either the ADEA Post-Doctoral Application Support Services (PASS) or Post-Doctoral Dental Matching Program (MATCH) to do so. To obtain an Institutional Evaluation Form (IEF) or Dean’s Letter, follow these guidelines:

PASS Institutional Evaluation Form (IEF): Students should submit their TCDM Request Form, along with their curriculum vitae and personal statement, to the Office of Student Affairs. The IEF Request should be submitted through the PASS portal. Select three TCDM faculty members – two clinical and one preclinical – to complete the Applicant Attribute form, which can be found on Canvas. The Office of Student Affairs will prepare and upload the IEF letter to ADEA PASS. You must submit all contact information (Name, mailing address, and e-mail address) on your TCDM Request Form and indicate any special handling requirements. This request may take up to 30 business days to process after submission of your completed application.

Professional Evaluations Form (PEF): Submission of these forms is mandatory; each program indicates the number of evaluations they prefer on their program page. Use the ADEA PASS Search Engine to locate programs and find out about deadlines, requirements, and other important details.

DENTAL MATCHING PROCESS

The Postdoctoral Dental Matching Program ("Dental Match") is a process designed to help applicants obtain positions in the postdoctoral dental education programs of their choice.

Introduced in 1985, “The Match” has operated successfully over the past 35 years, and expanded to include the following types of programs: Advanced Education in General Dentistry (AEGD), US General Practice Residency (GPR), Canadian General Practice Residency (GPR-CAN), Oral and Maxillofacial Surgery (OMS), Orthodontics (ORTHO), Pediatric Dentistry (PED), Periodontics (PERIO), Prosthodontics (PROS) and Dental Anesthesiology (ANES).

Applicants using the Match must still apply directly to programs they are interested in, and applicants and programs interview and evaluate each other independently. No offers are made by programs during the interview period. When programs and applicants have evaluated each other fully, programs decide on their preferences for applicants, and vice-versa.
After all interviews are completed, each applicant submits a Rank Order List on which the s/he lists program choices, in numerical order according to the applicant's preference (first choice, second choice, etc.). Similarly, each program submits a Rank Order List on which the program lists the desirable applicants, in order of the program's preference. Each program also indicates the number of positions the it has available. The Match then places individuals into positions using an algorithm that operates on the preferences stated in the Rank Order Lists.

Each applicant is placed with the most preferred program on his/her Rank Order List that (1) ranks the applicant and (2) does not fill all its positions with more preferred applicants. Similarly, each program is matched with the most preferred applicants on its list, up to the number of positions available, who (1) rank the program and who (2) do not receive positions at programs they prefer more.

Information about the rankings submitted by both programs and applicants is kept strictly confidential. Each applicant is given only the final result arrived at via the Match process. Likewise, each program is provided only with the final results, including the names of the applicants that have received positions.

It is possible that all of a particular program's positions will not be filled through the Match process and that, similarly, some applicants will be left unmatched. When the results of the Match are released, information regarding positions that remain available is provided to applicants who are not matched, and information regarding unmatched applicants is provided to programs with unfilled positions. These unmatched applicants and programs with positions available are free to contact each other and to negotiate directly with each other, independent of the Match, to fill available positions.

The National Dental Match Timeline gives a full schedule of process steps and their deadlines, and includes numerous links to other valuable information.
Students are expected to behave in a manner that is harmonious with and supportive of the activities and functions of an educational institution. The following types of actions are considered violations of the Touro College Code of Conduct and will result in disciplinary sanction:

1. Theft of, or damage to, College records and property, caused by intentional, negligent or irresponsible conduct;
2. Unauthorized use of any College property, including, but not limited to, its name, property, offices, premises, equipment (computer equipment, telephones, fax machines, copying equipment, laboratories and misuse of student ID cards);
3. Conduct which interferes with or obstructs any College functions or which physically obstructs or threatens to obstruct or restrain members of the college community;
4. The physical or sexual abuse or harassment of any member of the college community (such incidents must also be reported to the Title IX coordinator);
5. Threatening or actual infliction of bodily injury, assault, emotional trauma against students, faculty or staff of the College (such incidents must also be reported to the Chief Security Officer);
6. Disorderly, disruptive or abusive conduct in the classroom or on College premises;
7. Refusal to follow the directives of College officials acting in performance of their duties;
8. Impersonating college faculty, College officials, or college staff;
9. Forging signatures or other information on registration forms, financial aid forms or any other College documents;
10. Computer abuse, including possession of unauthorized passwords, plagiarism of programs, unauthorized destruction of files, misuse of computer accounts and disruptive or annoying behavior on the College’s computer system;
11. Unauthorized sale, distribution or consumption of alcoholic beverages on College premises;
12. Distribution, purchase or possession of barbiturates, amphetamines, marijuana, hallucinogens, opiates, or any other addictive or illegal drugs or paraphernalia on College premises;
13. Gambling in any form on College premises;
14. Possession, distribution or sale of weapons, incendiary devices, or explosives on College premises;
15. Tampering with or misusing fire-fighting equipment and/or safety equipment (such as alarm-boxes and extinguishers);
16. Participation in or furtherance of any illegal activity on Touro’s premises;
17. Offensive or derogatory written or verbal statements intended to inflict harm on members of the College community, including, without limitation, racist, ethnic, or sexist remarks or references regarding any member or group of the College community;
18. Any abusive conduct or harassment directed at an individual or group of individuals in the College community on the basis of the actual or perceived race, gender, color, national origin, ethnicity, religion, age, disability, sexual orientation, marital or parental status, or citizenship status of such person(s);
19. Refusal to identify oneself to an official or security officer of the College or to present proper identification upon entering the college premises;
20. Actions that are not harmonious with and supportive of the activities and functions of an educational institution; actions that harm the reputation of the College;
21. Aiding or abetting any conduct prohibited by this College Code;
22. Conviction of a felony crime while enrolled at the College;
23. Intentionally filing a false complaint under this College Code of Conduct;
24. Academic dishonesty and lack of academic integrity.

Individuals who violate any of the provisions of the Code of Conduct are subject to disciplinary action at the discretion of Touro College. Student organizations violating the above regulations may be penalized by having their charter revoked. Furthermore, disciplinary sanctions may also be imposed against the officers and members of student organizations at the discretion of Touro College.

TOURO COLLEGE SOCIAL MEDIA POLICY

Touro College policies apply to students’ online conduct. College staff members do not “police” online social networks and the College is firmly committed to the principle of free speech. However, when the College receives a report of inappropriate online conduct it is obligated to investigate. This is true even when a student posts to a personal social media account using their own phone or computer while off-campus or during a break. The College has the right to discipline students for misconduct or lack of professionalism wherever it occurs, including online.
ADJUDICATION OF COLLEGE CODE OF CONDUCT VIOLATIONS

[Please note that there is a separate adjudication process for academic integrity violations (#24 in the Code of Conduct) in the section on Academic Integrity below entitled “Procedures in Response to Violations of Academic Integrity” p. 94]

Any member of the College Community may notify the Director of Student Affairs or his/her designated representatives of a Code of Conduct infraction by submitting a written statement describing the alleged infraction to the Office of the Academic Dean within ten (10) school days of the alleged violation or within ten (10) school days from the time the charging individual learned of the alleged code violation, but no later than within three (3) months of the violation.

The Director of Student Affairs, or one of his/her designated representatives, shall inform the individual charged with the infraction, in writing, of the nature of the charges against him/her and designate a time and place for a meeting in the Office of the Academic Dean.

After meeting with the individual charged with the infraction, the Director of Student Affairs will conduct a preliminary investigation of the charges and determine what course of disciplinary action is appropriate. The Director of Student Affairs will report to the Dean for Academic Affairs who can:

- bring the parties together for informal mediation;
- impose any of the disciplinary sanctions listed in the section entitled “Sanctions,” except they cannot require payment of restitution or order expulsion;
- refer the charges to a Student Affairs Committee for a disciplinary hearing;
- dismiss the charges.

DISCIPLINARY HEARINGS

The Director of Student Affairs may institute disciplinary proceedings by referring a matter to a Student Affairs Committee within fourteen (14) school days of notification of the alleged infraction. Once referred to the Student Affairs Committee a hearing must be commenced within twenty-one (21) school days unless a disciplinary hearing date is adjourned for good cause. Once a disciplinary hearing is commenced it must be completed within ten (10) school days.

Sanctions

After a hearing, the Student Affairs Committee may take one or more of the following actions:

1. **Dismiss the Charges**: After reviewing all relevant information, evidence and record materials, the Student Affairs Committee may decide to dismiss the charges against the student.

2. **Impose disciplinary sanctions**, which include but are not limited to the following:
a. **Warning:** A written reprimand putting the student on notice that he/she has violated the Code of Conduct and indicating that further misconduct may result in a more severe disciplinary action. A copy of this warning will be placed in the student's file.

b. **Disciplinary Probation:** A student may be placed on disciplinary probation for a definite period of time. While on probation, students may not hold office in Student Government Organizations, Clubs or Societies or represent the college in any capacity. Further violations while on probationary status will result in suspension or expulsion from the college. A copy of the probation notice becomes a part of the student’s file.

c. **Counseling and Treatment:** A student’s continued enrollment at Touro College may be conditioned on his/her participation in counseling or treatment at outside counseling and treatment agencies. A student's failure to participate in such a program after being advised that his/her enrollment is conditioned on participation may result in other disciplinary sanctions.

d. **Restitution:** A student may be required to pay restitution to the college or to fellow students for damages and losses resulting from his/her action.

e. **Suspension:** A student may be suspended and may be barred from attending classes for a definite period, not to exceed two years. Notification of the suspension will appear on the student’s academic transcript and will remain until the end of the suspension period. A notification of the suspension will remain in the student’s file. A student may not be automatically re-enrolled at the end of his/her suspension and he/she must apply to the Student Affairs Committee for reenrollment.

f. **Expulsion:** This is termination of the student’s enrolled status at the college. A student who has been expelled from the college is not permitted to complete his/her courses and may not re-register for a future semester. Notification of the expulsion will appear on the student’s academic transcript.

3. **Impose Additional Sanctions:** The Student Affairs Committee may impose the following sanctions in addition to those listed above:
   
a. A **fine** of to be paid to the college, in addition to restitution.

   b. **Service to the College Community** for a designated number of hours. The required service cannot interfere with the individual’s course schedule.

4. **Legal Action:** In addition to imposing the disciplinary sanctions outlined above, the Student Affairs Committee may recommend that students be turned over to law enforcement authorities for legal action. The final decision on referring student cases to the authorities is made by the Office of the President.

5. **Other Sanctions:** The Student Affairs Committee may impose other sanctions that it deems appropriate and fair.
Any disciplinary action taken by the Academic Dean for a violation of the Code of Conduct may be appealed by filing a written appeal with the Student Affairs Committee within ten (10) school days. The Student Affairs Committee will set a date for a hearing within fourteen (14) school days of receipt of the student's written appeal. The Student Affairs Committee may overturn the decision of the Academic Dean only if it was clearly erroneous, arbitrary or capricious. The burden of proof is on the student to demonstrate that the decision of the Academic Dean was clearly erroneous, arbitrary or capricious.

The Student Affairs Committee will respond to the appealing individual, in writing, within thirty (30) school days of receipt of the written appeal.

In cases in which the disciplinary sanction was initially imposed by the Student Affairs Committee, the student may file a written appeal with the Academic Dean within ten (10) school days of the committee’s decision. The Academic Dean shall appoint a Special Appeals Panel consisting of three full-time faculty members, a student not in the class of the appeal student and a Student Affairs staffer, to hear the student’s appeal. This hearing must be scheduled within fourteen (14) school days of the receipt of the student’s written appeal. The Special Appeals Panel may overturn the decision of the Student Affairs Committee only if it determines that the committee’s action was clearly erroneous, arbitrary or capricious.

**Protocols for Disciplinary Hearings**

Hearings conducted by committees designated as representatives of the Academic Dean, the Student Affairs Committee, and the Special Appeals Panel will be governed by the following protocols:

a. All hearings are closed to the public.

b. A quorum of the committee membership, defined as 51% of the total membership, must be present, either in-person or via video-conferencing.

c. Students are prohibited from having attorneys present or representing them at any hearings.

d. Students have the right to bring witnesses on their behalf, to present any evidence they deem relevant, to make opening and closing statements and to ask questions during the proceedings.

e. The preponderance-of-evidence rule will govern the decision-making process.

f. Decision will be made by a majority of participating members.

g. The committee deliberations will be on camera.
TOURO COLLEGE AND UNIVERSITY SYSTEM ACADEMIC INTEGRITY POLICY

Academic integrity is essential in any educational endeavor and it is expected at all times from both students and faculty. By accepting admission to dental school, a student commits to the ideals and ethics in conduct of the profession of dentistry. Among other things, these include a commitment to put the interests of patients before one’s own interests. Honesty and integrity in all interactions with colleagues and teachers, as well as with patients and their families, are additional essential professional attributes.

Below is a description of the Academic Integrity Policy. For the complete policy, please visit: http://www.touro.edu/students/policies/academic-integrity/

STATEMENT ON ACADEMIC INTEGRITY

The Touro College and University System is a community of scholars and learners committed to maintaining the highest standards of personal integrity in all aspects of our professional and academic lives. Because intellectual integrity is a hallmark of scholarly and scientific inquiry as well as a core value of the Jewish tradition, students and faculty are expected to share a mutual respect for teaching, learning and the development of knowledge. They are expected to adhere to the highest standards of honesty, fairness, professional conduct of academic work and respect for all community members.

Academic dishonesty undermines our shared intellectual culture and our ability to trust one another. Faculty and administration bear a major responsibility for promoting a climate of integrity, both in the clarity with which they state their expectations and in the vigilance with which they monitor students. Students must avoid all acts of dishonesty, including, but not limited to, cheating on examinations, fabricating, tampering, lying and plagiarizing, as well as facilitating or tolerating the dishonesty of others. Academic dishonesty lowers scholastic quality and defrauds those who will eventually depend on the knowledge and integrity of our graduates.

The Touro College and University System views violations of academic integrity with the utmost gravity. Such violations will lead to appropriate sanctions, up to and including expulsion from the college community. We commit ourselves to the shared vision of academic excellence that can only flourish in a climate of integrity.

The Touro College and University System’s policy on academic integrity, which is outlined in this document, is designed to guide students as they prepare assignments, take exams, and perform the work necessary to complete their degree requirements, and to provide a framework for faculty in fostering an intellectual environment based on the principles of academic integrity. It is presented here in order to educate the faculty on the enforcement of the policy.

The International Center for Academic Integrity (ICAI), of which the Touro College and University System is a member, identifies five fundamental values of academic integrity that must
be present if the academic life of an institution is to flourish: Honesty, Trust, Fairness, Respect, and Responsibility. To sustain these values, the TCUS Academic Integrity Policy requires that a student or researcher: ¹

- Properly acknowledge and cite all ideas, results, or words originally produced by others;
- Properly acknowledge all contributors to any piece of work;
- Obtain all data or results using ethical means;
- Report researched data without concealing any results inconsistent with student’s conclusions;
- Treat fellow students in an ethical manner, respecting the integrity of others and the right to pursue educational goals without interference. Students may neither facilitate another student’s academic dishonesty, nor obstruct another student’s academic progress;
- Uphold ethical principles and the code of the profession for which the student is preparing.

Adherence to these principles is necessary to ensure that:

- Proper credit is given for ideas, words, results, and other scholarly accomplishment;
- No student has an inappropriate advantage over others;
- The academic and ethical development of students is fostered;
- The Touro College and University System is able to maintain its reputation for integrity in teaching, research, and scholarship.

Failure to uphold the principles of academic integrity threatens not only the reputation of Touro, but also the value of each and every degree awarded by the institution. All members of the Touro community bear a shared responsibility for ensuring that the highest standards of academic integrity are upheld.

The Touro College and University System administration is responsible for working with faculty and students to promote an institutional culture of academic integrity, for providing effective educational programs that create a commitment to academic integrity, and for establishing fair procedures to deal with allegations of violations of academic integrity.

**VIOLATIONS OF ACADEMIC INTEGRITY**

The following are considered to be violations of academic integrity and are prohibited by the Touro College and University System. Students, faculty, and other members of the Touro College and University System community who commit one of the offenses listed below, or similar such offenses, or those who assist in the commission of such offenses, may be subject to sanctions (i.e. classed as A, B, or C, as described below in the section “Procedures in Response to Violations of Academic Integrity”).

¹ NOTE: The TCUS Academic Integrity Policy is modeled after that of Rutgers University
PLAGIARISM

Plagiarism is defined as the unauthorized use of the writings, ideas and/or computer-generated material of others without appropriate acknowledgement and the representation of them as one’s own original work. Plagiarism encompasses acts of inadvertent failure to acknowledge sources, as well as improper attribution due to poor citation.

When using ideas/words from other sources, the student must clearly define the sources using standard methods of citation. Plagiarism can occur even when one does not use the exact words of another author. Paraphrasing written material by changing or rearranging words without the proper attribution is still considered plagiarism (even if it eludes identification by plagiarism detection software). It is therefore critically important that students understand how to cite. If students have any questions about the proper use and citation of material from other sources, they should seek help from their professors.

INTENTIONAL PLAGIARISM

Plagiarism takes many forms. **Flagrant forms**, or **intentional plagiarism**, include, but are not limited to: purchasing a paper; commissioning another to draft a paper on one’s behalf; intentionally copying a paper regardless of the source and whether or not that paper has been published; copying or cutting and pasting portions of others’ work (whether a unique phrase, sentence, paragraph, chart, picture, figure, method or approach, experimental results, statistics, etc.) without attribution; and in the case of clinical documentation, copying clinical notes/materials without personally performing the patient examination. Plagiarized sources may include, but are not limited to, print material, computer programs, CD-ROM video/audio sources, emails and material from social media sites and blogs, as well as assignments completed by other students at Touro College and University System and elsewhere. A more subtle, but equally flagrant, form is paraphrasing or attempting to put in one’s own words the theories, opinions or ideas of another without proper citation.

Additionally, students may not reuse their own previous work without appropriate citation. This is a form of plagiarism called self-plagiarism and may mislead the reader or grader into the erroneous belief that the current submission is new work to satisfy an assignment.

If students are unsure as to whether a fact or idea is common knowledge, they should consult their instructor or librarian, or else provide appropriate citations.

*Unintentional Plagiarism*

Plagiarism is not only the failure to cite, but the failure to cite sources properly. If a source is cited but in an inadequate way, the student may still be guilty of unintentional plagiarism. It is therefore crucial that students understand the correct way to cite. The rules are relatively simple:
For exact words, use quotation marks or a block indentation, with the citation.
For a summary or paraphrase, indicate exactly where the source begins and exactly where it ends.

In its policies and disciplinary procedures, the Touro College and University System will seek to recognize and differentiate between intentional plagiarism, as defined above, and failure to cite sources properly (unintentional plagiarism). While both forms are violations of the Academic Integrity Policy, a student’s first instance of unintentional plagiarism may only be penalized with a Class C sanction (see sanctions below).

CHEATING ON EXAMINATIONS AND OTHER CLASS/FIELDWORK ASSIGNMENTS

Cheating is defined as improperly obtaining and/or using unauthorized information or materials to gain an advantage on work submitted for evaluation. Providing or receiving assistance unauthorized by the instructor is also considered cheating.

Examples of cheating include, but are not limited to:

- Giving or receiving unauthorized assistance to or from another person on quizzes, examinations, or assignments;
- Using materials or devices not specifically authorized during any form of a test or examination;
- Exceeding the restrictions put in place for “take home” examinations, such as unauthorized use of library sources, intranet or Internet sources, or unauthorized collaboration on answers;
- Sitting in for someone else or permitting someone to sit in for a student on any form of test or examination;
- Working on any form of test or examination beyond the allotted time;
- Hiding, stealing or destroying materials needed by other students;
- Altering and resubmitting for re-grading any assignment, test or examination without the express written consent of the instructor;
- Copying from another individual’s examination or providing information to another student during an examination;
- Soliciting, obtaining, possessing or providing to another person an examination prior to the administration of the examination.
Examples of unauthorized assistance include:

- Giving or receiving assistance or information in any manner, including person-to-person, notes, text messages, or e-mails, during an examination or in the preparation of other assignments without the authorization of the instructor;
- Using crib sheets or unauthorized notes (unless the instructor provides explicit permission);
- Copying from another individual’s exam.

Failure to comply with any and all Touro College and University System test procedures will be considered a violation of the Academic Integrity Policy.

**RESEARCH MISCONDUCT AND OTHER UNETHICAL CONDUCT**

The integrity of the scientific enterprise requires adherence to the highest ethical standards in the conduct of research and research training. Therefore, students and other trainees conducting research are bound by the same ethical guidelines that apply to faculty investigators, based on the Public Health Service regulations dated May 17, 2005. Research misconduct is defined in the USPHS Policy as “fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results.”

These terms are defined as follows:

a. fabrication - making up data or results and recording or reporting them;
b. falsification - manipulating research materials, equipment or processes, or changing or omitting data or results such that the research is not accurately represented in the research record;
c. plagiarism - the appropriation of another person’s ideas, processes, results, or words without giving appropriate credit. Research misconduct does not include honest error or honest differences of opinion.

**Misleading or Fraudulent Behavior**

Misleading or fraudulent behavior, put simply, is lying, and includes acts contributing to or associated with lying. It takes on any form of fabrication, falsification or misrepresentation. Examples include, but are not limited to:

- Reporting false information to gain an advantage;
- Omitting information or data resulting in misrepresenting or distorting findings or conclusions;
• Providing false information to explain lateness or to be excused from an assignment, class or clerkship function;
• Falsey accusing another of misbehavior, or otherwise misrepresenting information about another;
• Providing false information about oneself, such as on an application or as part of some competition;
• Taking credit for accomplishments achieved by another;
• Omitting relevant information about oneself.

**Tampering**

Tampering is the unauthorized removal or alteration of College documents (e.g., library books, reference materials, official institutional forms, correspondence), software, equipment, or other academic-related materials, including other students’ work. It should be noted that tampering as a form of cheating may also be classified as criminal activity and may be subject to criminal prosecution.

Examples include, but are not limited to:

• Tearing out the pages of an article from a library journal;
• Intentionally sabotaging another student’s work;
• Altering a student’s academic transcript, letter of recommendation, or some other official college document;
• Electronically changing another student’s or colleague’s files, data, assignments, or reports.

**Copyright Violations**

Academic integrity prohibits the making of unauthorized copies of copyrighted material, including software and any other non-print media. Individuals, under the legal doctrine of “fair use,” may make a copy of an article or copy small sections of a book for personal use, or may use an image to help teach a concept. Examples of copyright violations include:

• Making or distributing copies of a copyrighted article for a group (on paper or electronically)
• Disseminating an image or video of an artist’s work without permission (such as a Netter® or Adam® anatomical drawing)
• Copying large sections of a book
The “fair use doctrine” regarding use of copyrighted materials can be found at the following link: [http://www.copyright.gov/fls/fl102.html](http://www.copyright.gov/fls/fl102.html)
SANCTIONS

The following sanctions may be imposed for violation of this Policy.Sanctions of one class may be accompanied by sanctions of a lesser or greater class. Except in the case of a student’s expulsion or dismissal, any student found to have violated this Policy is required to take additional ethics tutorials intended to assist student to avoid future misconduct.

Class A Sanctions:
- Expulsion/dismissal
- Revocation of awarded degree in the event that the violation is identified after graduation

Class B Sanctions:
- Suspension (up to twenty-four months)
- Indication of the violation in a letter of reprimand, in reference letters, licensure and regulatory forms, etc.
- Notification of the violation to the other schools within the Touro College and University System
- Indication of ‘disciplinary action for academic integrity violation’ on the permanent transcript

Class C Sanctions:
- Placement on Academic Probation
- Failure in the course, with consequences as determined by the individual program’s rules and regulations
- Reduction of the grade for a particular submitted piece of work, segment of work required for a course/clerkship, or the entire course/clerkship with or without the option of redoing the work or the course/clerkship
- Requiring the student to redo the assignment

Repeat offenders may be subject to more stringent sanctions.

PROCEDURES IN RESPONSE TO VIOLATIONS OF ACADEMIC INTEGRITY

This Touro College and University System Academic Integrity Policy applies to all Touro students. Any act in violation of this Policy or any allegation of misconduct related to this Policy involving a student must be reported and addressed in accordance with the adjudication procedures outlined below or those of the student’s school, which may not be less stringent than the requirements and standards set forth in this Policy Statement.

The Dean of each school shall designate a member of the administration as Chief Academic Integrity Officer (herein referred to as the “CAI Officer”) to oversee the adjudication of violations and to maintain appropriate documentation. The CAI Officer must be an assistant dean or higher, or another appropriate responsible individual approved by the Provost or Vice President. The
Provost shall designate a Dean responsible for hearing formal resolution appeals (herein referred to as the “Appeals Dean”). The CAI Officer and the Appeals Dean cannot be the same individual.

REPORTING A CASE OF SUSPECTED PLAGIARISM OR CHEATING

Faculty members, students, or other members of the Touro community who encounter suspected academic integrity violations should contact the CAI Officer. The CAI Officer will consult with the faculty member, and if a violation is identified the faculty member will inform the student. The faculty will also report all violations in writing (using the Academic Integrity Violation Reporting Form) to the CAI Officer. No permanent grade may be entered onto the student’s record for the course in question before the issue is resolved.

If an instructor strongly suspects cheating during an exam, the instructor should stop the student’s exam and collect all evidence of cheating. The incident should be immediately reported by the faculty member in writing to the CAI Officer, who will investigate.

RESOLUTION OF ACADEMIC INTEGRITY VIOLATIONS

Incidents of academic integrity violations are reported to the CAI Officer, and a report by the faculty member is submitted to the CAI Officer. The method of resolution of the violation may be either informal or formal. Students who are found to have violated the Touro College and University System’s Standards of Academic Integrity are subject to the sanctions listed above.

Should a student action be of such a serious nature that it is felt that he/she may be considered a danger in a clinical setting, the CAI Officer may remove such a student from a clinical assignment, not to exceed fourteen (14) days pending the outcome of a formal resolution. A student shall not be removed from a didactic course while an allegation of an academic integrity violation is ongoing.

INFORMAL RESOLUTION

After consulting with the CAI Officer (as per “Reporting a Case of Suspected Plagiarism or Cheating”), the faculty member may attempt to resolve the issue informally with the student. Once an informal resolution is agreed to between the faculty member and the student, the faculty member must present such resolution and the sanctions imposed to the CAI Officer for approval. The faculty member, in consultation with the CAI Officer, may impose any range of Class C sanctions, but must include requiring the student to take additional ethics tutorials intended to assist that student avoid future misconduct. Once accepted by the student, the informal resolution is binding on both the student and faculty member, and cannot be appealed by the student.
The outcome of the informal resolution should be reported in writing by the faculty member to the CAI Officer, who will maintain the record for the duration of the student’s academic career. The informal resolution process is not available to individuals who have been previously reported.

**FORMAL RESOLUTION**

In the event that (1) the student denies the charge, (2) the student and faculty member do not agree to informal resolution, (3) the student has been accused and found guilty before, or (4) for any other reason for which informal resolution is not appropriate as determined by the CAI Officer, then the matter shall be submitted for formal resolution.

The Touro College and University System has developed the following formal method of resolution to deal with academic integrity allegations and complaints.

To institute formal resolution, the following procedures shall be followed:

- The Chief Academic Integrity Officer receives a written statement from the instructor or any other complainant, as the case may be.
- The written statement must include the name of the involved student, the name and status of the reporting person, and the nature of the alleged act.
- The CAI Officer shall arrange a hearing which, generally speaking, should take place no earlier than five (5) calendar days and no later than twenty (20) calendar days after receipt of the complaint.
- The hearing shall take place before the Standing Committee on Academic Integrity of the School.
- All persons involved in a hearing shall be given adequate notice of all hearing dates, times and places. Such notice, which will be sent both by e-mail and mail, will be given at least two business days prior to any hearing, unless waived by the parties involved.
- Postponements of Committee hearings may be made by the interested parties or the administration. The student may be granted a postponement if pertinent information or interested parties cannot, for good cause, be present at the appointed time. Any postponement may not extend beyond a three-month period.
- The reported student and the person who reported the student will be afforded the following opportunities:
  - To review, but not copy, all pertinent information to be presented to the Committee. The length of time for review shall be reasonable, as determined by the Committee Chair.
  - To present fully all aspects of the issue before the Committee.

Committee Hearings will proceed under the following guidelines:

- All Committee hearings and meetings are closed to the public.
• The Committee may hear the student, the faculty member, and any other individual who may be knowledgeable or may have information to share with the Committee regarding the suspected offense. Each person will meet with the Committee on an individual basis.
• The Committee may consider relevant written reports, discussions with involved parties, examinations, papers, or other related documents.
• The Committee must be comprised of a minimum of three people, who must be present either in person or via video-conference.
• All decisions shall be made by majority vote.
• The student has the right to appear in person before the Committee in order to present his/her case, but, after proper notice of a hearing, the Committee may proceed, notwithstanding the student’s absence.
• The hearing is academic in nature and non-adversarial. Student representation by an attorney or other counsel is not permitted.
• Audio recordings of the Hearing are not permitted.
• The chair of the committee shall prepare an executive summary that includes a written record of the charges that were reviewed, evidence that was considered, the decision that was made, and any instructions for follow-up.
• All information supporting the charges made against a student shall be presented first. Following this presentation, the student who has been accused of a violation will present his/her side of this issue, submitting to the Committee information that he/she chooses to submit to support the student’s stance or position. The CAI Officer, his or her designee, or other members of the Administration may also meaningfully participate in this information exchange. Pursuant to the Touro College and University System Code of Conduct, the student is expected not to obstruct the investigation or proceedings.
• The student, his/her accuser, the Committee, and/or Touro College and University System’s representatives may raise questions about the information under review so that all aspects of the case are clarified.

The Committee shall reach a decision using the following guidelines:
• The Committee will meet in closed session to reach a decision, including recommended sanctions, if applicable. Such meeting will generally be held within one school day following the hearing.
• If the Committee seeks additional information following commencement of its deliberations, it will notify the parties within two school days, and reconvene the hearing within five school days of the conclusion of the original hearing. The Committee's final decision must then be made.
• The Committee may impose a range of Class A, B, or C sanctions.
• The Committee’s decision must be based solely on the evidence presented at the hearing and will be the final disposition of the issues involved, including sanctions. The decision of the Committee will be presented in writing to the CAI Officer, the student, and the department Chair. The Committee’s letter will contain the following elements: Charge; Hearing Date; Findings; List of Sanctions; and the Right to Appeal and to whom.

APPEAL PROCESS

Following a Formal Resolution Hearing and notification of the Committee decision, a student may appeal the decision. An appeal may only be granted on the basis of:

1. evidence of bias of one or more of the members of the Committee;
2. new material documenting information that was not available at the time of the decision;
3. procedural error. The student has three (3) business days within which to submit a formal written appeal of the decision to the Appeals Dean for the School.

The appeal should be accompanied by the Hearing Committee’s letter and by a narrative explaining the basis for the appeal. The narrative should fully explain the student’s situation and substantiate the reason(s) for advocating a reversal or modification of the decision by the Committee. The Appeals Dean may request to meet with the student. After consideration of the Appeal, the Appeals Dean may accept, reject or modify the Committee’s decision, and will notify the student in writing of the decision. The Appeals Dean, when notifying the student of the decision, shall inform the student of his/her right to appeal an adverse decision to the Chief Academic Officer.

A copy of the Appeals Dean’s final decision will be transmitted to the CAI Officer and the department Chair. A student has three (3) business days from receipt of written notification to submit a formal written appeal of the decision to the respective Chief Academic Officer (CAO) (e.g., the Provost or Senior Provost) or his/her designee. The CAO may grant an appeal only on the basis of one of the following:

• Evidence of bias of one or more of the members of the Committee or of the Appeals Dean.
• New material documenting information that was not available to the Committee or the Appeals Dean at the time of the initial decision.
• Procedural error.

The CAO may conduct interviews and review materials, as appropriate. The CAO will notify the student, the CAI Officer, and the Appeals Dean in writing of the appeal decision. The decision of the CAO shall be final.
STATUS OF STUDENT PENDING ACTION

Pending resolution on charges, the status of the student will not be altered except in cases where the student may be considered a danger in a clinical setting. Such a student may be suspended only from the clinical aspect of their program pending the outcome of a formal resolution. If a student is suspended for any reason, all as-yet undisbursed financial aid may be withheld unless or until the action is fully resolved and the student is reinstated. If reinstated, the financial aid funds can be released to the student. If the student is dismissed, the funds will be returned to the proper agency or lender.

RECORDKEEPING

The CAI Officer of each school will maintain records of all violations and resolutions, both informal and formal. On an annual basis, the CAI Officer will submit data on academic integrity violations to the TCUS Academic Integrity Council. Such records shall be kept in accordance with the Record Retention Policy as it relates to student records. A student may see his/her file in accordance with Touro College and University System regulations concerning inspection of records as spelled out in Guidelines for Access to and Disclosure of Educational Records Maintained by the Touro College and University System.

ALTERNATIVE DISPUTE RESOLUTION

Touro College’s Alternative Dispute Resolution (“ADR”) policy was created with the intention of providing a program for the quick, fair and accessible resolution of Disputes (see definition below) between Touro College, and Touro College’s current and former students (as well as applicants) related to or arising out of a current, former or potential academic relationship with Touro College. The policy is intended to provide an exclusive mechanism for the final and binding resolution of all Disputes that cannot otherwise be resolved internally through the academic and disciplinary methods described elsewhere in this Catalog.

A student’s acceptance, registration, enrollment, matriculation and/or petition for graduation and matriculation at Touro College acts as his or her consideration and consent to these terms. Students agree that he or she will pay for their own fees and expenses related to or arising out of the ADR.

All Disputes (as defined below) between Touro College, on the one hand, and any current or former student or applicant on the other, which cannot be resolved internally, shall be submitted to non-binding mediation with a neutral mediator affiliated with an established and reputable organization engaged in alternative dispute resolution (“ADR Organization”). The parties shall select the mediator jointly, or if they cannot agree, the ADR Organization will provide a list of mediators from which one shall be selected pursuant to the ADR Organization’s rules or other procedure mutually agreed upon. If upon completion of mediation all or any part of the Dispute is still unresolved, the remaining Dispute shall be submitted to final and binding arbitration as set forth below.
In accordance with the Federal Arbitration Act and to the extent not inconsistent with the primacy of federal law, all Disputes remaining after completion of the mediation shall be exclusively conducted and heard by an ADR Organization, designated by Touro in its sole and absolute discretion, before a single arbitrator who shall be an attorney. "Dispute" means all legal and equitable claims, demands, and controversies, of whatever nature or kind, whether in contract, tort, under statute or regulation, or some other law or theory; the application, potential enrollment, enrollment, matriculation, continued enrollment and matriculation, and graduation (or denial thereof), suspension, dismissal, expulsion, separation or any other academic, disciplinary or other action or termination of such student by Touro College; any other matter related to or concerning the relationship between the student and Touro College including, by way of example and without limitation, allegations of: discrimination or harassment based on race, religion, national origin, age, veteran status or disability, sex, gender, sexual orientation, retaliation, defamation, infliction of emotional distress, violation of The Americans With Disabilities Act of 1990, Sections 1981 through 1988 of Title 42 of the United States Code, The Immigration Reform and Control Act of 1986, New York State Human Rights Law, New York City Human Rights Law, or any other federal, state or local civil, Family Educational Rights and Privacy Act of 1974 (FERPA), Campus Sex Crimes Prevention Act, Title VI or Title IX of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, as amended, as well as any other law related to students, not-for-profits and higher educational institutions. Disputes do not include collections actions of tuition or other fees payable by the student and owed to Touro College.

**ADR Procedures**

To initiate ADR, the Touro College student or applicant must send a written demand for ADR to the Office of Institutional Compliance (“OIC”). The demand shall set forth a statement of the facts relating to the Dispute, including any alleged act(s) or omission(s) at issue; the names of all person(s) involved in the Dispute; the amount in controversy, if any; and the remedy sought. The demand must be received by the OIC within the time period prescribed by the earlier of Touro College policy or the statute of limitations applicable to the claims(s) alleged in the demand. If a student or applicant fails to file a request for ADR with Touro College and the ADR Organization within the required time frame, the Dispute will be conclusively resolved against the student or applicant without any right to appeal same.

Within thirty (30) days of receiving such demand, or as soon as possible thereafter, if Touro and the student/applicant are unable to resolve the Dispute informally, Touro College shall file the ADR demand with the appropriate office of the ADR Organization. The parties then shall engage in mediation, and to the extent any Dispute remains thereafter; the Dispute will be referred to final and binding arbitration.

The arbitration of any claims by a student or applicant as part of a Dispute shall be limited to his or her individual claims. The student or applicant shall not assert, prosecute, or obtain relief on, and expressly waives, any and all class, collective or representative claims which purport to seek
relief on behalf of other persons. Any judgment upon the award rendered by the arbitrator shall be final and non-appealable, and may be entered in any court of competent jurisdiction.

If any provision of this ADR policy is determined by any arbitrator or court of competent jurisdiction to be invalid or unenforceable, said provision shall be modified to the minimum extent necessary to render it valid and enforceable, or if modification is not possible, the provision shall be severed from the policy, and the remaining provisions shall remain in full force and effect, and shall be liberally construed so as to effectuate the purpose and intent of the policy. This policy prohibits a student or applicant from filing or prosecuting any Dispute through a civil action in court before a judge or jury involving any Dispute.

**FAILURE TO EDUCATE AND LIABILITY DISCLAIMER**

The payment of tuition entitles a student to register and matriculate in the courses and programs available and offered by Touro College. In order for a degree to be earned, passing grades must be achieved and any other prerequisites required by the school and program must be fulfilled. While students expend significant sums associated with higher education, successful completion of a course, program, or degree is dependent on many factors, Touro College makes absolutely no assurances or representations of guaranteed success, merely that it will provide students with the tools needed to accomplish their academic goals.

Touro College’s liability (as well as that of its faculty and staff, and including liability for action by, through or on its behalf by third parties) is limited in all respects, no matter the cause of action or theory of liability, to the amount of tuition actually paid by the student in the one year prior to which the claim is made. No award of incidental, consequential, punitive or lost profits damages may be awarded.

**TOURO POLICY ON BIAS RELATED CRIMES**

Touro is committed to safeguarding the rights of its students, faculty, and staff and to provide an environment free of bias and prejudice. Under New York Law criminal activity motivated by bias and hatred toward another person or group based upon a belief or perception concerning race, color, national origin, ancestry, gender, religion, religious practice, age, disability or sexual orientation is illegal and punishable not only for the underlying crime, but, additionally, as a hate crime pursuant to the New York Penal Law# 485, et, seq. specifically Law # 485.05.

In the tables that list hate crimes, Touro is required to apply federal regulations for the “counting” of hate crimes, which is different from the New York state law as outlined below. The crimes listed can be considered hate crimes under certain conditions:

- Assault (1st, 2nd and 3rd Degree)
- Aggravated Assault on a Person Less than 11 Years Old
- Menacing (1st, 2nd and 3rd Degree)
- Reckless Endangerment (1st and 2nd Degree)
- Manslaughter (2nd Degree)
- Stalking (1st, 2nd, 3rd, and 4th Degree)
- Criminal Sexual Acts (1st Degree)
- Sexual Abuse (1st Degree)
- Aggravated Sexual Abuse (1st and 2nd Degree)
- Unlawful Imprisonment (1st and 2nd Degree)
- Kidnapping (1st and 2nd Degree) Coercion (1st and 2nd Degree)
- Burglary (1st, 2nd and 3rd Degree)
- Criminal Mischief (1st, 2nd, 3rd, and 4th Degree)
- Arson (1st, 2nd, 3rd, and 4th Degree)
- Petty Larceny
- Grand Larceny (1st, 2nd, 3rd, and 4th Degree)
- Robbery (1st, 2nd, and 3rd Degree)
- Harassment (1st Degree)
- Aggravated harassment
- Simple Assault
- Larceny Theft
- Intimidation
- Destruction/damage/vandalism of property

In addition, any attempt or conspiracy to commit any of these crimes is also punishable as a hate crime. A person convicted of a hate crime will be subject to certain sentencing guidelines for felonies that impose a more severe penalty than similar but non-hate crime offense.

A hate crime conviction may also subject the offender to monetary penalties pursuant to the Law of their state. Any incident or attempt to commit a hate crime should be reported to Campus the Security Director, Lydia Perez at 500 7th Avenue, 4th Floor, New York, NY 10018; phone number (646) 565-6134; or by calling 1-88-Touro-911 (1-888-687-6911); or your Campus Security Department in your state.

Reported incidents of hate crimes and attempts to commit hate crimes will be referred to the NYPD and/or other Law Enforcement Agencies for further investigation and legal action. Touro treats all hate crimes as serious offenses that need to be prosecuted with the full force of the legal system.
POLICY ON SEXUAL OFFENSES, BIAS, HARASSMENT AND DISCRIMINATION

This policy applies to all members of the Touro College (“Touro”) community, including students, faculty, and administrators as well as third parties (i.e. vendors, and invitees). Discrimination or harassment of any kind in regard to a person's sex is not tolerated at our institution. Information and/or training regarding this policy is available to students, faculty, and staff.

Touro promotes an environment in which the dignity and worth of all members of the community are respected. It is the policy of Touro that sexual intimidation of students and employees is unacceptable behavior and will not be tolerated.

TITLE IX

Title IX, and its implementing regulations, prohibit discrimination based on sex, including sexual harassment. The prohibition against discrimination extends to employment and third-parties. Sexual harassment is unwelcome conduct of a sexual nature and can include sexual advances, request for sexual favors, and other verbal, non-verbal, or physical conduct. Environmental harassment (sometimes referred to as hostile environment) is sexually harassing conduct that is sufficiently severe, persistent or pervasive to limit an individual’s ability to participate in or receive benefits, services, or opportunities at Touro. This can include persistent comments or jokes about an individual’s, sex; verbal behavior, including insults, remarks, epithets, or derogatory statements; nonverbal behavior, including graffiti, inappropriate physical advances short of physical violence such as repeated and unwanted touching; and assault, including physical violence or the threat of physical violence.

New York Law also defines these acts as crimes if any of them are engaged in with a person who is incapable of consent either because of the person's age or because the person is mentally defective, mentally incapacitated, or physically helpless. Therefore, sexual abuse, sodomy, and rape are sex crimes and violators will be prosecuted in accordance with New York Penal Law.

Retaliation against any individual who made a complaint will not be tolerated.

To officially file charges for an act of sexual assault or rape, please contact Title IX Coordinator. If the alleged perpetrator is a student, you can initiate disciplinary action against this individual. All incidents must be reported within six (6) months of their occurrence.

All divisions of Touro seek to foster a collegial atmosphere in which students are nurtured and educated through close faculty-student relationships, student camaraderie, and individualized attention. Discrimination or harassment of any kind is anathema to Touro’s mission, history, and identity. Touro will resolve any identified discrimination in a timely and effective manner, and will ensure that it does not recur. Compliance with Touro’s policies and procedures is a necessary
step in achieving a safe environment in our educational community. The policies set forth were
developed to promote a safe educational environment in compliance with the Violence Against
Women Act (VAWA) and a high-quality campus life.

Those believing that they have been harassed or discriminated against on the basis of their sex,
including sexual harassment, should contact the Title IX coordinator immediately. When Touro
has notice of the occurrence, Touro is compelled to take immediate and effective corrective action
reasonably calculated to stop the harassment, prevent its recurrence, and as appropriate, remedy
its effects.

This policy applies to all members of Touro, including students, faculty, and administrators as well
as third parties (including, but not limited to, vendors, invitees, etc.). Information and/or training
regarding this policy are available to students, faculty, and staff. In addition, information about
this policy will be available on Touro’s website.

**TITLE IX COORDINATOR**

The Title IX Coordinator or his/her designee (“Title IX Coordinator”) is trained and
knowledgeable about enforcement, compliance, communication, and implementation of Touro’s
anti-harassment and anti- discrimination policy.

Complaints may be filed by contacting the Title IX Coordinator:

Matthew Lieberman
Title IX Coordinator
Touro College
500 7th Avenue, 4th floor
New York, NY 10018
646-565-6000, ext. 55667
matthew.lieberman@touro.edu or alternatively the Chief Compliance officer at
compliance@touro.edu

For Further Information: Students are strongly urged to read the full policy at
https://touro.app.box.com/v/titleixpolicy

Students are also urged to read the Annual Security and Fire Report at

Additional information about this policy will be available on Touro’s website. Students may
contact the Office for Civil Rights of the U.S. Department of Education for inquiries concerning
the application of Title IX as well as the implementation of its regulations. The Office for Civil Rights can be contacted using the following information:

U.S. Department of Education
Office for Civil Rights
32 Old Slip, 26th Floor
New York, New York 10005
Phone (646) 428-3800
Fax (646) 428-3843
email: OCR.NewYork@ed.gov

**STUDENT GRIEVANCES**

Touro is committed to safeguarding the interests of all students. Students are entitled to be treated with fairness and respect in accordance with Touro’s policies and procedures. Touro does not condone unfair treatment of students by administration, faculty and/or staff. Students who believe that they have been aggrieved by the College, and that such occurrence is not governed by another complaint mechanism, may seek redress through the complaint procedure outlined below. No adverse action will be taken against any person who files a complaint because of the filing of such complaint.

This student complaint procedure is available to Touro student who seeks to resolve a legitimate grievance directly affecting that student, provided that such circumstance is not governed by another complaint mechanism (see Exception to Policy below). The procedure only applies to complaints that are the result of actions by another member of the College community while acting in an official capacity (e.g. faculty member, administrator, or staff) in contravention of the written policies of Touro.

If any student believes that his or her rights have been violated or infringed upon, or that Touro’s policies and procedures have not been followed, that student may file a formal complaint in accordance with the guidelines below.

When a complaint concerns an administrative function of Touro, including, but not limited to, tuition refund and student financial assistance, a student may file a formal complaint with the College-wide director or supervisor of the administrative unit in question, or their designee. Prior to filing the formal complaint, the student should attempt to remedy the situation via an informal mediation. If the informal mediation is unsuccessful, or if the student is uncomfortable attempting an informal resolution, then a formal complaint may be filed. The complaint should state, with particularity: the person(s) involved, the nature of the claim, the date, witnesses (if any), documents (if any), and the circumstances under which the alleged claim may have been committed.
**Limitation Period**

Claims under this policy may only be brought within sixty (60) calendar days of the alleged misconduct.

**Exception to Policy**

This Policy is not applicable to situations that are governed by other policies. For example, complaints of sexual harassment are governed by Title IX; Touro currently has a robust policy and procedure for dealing with such allegations. Therefore, all such incidents are considered under that anti-harassment policy/process. Other examples of exceptions to the Grievance Policy include, but are not limited to, discrimination, Code of Conduct violations, and ADA Reasonable Accommodations requests and complaints.

**COMMISSION ON DENTAL ACCREDITATION COMPLIANCE**

The Commission on Dental Accreditation will review complaints that relate to a program’s compliance with the accreditation standards. The Commission is interested in the sustained quality and continued improvement of dental and dental-related education programs but does not intervene on behalf of individuals or act as a court of appeal for treatment received by patients or individuals in matters of admissions, appointment, promotion or dismissal of faculty, staff or students.

A copy of the appropriate accreditation standards and/or the Commission’s policy and procedure for submission of complaints may be obtained by contacting the Commission at 211 East Chicago Avenue, Chicago, IL 60611-2678 or by calling 1-800-621-8099 extension 4653.

**NYMC SECURITY DEPARTMENT**

Since TCDM is on the NYMC campus, the NYMC Security Department is responsible for campus security, emergency response, investigations, crime prevention campus shuttle, and management of the parking permit, and identification badge program. The security staff is not armed and does not have police or peace officer arrest powers. Officers are assigned to both fixed and motor patrols. Primary law enforcement jurisdiction for student housing lies with the Mt. Pleasant Police Department. The rest of the campus is under the jurisdiction of the Westchester County Department of Public Safety. The security director works closely with both of these police agencies on matters affecting the campus, including criminal investigations, crime prevention, and emergency response.

It is the policy of the university to promote the safety and security of the academic community on campus; to prevent any criminal or illicit activities including sexual assault or other sex offenses; to report any alleged criminal conduct to the appropriate enforcement authorities and to discipline any student, faculty member, or employee after the university has conducted its investigation of the alleged conduct. Discipline may include suspension, expulsion, dismissal, or termination of employment.
Mr. William Allison is the Director of Security and he can be reached at (914) 594-4577. The Security Office is located in the Basic Sciences Building on the Valhalla campus. The telephone is (914) 594-4226.

**Annual Security and Fire Safety Report ("Clery Act")**

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, or Clery Act, mandates that all Title IV educational institutions, without exception, prepare, publish, and distribute an Annual Security and Fire Safety Report. This report consists of two basic parts: disclosure of the College's crime statistics for the past three years; and information about the College's current campus security policies. Prospective students and employees are entitled to request and receive a copy of the New York Medical College’s Annual Security and Fire Safety Report which is available by clicking here.

Paper copies of the College’s Annual Security and Fire Safety Report are available at the New York Medical College Security Office located in room 223 in the Basic Sciences Building, 15 Dana Rd. Valhalla NY 10595 or by calling the Director of Campus Security at (914) 594-4577.

**TOURO COLLEGE CAMPUS SECURITY POLICIES**

Safety and security are concerns commonly shared by the students, faculty and staff employees of Touro College. The College is committed to keeping its campus locations, centers and sites secure.

**Access to the Campus**

Students must show a valid identification card to enter Touro College Facilities. Visitors must receive a temporary pass from guards on duty to enter Touro facilities.

**Security Services**

Touro College has contracted with professional security guard services to maintain and monitor security at its campuses and sites. Selected locations have armed Security Officers. Security Personnel are carefully screened before being assigned to Touro College, and supervised to ensure quality assurance. Security staff are supervised by means of their agency supervisor, and as well as the Campus Security Director.

Security personnel respond to emergency calls for service, enforce regulations, and assist in security building inspections and fire prevention. Electronic means, such as closed-circuit television, are also used to monitor activities at many College centers.

The Security Officers may detain individuals who engage in illegal and criminal actions until your local Law Enforcement agency arrives. They are empowered to enforce Touro’s regulations, to investigate incidents, and to apprehend those who violate Touro regulations or commit crimes on campus. Criminal violators that are apprehended are turned over to the police. The security staff are not armed and do not have police or peace officer arrest powers.
Our Security Director meets regularly with Police Commanders to help ensure the safest environment for our campus community.

**Reporting Criminal Incidents & Other Emergencies**

All students, employees, and guests should promptly report criminal incidents, accidents, and other emergencies to the Department of Campus Security by dialing 1-88-Touro911 (1-888-687-6911). This service allows you to speak to a live operator, twenty-four hours a day, seven days a week, to report any incidents or occurrences. The service refers all calls to the appropriate agencies (i.e. fire, police, etc.) for assistance, as well as to the appropriate College authorities. Additionally, you may report any incidents to any Security Officer at your site, the Campus Security Director, and/or Operations. If you are located in student housing, you can also report any incident to the appropriate staff at your facility. The Campus Security Administrative office is located at 500 Seventh Avenue, 4th Floor, and can be reached at (646) 565-6134 or via email at security@touro.edu.

If assistance is required in completing or reporting an incident/occurrence to local Law Enforcement agencies, we at Touro Campus Security will be glad to render any assistance needed.

Annual statistics on the incidence of crime at Touro College campuses and sites are published in the Touro College Campus Security Handbook.

Students are urged to read the Annual Security and Fire Report at [https://www.touro.edu/departments/campus-security/clery-reports/2018ASR.pdf](https://www.touro.edu/departments/campus-security/clery-reports/2018ASR.pdf)

**POLICY ON DRUGS AND CONTROLLED SUBSTANCES**

The United States Department of Education has issued regulations implementing the provisions of The Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226). In compliance with Federal law and New York State law, this policy includes information to ensure that all members of the Touro Community are aware of the dangers of substance abuse and to outline the sanctions for violating this policy.

Students, faculty, and staff who distribute or use illegal drugs or illicitly use drugs which would otherwise be legal, including alcohol, while on Touro campuses, locations and facilities, or as part of any Touro activities, are violating Federal laws, New York State laws, and the policies and procedures of Touro. Violations of federal and state laws may lead to prosecution and criminal sanctions, including, but not limited to, fines and/or imprisonment.

Touro is committed to educating and informing students, faculty and staff about the dangers and effects of substance abuse. Touro recognizes that drug addiction and alcoholism are illnesses that may not be easily resolved and may require professional assistance and treatment.

Touro may provide confidential counseling and referral services to students, faculty, and staff with drug and/or alcohol problems. These services are available through the Office of the Dean of...
Students, the Vice President of the Division of Graduate Studies, and/or Human Resources. All inquiries and requests for assistance will be handled with confidentiality.

Touro College also has a Biennial Review that is used to document the progress made by Touro and also provide insight into how Touro’s Alcohol and Drug policy and programs could be improved.

Touro seeks to safeguard the health and well-being of all members of Touro students, faculty, and staff. All members of Touro are accountable to know the law and to understand the policies and procedures of Touro.

In order to better educate students, faculty, and staff, Touro wishes to provide all members of Touro with an education of the effects of substance abuse. The mind-altering substances to be discussed here are: marijuana, cocaine, heroin (and their derivatives); amphetamines (uppers); barbiturates (downers); hallucinogens; and alcohol. Many individuals take such drugs to escape from their problems; but doing so only creates more problems.

STUDENT RESPONSIBILITIES AND RIGHTS

CAMPUS CITIZENSHIP

Students of Touro College are expected to be considerate of all individuals at the College – fellow students, faculty, staff and administrators – and to help maintain a harmonious and supportive environment conducive to learning and the furtherance of academic pursuits. While specific regulations are listed on the following pages, it is expected that all members of the college community demonstrate respect for their colleagues, sensitivity to their needs, and tolerance for their ideas and views. Please cooperate with college officials by observing the rules and regulations of the college, and by exercising respect for college values and property.

STANDARDS OF CLASSROOM BEHAVIOR

The faculty has primary responsibility for managing the classroom. Students who create a disruption in the classroom may be directed by the instructor to leave the class for the remainder of the class period. Behaviors defined as disruptive include persistently speaking without being recognized, using a cell phone in the class, eating in the classroom, interfering with the class by entering and leaving the room without authorization, carrying on private conversations, and refusing to follow the directions of the course instructor. To ensure a clean and healthy environment for all students at the college, eating drinking and smoking are not permitted in any classroom, laboratory, or auditorium.
Students are strictly forbidden to bring pets or other animals into any facilities of the college, unless they have obtained specific authorization in advance from the dean of their division/school. Additionally, please see Touro’s Policy on Weapons in the 2018 Annual Security and Fire Safety Report, https://www.touro.edu/departments/campus-security/clery-reports/2018ASR.pdf

**POLICY ON FILMING, VIDEOTAPE, PHOTOGRAPHY, AND VISUAL OR AUDIO RECORDINGS**

It is the policy of TCDM to require advance written permission from Touro College’s Communications Department and/or New York Medical College’s Office of Public Relations (hereinafter collectively referred to as “Appropriate Office”) prior to the taking, publication or dissemination of any photograph, film, videotape or recording of Touro buildings, facilities, property, student, faculty or employee. No commercial filming, videotaping, photography or visual or audio recording is permitted without the express written permission of the appropriate office. Permission for still photography (film or digital) will be granted only for the personal use of students, parents, alumni, faculty, staff and trustees of Touro. Photography, videotaping or recording authorized by Touro which is intended for public affairs purposes will be coordinated with the appropriate office and in accordance with Touro policies. Similar photography, videotaping or other recording which is intended for educational purposes will be coordinated by the Office of Academic Affairs for TCDM or the appropriate Dean for the other schools, in consultation with the appropriate office.

It is also the policy of Touro to prohibit the taking, publication or dissemination of any photograph, film, videotape, digital image or other visual or audio recording of any cadaver donated or otherwise provided to or by the College. These human remains are to be treated with respect for their humanity and gratitude for their contribution to the advancement of medical education; to act otherwise serves no educational or scientific purpose.

Furthermore, it is the policy of Touro to prohibit the taking, publication or dissemination or other use of any photography, videotape, digital imaging or other visual or audio recording of any patient without the prior written consent of such patient. This protects the privacy of patients and is consistent with the Health Insurance Portability and Accountability Act ("HIPAA") standards and codes.

This policy applies to all faculty, staff, employees, students, student organizations, residents in a College-sponsored or directed graduate medical education program, interns, volunteers and authorized visitors. This policy applies to any device or format including the use of cameras, cellphones, smartphones or other visual or audio recording devices.

**ACCEPTABLE USE POLICY FOR INFORMATION TECHNOLOGY**

The Acceptable Use Policy provides for users of the institutional technology resources, facilities, and/or equipment to act responsibly, to abide by Touro’s policies, and to respect the rights and
privileges of other users. Each user of Touro technology resources is responsible for adhering to all legal and ethical requirements in accordance with the policies of Touro and applicable law.

All users of Touro technology resource users must submit, upon commencement of their relationship with Touro, or at another appropriate time, acknowledgement of the Acceptable Use Policy (AUP). In submitting the AUP Acknowledgement Form, each individual will be certifying that he/she has read and will comply with the AUP.

Students are urged to read the complete policy, which can be seen at toouro.app.box.com/v/AcceptableUsePolicy.

INTERNET SERVICES AND USER-GENERATED CONTENT POLICY

As an educational institution, we recognize that these Internet-based services can support your academic and professional endeavors, but we are also aware that, if not used properly, they can be damaging. In both professional and institutional roles, students, faculty and staff should follow the same behavioral standards online as they should offline, and are responsible for anything they post to a social media site regardless of whether the site is private (such as a portal open to the Touro community only) or public. The same laws, professional expectations, and guidelines for interacting with students, parents, alumni, donors, media and other college agents apply online as apply offline.

Students are urged to read the entire policy at toouro.app.box.com/v/InternetService-UserGenContent.

DRESS CODE

1. Students must maintain a professional appearance at all times while on campus in order to convey a positive image to faculty, other students, patients, and the public. Therefore, attire should be clean, pressed and appropriately fitted. personal hygiene should be maintained whenever the student is on College grounds, in a clinical setting, or attending any college related program.

2. The TCDM identification badge must be worn and made clearly visible at all times while on campus. ID cards are issued at new student orientation sessions and replacements for lost ID’s may be obtained from the NYMC Campus Security Office.

3. On-campus, the mode of dress is determined by each student’s professional judgment and the setting which they are in. Clothing having caricatures, messages, or symbols that can be construed based on societal norms to be vulgar, offensive, or contribute to creating a hostile learning environment is always unacceptable and will always be considered unprofessional in any setting. Attire in any setting that demonstrates inappropriate professional judgement is subject to review and possible action by the Office of Student Affairs.
4. Clinical dress (scrubs and closed shoes) is required at all times while in any clinical setting, including the simulation laboratory. TCMD branded scrubs are the official uniform of students, faculty and staff in all clinical settings. Therefore, only authorized scrubs may be worn, including the approved brands, styles and colors designated by the Office of Student Affairs. Non-conforming scrubs are considered to be unacceptable attire, and will be subject to review and action by the Office of Student Affairs.

5. Casual business attire may be worn in the classroom setting on non-clinical lab days. However, students are reminded that attire should be appropriate for a professional setting.

6. Students inappropriately dressed or groomed may be asked to address these concerns. Failure or inability to do so immediately may require them to leave the campus. Questionable or disputed cases of dress or grooming shall be presented to the Office of Student Affairs for discipline and/or censure. Its decision shall be final and non-appealable.

**ANTI-HAZING POLICY**

No student or group of students shall encourage or participate in any form of hazing. Hazing is defined as action taken or situations created to produce excessive mental or physical discomfort, embarrassment, harassment or ridicule. This covers coercive activities and mentally degrading games.

**SMOKE-FREE POLICY STATEMENT**

Touro College recognizes the health, safety and benefits of smoke-free air and the special responsibility that it has to maintain an optimally healthy and safe environment for its faculty, students, employees and guests. Touro is committed to the promotion of good health, wellness and the prevention of disease and to comply with New York state law regarding smoking indoors. Out of respect and loyalty to the college and its mission, smoking (including electronic cigarettes) is not permitted inside any campus building, any of our healthcare facilities where patient care is delivered or inside College vehicles. Violators are subject to disciplinary action. In addition, smoking materials shall not be sold or in any way distributed under the auspices of the Touro College.

**POLICY ON PROFESSIONAL CONDUCT**

Touro College of Dental Medicine is dedicated to high standards of education and a respect for the dignity of the individual. The College is concerned about preventing faculty-student, resident-student or student-student relationships that are perceived as injurious to the mental or physical well-being or academic freedom of any of its students. The College is committed to the principle that students and teachers have a duty to respect each other and promote a professional environment in which the educational, research and clinical missions of the university are pursued.
This policy has been developed to define the standards of conduct in teacher-student and student-student relationships at Touro College of Dental Medicine, specify mechanisms for the prompt handling of complaints, and provide for education methods aimed at preventing student mistreatment and abuse.

- Treat others with the same respect and dignity you would wish them to show you. This includes patients, colleagues, students, teachers, administration, staff and other health professionals.
- Do not harass others physically, sexually, verbally or psychologically.
- Do not discriminate on the basis of race, creed, color, religion, national origin, sex, age, disability, marital status, genetic predisposition, sexual orientation, gender identity or citizen status.
- Be truthful and honest in all communication. Acknowledge errors of omission and commission with colleagues and patients. Do not take credit for or plagiarize others' work.
- Do not use offensive language. Do not belittle patients, students or colleagues in any way, either in or out of their presence. Be aware of personal limitations and areas in which you lack knowledge. Know when to ask for and whom to go to for help. Know when and from whom appropriate supervision is necessary.
- Maintain a high level of confidentiality on matters relating to colleagues, students and patients. Know when, where, and with whom such matters should be discussed.

CONFIDENTIALITY OF STUDENT EDUCATION RECORDS

THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974 (FERPA)

The Family Educational Rights and Privacy Act of 1974, as amended, grants all eligible students the right of access to their own educational records as defined in the law. The law prohibits access to or release of personally identifiable information without the prior written consent of the student except under certain limited circumstances. Touro College policy does not permit access to or release of student records to any party except as authorized by this law. It should be noted, however, that this legislation concerning privacy is affected by Section 510 of the Veterans Education and Employment Act of 1976, which provides that, P.L. 93-568 notwithstanding, records and accounts pertaining to veterans, as well as those of other students, shall be available for examination by government representatives. It is also affected by Sections 507 and 508 of the Patriot Act of 2001, which provides that officials designated by the U.S. Attorney General may petition the court to examine records deemed relevant to certain authorized investigations or prosecutions. If a student wishes to inspect or review his or her records, he or she may contact the office concerned. Complete information concerning this policy is available in the Office of the Registrar.

The Family Educational Rights and Privacy Act of 1974 as amended (FERPA), was designed to protect the privacy of education records. Education records include records, files, documents, or
other materials in hard copy or in electronic format, maintained by Touro College or a party acting on behalf of Touro College, which contain information directly related to a student. FERPA specifies some limited exceptions including certain personal memory aids and certain employment records.

FERPA affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student’s education records within a reasonable period of time, but not more than 45 days after the College receives a request for access. Students should submit to the Office of the Registrar written requests that identify the record(s) they wish to inspect. The Office of the Registrar will make arrangements for access and notify the student of the time and place the records may be inspected.

2. The right to request an amendment to the student’s education records that the student believes contains information that is inaccurate, misleading, or in violation of the student’s rights of privacy. Students may ask the College to amend a record that they believe is inaccurate. They should write to the Office of the Registrar, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide signed and dated written consent before the College discloses personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

   a. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

   b. A second exception that permits disclosure without consent is disclosure of Directory Information. Directory Information is information that is generally not considered harmful or an invasion of privacy if released.

The following is considered “Directory Information” at Touro College and may
be made available to the general public unless the student notifies the Office of the Registrar in writing before the last day to add classes in a semester:

- Name
- Address
- E-mail address
- Telephone listing
- Date and place of birth
- Photograph
- Major field of study
- Dates of enrollment
- Enrollment status
- Classification (freshman, etc.)
- Honors and awards
- Degrees and dates of conferral
- Most recent prior educational agency or institution attended

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Touro College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-4605.

**AUTHORIZATION FOR NON DISCLOSURE OF DIRECTORY INFORMATION**

Enrolled students may refuse to permit disclosure of Directory Information. To do so, they must submit a completed “Authorization for Non-Disclosure of Directory Information” form to the Registrar before the last day to add classes in a semester. This request is valid only for the academic year in which it is made. A new form requesting non-disclosure must be submitted each academic year.
